## A. BACKGROUND: EXECUTIVE ORDER 13327

EO 13327 "Federal Real Property Asset Management" was created to promote efficient and economical use of the Federal Government's real property assets. The EO established the interagency Federal Real Property Council, the role of the Senior Real Property Officer, and the mandated creation of a centralized real property database. This document represents the Federal real property reporting guidelines for agencies. Issued by the Federal Real Property Council (FRPC), pursuant to Executive Order (EO) 13327<sup>1</sup>, this 2011 version reflects changes and additions to the data elements as approved by the FRPC.

In June 2010, the President issued a Memorandum, Disposing of Unneeded Federal Real Estate – Increasing Sales Proceeds, Cutting Operating Costs, and Improving Energy Efficiency as part of the Administration's broader effort to cut waste, streamline how government works, and make the federal government more responsive to the American people. The Memo requires federal agencies to achieve \$3 billion in real property savings.

There are numerous changes in FY 2011 FRPP reporting requirements developed to support the creation of government-wide policies that will help agencies meet the new requirements of the Memo.

The summary of changes for the 2011 data dictionary for Owned and Otherwise Managed Assets includes:

- 2 separate sections for Owned and Otherwise Managed Assets (Section B) and for Leased Assets (Section C).
- Data element numbers are now preceded by a letter (O for Owned and L for Leased) to differentiate between Owned and Leased data elements.
- Former data element "Utilization" has been changed to "Percent of Space Utilization" with a new data definition.
- Agencies are required to provide additional data elements when reporting a disposed asset. The additional data elements include: Real Property Type, Real Property Use, Legal Interest Indicator, Size, Annual Operating Costs, City, State, Country.
- New data element Total Annual BTU Consumption.
- A composite data element to capture personnel information. New data elements include: Number of Federal Employees, Number of Contractor Employees and Number of Federal Teleworking Employees.
- A composite data element to capture anticipated disposal plans. New data elements include: Anticipated Disposition of Asset, Determination of Excess, and Potential Candidate for Sale.
- Revisions to XML schemas, based on the changes above.

### Real Property Reporting: Asset Types

EO 13327 requires agencies to report all owned, leased, and otherwise managed<sup>2</sup> Federal real property assets within and outside the United States, including improvements on Federal land. The agency responsible for reporting the constructed asset-level data is defined by the following:

- For **owned** real property (for which the United States holds title), the Federal agency that exercises real property accountability is responsible for reporting the asset.
- For **otherwise managed** real property, the Federal agency that entered into the agreement with the state or foreign government is responsible for reporting the asset.

### Property Reporting Exclusions<sup>3</sup>

The following real property assets are excluded from the EO and **reporting is optional**.

- Land easements or rights-of-way held by the Federal Government.
- Public domain land (including lands withdrawn for military purposes) or land reserved or dedicated for national forest, national park, or national wildlife refuge purposes, except for improvements on those lands.
- Land held in trust or restricted-fee status for individual Indians or Indian tribes.
- Land, and interests in land, that are withheld from the scope of this order by agency heads for reasons of national security, foreign policy, or public safety.

<sup>1</sup> For the full Executive Order, see <http://edocket.access.gpo.gov/2004/pdf/04-2773.pdf>

<sup>2</sup> "Otherwise managed" properties are state or foreign government-owned properties where a U.S. state or foreign government holds title to the real property, but rights for use have been granted to a Federal Government entity in an arrangement other than a leasehold. Otherwise managed properties also include those properties under "Museum Trust."

<sup>3</sup> These exclusions are specified in Section 2 of EO 13327.

## B. FRPC INVENTORY DATA ELEMENTS & DESCRIPTIONS: OWNED AND OTHERWISE MANAGED ASSETS

The FRPC has identified and defined data elements for owned and otherwise managed assets that are to be captured and reported by all executive agencies, as listed in **Table 1** below. These data elements are:

- To be reported at the **constructed asset-level** for buildings and structures and the **parcel level** for land.
- Applicable for all **Property Types** (land, building, structure).

### Applicable for Owned and Otherwise Managed Assets.

**Table 1: FRPC's Data Elements for Owned and Otherwise Managed Assets**

Refer to [Appendix B: Quick Guide - Data Dictionary](#) for a summarized listing of the data elements, valid codes, pick-lists, and other technical notes.

## O1. REAL PROPERTY TYPE

**Real Property Type** indicates the asset as one of the following categories of real property (valid codes are in parentheses):

- **Land (20)**
- **Building (35)**
- **Structure (40)**

## O2. REAL PROPERTY USE

See also [Appendix B: Quick Guide - Predominant Use Categories & Codes](#)

**Real Property Use** indicates the asset's predominant use in one of the following categories:

- Land Predominant Use (24 categories)
- Building Predominant Use (16 categories)
- Structure Predominant Use (22 categories)

**Note: Predominant Use** means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research. A real property asset must have one predominant use code. Real Property Predominant Use categories, along with descriptions and associated 2-digit codes, can be found in [Section E: Definitions and Codes – Predominant Use](#).

## O3. LEGAL INTEREST

### a.) LEGAL INTEREST INDICATOR

**Legal Interest Indicator** is used to identify a real property asset as being owned by the Federal Government or otherwise managed by the Federal Government (valid codes are in parentheses):

- **Owned (G):** The Federal Government has fee simple interest for the real property asset.

#### Otherwise Managed:

- **State Government-Owned (S):** A U.S. state government holds title to the real property asset but rights for use have been granted to a Federal Government entity in a method other than a leasehold arrangement.
- **Foreign Government-Owned (F):** A foreign government holds title to the real property asset but rights for use have been granted to a Federal Government entity in a method other than a leasehold arrangement.
- **Museum Trust (M):** A trust entity holds title to the real property asset predominantly used as a museum, but Federal funds may be received to cover certain operational and maintenance costs.

**Note:** Agencies are not to report an asset located in a foreign country with a legal interest of State Government-Owned. Agencies are not to report an asset located in the United States with a legal interest of Foreign Government-Owned.

**Note:** Section 2 of EO 13327 defines Federal real property as including "real property owned, leased, or otherwise managed by the Federal Government, both within and outside the United States, and improvements on Federal lands." The EO excludes other interests in real property as noted on page 3. Therefore, only Federal Government-owned, -leased, or -otherwise managed property is to be reported. For property where the Federal Government occupies the property via easement, the property is not reported, as it is excluded in the EO. For Federal Government-owned property where the Federal Government has issued an easement to another entity, the property should be reported as Federal Government-owned, but the easement should be listed in **Restrictions** (data element #23).

## O4. STATUS

### a.) STATUS INDICATOR

**Status Indicator** reflects the *predominant* physical/operational status of the asset. Buildings, structures, and land assets will have one of the following attributes (valid codes are in parentheses):

- **Active (A):** Currently assigned a mission by the reporting agency.
- **Inactive (I):** Not currently being used but may have a future need. Includes real property in a caretaker status (closed pending disposal; for example, facilities that are pending a BRAC action) and closed installations with no assigned current Federal mission or function.
- **Excess (E):** Formally identified as having no further program use of the property by the landholding agency.
- **Disposed (D):** Required for assets that have exited the Federal portfolio of assets during the current reporting period.

**Exception:** Otherwise managed assets (Legal Interest = State Government-Owned [S] or Foreign Government-Owned [F]) are excluded for **Outgrant Indicator** reporting. However, otherwise managed assets (Legal Interest = Museum Trust [M]) are required for **Outgrant Indicator** reporting.

### b.) OUTGRANT INDICATOR

In addition to the predominant **Status** of the property, each asset where the **Legal Interest** equals “owned” will have an **Outgrant Indicator**. **Outgrant** refers to Federal Government-owned or leased real property in which rights have been conveyed or granted to another entity.

- **Outgrant Indicator (Y/N):** Indicate Yes (Y) or No (N) as to whether rights have been conveyed or granted to another entity.

## O5. HISTORICAL STATUS

**Exception:** Otherwise managed assets (Legal Interest = State Government-Owned [S] or Foreign Government-Owned [F]) are excluded for **Historical Status** reporting. However, otherwise managed assets (Legal Interest = Museum Trust [M]) are required for **Historical Status** reporting.

Each asset where the **Legal Interest** equals “owned” will have one of the following **Historical Status** attributes (valid codes are in parentheses):

- **National Historic Landmark – NHL (1)**
- **National Register Listed – NRL (2)**
- **National Register Eligible – NRE (3)**
- **Non-contributing element of NHL/NRL district (4)**
- **Not Evaluated (5)**
- **Evaluated, Not Historic (6)**

**Note:** **Historical Status** is reported on all owned buildings, structures, and land assets, except those assets that have been evaluated and for which disclosure of historic status is restricted based upon EO 13007 and Section 304 of the National Historic Preservation Act.

## O6. REPORTING AGENCY

Refer to [Appendix E: Agency Bureau Codes](#).

**Reporting Agency** refers to the Federal Government Agency/Bureau reporting the property to the FRPC inventory database. Agencies are required to provide data on assets in which they own directly.

**Reporting Agency** is also required when an agency provides the **Disposition** data element (#24) for an asset that has exited the inventory.

Provide the 4-digit Agency Bureau Code for the agency reporting the property. The full list of Agency Bureau Codes may be found in Appendix E. The agency bureau code is a 4-digit code identifying the agency and bureau. The first two digits identify the agency; the last two digits identify the bureau within the agency.

## 07. USING ORGANIZATION

**Using Organization** refers to the *predominant* Federal Government Agency/Bureau (or other non-Federal Government entity) occupying the property.

Provide the 4-digit Agency Bureau Code of the predominant user of the property. If property is occupied by a non-Federal Government entity (e.g., private sector), provide "9999" for the **Using Organization** value. The full list of Agency Bureau Codes may be found in Appendix E.

## 08. SIZE

**Note:** Numeric values reported for **Gross Square Feet** or **Structural Unit** must be greater than zero. For land, the value for **Urban Acres** or **Rural Acres** can be "zero," but "zero" cannot be entered in both fields.

Size refers to the size of the real property asset according to appropriate units of measure. The unit of measure used for the three real property types is as follows:

- For **land**, the unit of measure is *acreage* and is designated as either **Rural Acres** or **Urban Acres**.
- For **buildings**, the unit of measure is area in *square feet* and is designated as **Gross Square Feet (GSF)**.
- For **structures**, refer to the **Structural Unit** and the **Unit of Measure** for reporting the size of specific types of structures.

### a.) RURAL ACRES (LAND)

Provide the number of rural acres associated with each land asset record.

### b.) URBAN ACRES (LAND)

Provide the number of urban acres associated with each land asset record.

### c.) GROSS SQUARE FEET (BUILDINGS)

Provide the total area in gross square feet.

### d.) STRUCTURAL UNIT (STRUCTURES)

### e.) UNIT OF MEASURE (STRUCTURES)

Provide both the size (or quantity) and the unit of measure for the structure. **Table 2** provides the valid units of measure for each predominant use category for structures.

Table 2: Structural Units of Measure for Predominant Use Categories

Code	Predominate Use Category for Structures	Valid Units of Measure
12	Airfields Pavements	Square Yards
13	Harbors and Ports	Square Yards
15	Power Development and Distribution	Each, Linear Feet
16	Reclamation and Irrigation	Each, Linear Feet
18	Flood Control and Navigation	Each, Linear Feet
28	Museum	Each
40	Storage (other than buildings)	Each, Linear Feet
50	Industrial (other than buildings)	Each, Linear Feet
60	Service (other than buildings)	Each
65	Space Exploration Structures	Each
66	Parking Structures	Square Yards
70	Research and Development (other than labs)	Each
71	Utility Systems	Each, Linear Feet, Miles
72	Communications Systems	Each, Miles
73	Navigation and Traffic Aids (other than buildings)	Each
75	Recreational (other than buildings)	Each
76	Roads and Bridges	Lane Miles, Square Yards
77	Railroads	Miles
78	Monuments and Memorials	Each
79	Miscellaneous Military Facilities	Each
82	Weapons Ranges	Each
80	All Other	Each, Lane Miles, Linear Feet, Miles, Square Yards

The unit of measure is reported along with the size of the structure. The database codes for the units of measure are as follows:

- Each (1)
- Lane Miles (2)
- Linear Feet (3)
- Miles (4)
- Square Yards (5)

## 09. PERCENT OF SPACE UTILIZATION (PERFORMANCE MEASURE 1)

**NOTE: Percent of Space Utilization** Must be reported as a number greater than or equal to 0 and less than or equal to 100 representing the percentage of space being utilized. If the actual percent of space utilization is greater than 100, then agencies must provide the numeric value of 100.

This data element replaces the utilization data element from FY 2010 (i.e. "under-utilized", "over-utilized", etc.).

Provide the percentage of the space utilized in a building asset. Each building asset will provide a percentage from 0% to 100%. This data element is **REQUIRED** for the following Building Predominant Use categories: Offices, Hospitals, Family Housing, Dormitories and Barracks, Warehouses and Laboratories. Agencies should anticipate reporting **Prisons, Schools and Museums** for the FY 2012 data collection. This data element is optional for all other building assets as well as land and structure assets.

**Utilization rate for the Predominant Use categories is defined as follows:**

- **Offices, Hospitals – percentage should be based on ratio of occupancy to current design capacity.**
- **Family Housing, Dormitories and Barracks – percentage should be based on the individual units that are occupied.**
- **Warehouses – ratios of gross square feet occupied to current design capacity.**
- **Laboratories – ratio of lab modules/ stations to current design capacity.**

## O10. VALUE

**Exception:** Land is excluded for **Value**. Only buildings and structures will be required to have **Value** reported in the inventory.

**Value** is defined as the cost of replacing the existing constructed asset at today's building standards, and is also known as Plant Replacement Value (PRV) or Functional Replacement Value (FRV). **Value** is the amount required to **construct** an asset of similar size and in the same location. The **Value** reported must be greater than zero.

**Formula: Value = Unit x Unit Cost x Overhead Factor**

**Note:** Numeric values reported for **Value** must be greater than zero.

Notes:

- In determining value, agencies are to assume that they will replace the asset with a newly constructed asset of the same size at the same location at today's buildings standards and codes. Agencies are not to consider the current condition or need of an asset.
- The result is adjusted by area cost and inflation, as appropriate.
- For otherwise managed property, **Unit** should be based on the area as specified in the agreement.
- **Overhead Factor** includes other costs that are associated with construction, such as planning and design, historic factor, supervision, inspection, and other overhead costs. The intent at the moment is for agencies to define their own guidance and regulations for implementing the **Value** formula. Agencies such as DoD and GSA have published cost guidance that can be used by other agencies.
- DoD's Facilities Pricing Guide can be found at [http://www.wbdg.org/ccb/DOD/UFC/ufc\\_3\\_701\\_01.pdf](http://www.wbdg.org/ccb/DOD/UFC/ufc_3_701_01.pdf)

## O11. CONDITION INDEX (PERFORMANCE MEASURE 2)

**Exception:** Land is excluded for **Condition Index**. Only buildings and structures will be required to have a **Condition Index**.

**Condition Index (CI)** is a general measure of the constructed asset's condition at a specific point in time. **CI** is calculated as the ratio of **Repair Needs** to **Plant Replacement Value (PRV)**.

**Formula: CI = [1 - (\$repair needs/\$PRV)] x 100**

**Note:** Numeric values reported for **Condition Index** must be greater than or equal to zero.

**Repair Needs:** the amount necessary to ensure that a constructed asset is restored to a condition substantially equivalent to the originally intended and designed capacity, efficiency, or capability. Agencies will initially determine repair needs based on existing processes, with a future goal to further refine and standardize the definition.

**Plant Replacement Value** (or Functional Replacement Value): the cost of replacing an existing asset at today's standards (see data element #10 **Value**).

Notes:

- The **CI** will be reported as a "percent condition" on a scale of 0% to 100% (positive whole numbers; for cases in which the calculation results in a negative number, the percentage should be reported as zero).
- The higher the **CI**, the better the condition of the constructed asset.
- If the agency only owns or otherwise manages a portion of the constructed asset, only report condition of the owned or otherwise managed portion of the inventory.

## O12. MISSION DEPENDENCY (PERFORMANCE MEASURE 3)

**Mission Dependency** is the value an asset brings to the performance of the mission as determined by the governing agency (valid codes are in parentheses):

- **Mission Critical (1)** – without constructed asset or parcel of land, mission is compromised.
- **Mission Dependent, Not Critical (2)** – does not fit into *Mission Critical* or *Not Mission Dependent* categories.
- **Not Mission Dependent (3)** – mission unaffected.
- **Not Rated (9)** – used for DoD/BRAC properties only.

## O13. ANNUAL OPERATING COSTS (PERFORMANCE MEASURE 4)

**Note:** Numeric values reported for **Annual Operating Costs** must be greater than or equal to zero.

**Note:** Excludes federal personnel and security costs.

- **Annual Operating Costs** consist of the following:
  - Recurring maintenance and repair costs.
  - Utilities (includes plant operation and purchase of energy).
  - Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
  - Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).
  - Agencies are to provide actual costs annually.

## O14. MAIN LOCATION

**Main Location** refers to the street/delivery address for the asset **or** the latitude and longitude coordinates. Either of the following will be provided for the constructed asset or parcel of land:

- Street address.
- OR
- Latitude and longitude (if no security concerns exist).

### Notes:

For assets that do not have a specific street address and there is a security issue associated with reporting the latitude/longitude:

- Report the street address for the main gate or main entrance if the asset is located on an installation or campus.
- If there is no street address available, report the ZIP code in the **Street Address** field (as well as in **ZIP code** field). For assets in a geographic location that do not have a ZIP code, report the name of the nearest city and country in the **Street Address** field (as well as the GLC codes in **City** and **Country** fields).

### a.) STREET ADDRESS

Provide the *Street Address* in geo-codable format, i.e., an address that can be mapped by Geographic Information System (GIS) software or used by an overnight delivery service to deliver packages. An example of a geo-codable address is "123 Main Street." Agencies now have the option to report either the asset's full postal address (including city, state, and five-digit ZIP code) or the asset's street address.

- Do not use the following:
  - Mailing address that is different than the location's address
  - Building name
  - Street corner (e.g., "Main & 1st")
  - Other description (such as a Post Office Box number)

If using special characters in text (&, <, >, ", ' ) escape characters must be used in XML as shown below:

• Special Character	• Special Character Name	• XML Code to Use
• &	• Ampersand	• &amp; ;
• <	• Less than	• &lt; ;
• >	• Greater than	• &gt; ;
• "	• Quote	• &quot; ;
• '	• Single quote	• &#39; ;

### b.) LATITUDE

### c.) LONGITUDE

**Note:** If **Street Address** is provided, **Latitude** and **Longitude** are not required.

Indicate both the *Latitude* and *Longitude* coordinates of the asset's physical address. Report *Latitude* and *Longitude* in either decimal format or degrees, minutes, seconds, and direction.

## O15. REAL PROPERTY UNIQUE IDENTIFIER

**Real Property Unique Identifier** is a code that is unique to a real property asset that will allow for linkages to other information systems. The **Real Property Unique Identifier** is assigned by the Reporting Agency and can contain up to 24 alpha-numeric digits.

Note: The *Real Property Unique Identifier* must remain the same for each asset from year to year.

## O16. CITY

GLCs (Geo Location Codes) can be found at: <http://www.gsa.gov/glc>

Provide the 4-digit GLC for the **City** or town associated with the reported **Main Location** in which the land, building, or structure is located.

## O17. STATE

Provide the 2-digit GLC for the **State** or District of Columbia associated with the reported **Main Location** in which the land, building, or structure is located.

## O18. COUNTRY

Provide the 3-digit GLC for the **Country** associated with the reported **Main Location** in which the land, building, or structure is located.

## O19. COUNTY

Provide the 3-digit GLC for the **County** associated with the reported **Main Location** in which the land, building, or structure is located.

## O20. CONGRESSIONAL DISTRICT

The Congressional District database can be found at [www.house.gov](http://www.house.gov)

Provide the value for the **Congressional District** associated with the reported **Main Location**

in which the land, building, or structure is located.

Notes:

- When agencies report the **Congressional District** for an asset, FRPP cross-references the **ZIP code** of the asset and suggests a **Congressional District** value, which may be ignored by the agency if it so chooses.
- **Congressional District** is a 20-character alpha-numeric field, as assets may be located in multiple **Congressional Districts**.
- For a state with only one Congressional District, which sometimes is referred to as "At Large", enter the number one (1) for the Congressional District data element. For example: Alaska, Delaware.

## O21. ZIP CODE

ZIP codes can be found at  
<http://www.usps.com>

Provide the 5-digit ZIP code associated with the reported **Main Location** in which the land, building, or structure is located and, if known, the additional 4-digit ZIP code suffix.

## O22. INSTALLATION/SUB-INSTALLATION IDENTIFIER

### a.) INSTALLATION ID

**Installation** – Land, buildings, other structures, or any combination of these. Examples of installations are a hydroelectric project, office building, warehouse building, border station, base, post, camp, or an unimproved site.

Provide a 24-digit alpha-numeric code for the **Installation ID** assigned by the reporting agency.

### b.) SUB-INSTALLATION ID

**Sub-Installation** – Part of an installation identified by a different geographic location code than that of the headquarters installation. An installation must be separated into sub-installations (and reported separately) when the installation is located in more than one state or county. However, an agency may elect to separate an installation into sub-installations even if the installation is not located in more than one state or county.

Provide a 6-digit alpha-numeric code for the **Sub-Installation ID** assigned by the reporting agency.

### c.) INSTALLATION NAME (OPTIONAL)

**Installation Name** – Installation Name is an optional data element. An installation name can be the building name in the case of a single building installation or the name of the entire installation as in the case of an agency campus.

Provide up to 100 alpha-numeric digits for the **Installation Name** assigned by the reporting agency. If using special characters in text (&, <, >, ", ' ) escape characters must be used in XML as shown below:

• Special Character	• Special Character Name	• XML Code to Use
• &	• Ampersand	• &amp; ;
• <	• Less than	• &lt; ;

• >	• Greater than	• &gt;
• "	• Quote	• &quot;
• '	• Single quote	• &#39;

## O23. RESTRICTIONS

See [Section E: Definitions and Codes – Restrictions](#) for legal descriptions.

**Note:** More than one restriction value is acceptable; if a property has multiple restrictions associated with it, agency should report them all. Partial restrictions should also be reported (e.g., easement granted on part of the land parcel).

**Note:** If the response is (13) Non-Applicable, no other restrictions will be allowed.

**Restrictions** are limitations on the use of real property. Provide one or more of the following values for each building, structure, and parcel of land (valid codes are in parentheses):

- **Environmental Restrictions (1):** cleanup-based restrictions, etc.
- **Natural Resource Restrictions (2):** endangered species, sensitive habitats, floodplains, etc.
- **Cultural Resource Restrictions (3):** archeological, historic, Native American resources, except those excluded by EO 13007, Section 304 of the National Historical Preservation Act, etc.
- **Developmental (improvements) Restrictions (4)**
- **Reversionary Clauses from Deed (5)**
- **Zoning Restrictions (6)**
- **Easements (7):** including access for maintenance rights, etc.
- **Rights-of-Way (8)**
- **Mineral Interests (9)**
- **Water Rights (10)**
- **Air Rights (11)**
- **Other (12)**
- **Non-Applicable (13)**

## O24. DISPOSITION

During the confirmation step of the FRPP data submission process, FRPP will generate the Missing Assets report, which compares the current reporting period to the previous year's reporting to ensure that all disposed property has been properly identified. Agencies will need to correct data or be prepared to explain these missing asset variances to OMB.

Agencies are required to provide all assets that have exited the Federal portfolio of assets during the reporting fiscal year. This will include, but is not limited to, sales, Federal transfers, public benefit conveyances, and demolitions. **Disposition** data is reported only in the year the asset has exited the Federal portfolio of assets.

Agencies are required to provide the following data elements for each disposed asset (**new data elements highlighted**):

- **Real Property Type**
- **Real Property Use**
- **Legal Interest Indicator**
  - **Status** = "disposed"
  - **Reporting Agency**
- **Size**
- **Annual Operating Costs – Report full year costs**
- **Real Property Unique Identifier**
- **City**
- **State**
- **County (Required for U.S. assets only)**
- **Country (Required for U.S. assets only)**
- **Disposition**

**a.) DISPOSITION METHOD**

**Note:** The definitions of the sub-categories of disposition methods for Public Benefit Conveyance can be found in [Section D: Definitions and Codes - Public Benefit Conveyance Methods](#).

Report one of the following six categories for the disposition method as outlined below: Public Benefit Conveyance, Federal Transfer, Sale, Demolition, Lease Termination, or Other. Provide one of the 2-character codes to indicate the disposition method (valid codes are in parentheses):

**(PB) Public Benefit Conveyance**

Subcategories (optional):

- **(HA):** Homeless Assistance
- **(HE):** Health or Educational Use
- **(PR):** Public Parks and Public Recreational Area
- **(HM):** Historic Monuments
- **(CF):** Correctional Facility Use
- **(PF):** Port Facilities
- **(PA):** Public Airports
- **(WC):** Wildlife Conservation
- **(NS):** Negotiated Sales to Public Agencies
- **(SH):** Self-help Housing
- **(LE):** Law Enforcement and Emergency Management Response

**(FT) Federal Transfer**

**(SL) Sale**

Subcategories (optional):

- **(SN):** Negotiated Sale
- **(SP):** Public Sale

**(DM) Demolition**

**(OT) Other**

**Note:** Administrative errors that are corrected by an agency must not be reported as disposed assets. The administrative errors should no longer be reported to FRPP once discovered. These assets would show up in the agency's missing asset report in FRPP and should be noted by the agency.

**Note:** Future dates for planned disposal actions are not accepted for **Disposition Date**.

**b.) DISPOSITION DATE**

Report the date the disposal action was completed in mm/dd/yyyy format. Refer to the examples in the matrix below for the *Disposition Date* to report based on the method of disposal.

Disposition Method	Example Event Indicating Disposition Date
Public Benefit Conveyance	Date of assignment letter to sponsoring agency and subsequent deed date to grantee
Federal Transfer	Date of letter of transfer
Sale (Negotiated or Public)	Deed date
Demolition	Demolition date
Other	Transaction date

**Note:** Numeric values reported for **Disposition Value** must be greater than or equal to zero.

**c.) DISPOSITION VALUE**

- Reported **Disposition Value** is dependent upon the disposition method. The following **Disposition Value** information is to be reported:

Disposition Method	Disposition Value to Report
Public Benefit Conveyance	Plant Replacement Value
Federal Transfer	
Demolition	
Other	
Sale (Negotiated or Public)	Sales Price

**Note:** Numeric values reported for **Net Proceeds** may be less than, greater than, or equal to zero.

#### d.) NET PROCEEDS

- Report the proceeds received as part of the asset disposal less the disposal costs incurred by the agency. Data reporting is required only for assets disposed through Sale.

Notes:

- The **Net Proceeds** represents the total cost avoidance realized by the Government on the remaining term of the lease minus any Government costs associated with terminating the lease before the expiration date in the contract. The **Net Proceeds** may in some cases be a negative number.
- An agency must report all of the proceeds to the Federal government from the sale of an asset. This includes any funds that are returned to the U.S. Treasury, as well as any funds that the agency retains. The agency must subtract any costs incurred in the sale of the asset to determine the net proceeds from the sale.

#### e.) RECIPIENT

- Report either the name of the Federal agency or the name of the non-Federal organization that received the asset. Data reporting is required only for assets disposed through Federal Transfer or Public Benefit Conveyance.

Notes:

- Use "Private" for recipients covered by the Privacy Act.

Use the 4-digit Agency/Bureau code for Federal Transfers.

## O25. SUSTAINABILITY

Reporting on **Sustainability** of assets is required for FY 2011 reporting.

**Sustainability** reporting is required for all building assets greater than or equal to 5,000 GSF. Sustainability may be reported for building assets under 5,000 GSF and structure assets on an optional basis. **Sustainability** should not be reported for land assets.

The sustainability goal in Section 2 (g) (iii) of Executive Order 13514 is applicable only to buildings.

**Sustainability** reflects whether or not an asset meets the sustainability criteria set forth in Section 2 (g) (iii) of Executive Order 13514<sup>4</sup>. **To be considered sustainable and report "Yes," the asset must meet the five Guiding Principles for High Performance and Sustainable Buildings<sup>5</sup>. Note: If a building was constructed or renovated AND certified by an American National Standards Institute (ANSI)- credited institution prior to the release of the Guiding Principles (FY 2007), then the asset can count as sustainable.**

Valid codes are in parentheses:

**Yes (1)** – asset has been evaluated and meets guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

**No (2)** – asset has been evaluated and does not meet guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

**Not yet evaluated (3)** – asset has not yet been evaluated on whether or not it meets guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

**Not applicable (4)** – guidelines set forth in Section 2 (g) (iii) of Executive Order 13514 do not apply to the asset. **This includes assets that will be disposed of by the end of FY 2015.**

<sup>4</sup> For the full Executive Order, see <http://edocket.access.gpo.gov/2009/pdf/E9-24518.pdf>

<sup>5</sup> For the full text of the **Guiding Principles of Federal Leadership in High Performance and Sustainable Buildings** <http://www1.eere.energy.gov/femp/regulations/eo13514.html>

## O26. TOTAL ANNUAL BTU CONSUMPTION

This data element is **optional** for all Building and Structure assets in FY 2011. Agencies should prepare for reporting this data element for the FY 2012 data collection.

BTU consumption should not be reported for Land. An input for BTU consumption for Land will result in an error in the system.

Agencies will report the total energy consumption of the asset in units of million British thermal units (MBTU's) in terms of energy delivered to the asset (site-delivered BTU). This measure should not include generation and transmission losses for electricity and steam/chilled water. See DOE's reporting guidance for more information related to calculation of this figure:

[http://www1.eere.energy.gov/femp/regulations/facility\\_requirements.html](http://www1.eere.energy.gov/femp/regulations/facility_requirements.html)

For agencies covered by EISA Section 432, this reporting should be consistent with the asset-level data that is collected by the Energy Star Portfolio manager benchmarking tool and uploaded into the EISA 432 Compliance Tracking System (CTS).

## O27. Personnel

### O27A. NUMBER OF FEDERAL EMPLOYEES

This data element is **required** for all Office and Laboratory Building assets. It is optional for all other types of Building assets as well as Land and Structure assets.

Agencies are to provide the total number of Federal personnel (including full-time teleworkers) assigned to the building in full time equivalents (FTE's). Agencies should consult OMB Circular A-11 for guidance on defining FTE. Agencies are to coordinate all totals with the personnel office at their agency.

### O27B. NUMBER OF CONTRACTOR EMPLOYEES

This data element is **required** for all Office and Laboratory Building assets. It is optional for all other types of Building assets as well as Land and Structure assets.

For purposes of submitting data on real property assets, a contractor employee is an employee working under a contract as defined by Part 2.101 of the Federal Acquisition Regulation (FAR). Agencies are to coordinate all totals with the personnel office at their agency. Agencies should not report those people who are unpaid interns or performing volunteer work.

### O27C. NUMBER OF FEDERAL TELEWORKING EMPLOYEES

This data element is **optional** for all asset types in FY 2011. Agencies should anticipate reporting this data element for Office and Laboratory Building assets for the FY 2012 data collection.

Agencies are to provide the total number of personnel who telework at least one day per week on a regular and recurring basis, pursuant to a signed telework agreement, in FTE's. Agencies should consult OMB Circular A-11 for guidance on defining FTE.

The number of federal teleworking employees should be less than the total number of Federal employees (data element #27a). A number greater than or equal to what was submitted for data element #27a will result in an error.

## O28. ANTICIPATED DISPOSITION OF ASSET

This data element is **required** for all non-disposed assets (active, inactive and excess) in FY 2011.

**28a.) Does your agency anticipate disposing of this asset in the future? Agencies should answer Yes or No.**

**If the response is No, do not provide responses to 28b and 28c. If the response is Yes, proceed to answer 28b and 28c.**

**28b.) Anticipated Disposition Method**

If the answer to the above question is YES, report one of the following categories for the disposition method as outlined below: Provide one of the 2-character codes to indicate the disposition method (valid codes are in parentheses):

- **(PB) Public Benefit Conveyance**
- **(FT) Federal Transfer**
- **(SL) Sale**

- (DM) Demolition
- (OT) Other – the disposition method is known but is not one of the listed methods.
- (UN) Unknown – the disposition method has not been determined.

**28c.) Anticipated Disposal Year: Report the fiscal year (FY) the disposal action is anticipated to be completed.** Refer to the examples in the matrix below for the *Anticipated Disposition Date* to report based on the method of disposal. The FY provided must be a current (FY2011) or future reporting FY. Agencies must not report a prior FY.

Disposition Method	Anticipated Disposition Date
Public Benefit Conveyance	Anticipated fiscal year of assignment letter to sponsoring agency and subsequent deed date to grantee
Federal Transfer	Agencies with authority to sell property should provide the anticipated fiscal year the property will be transferred. Agencies without authority to sell property should provide the fiscal year the report of excess was or will be submitted to GSA PBS Office of Real Property Disposal.
Sale	Agencies with authority to sell property should provide the anticipated fiscal year the property will be sold or brought to auction. Agencies without authority to sell property should provide the fiscal year the report of excess was or will be submitted to GSA PBS Office of Real Property Disposal.
Demolition	Anticipated fiscal year of demolition
Other	Anticipated fiscal year the disposition will take place
Unknown	Anticipated fiscal year the disposition will take place

## O29. DETERMINATION OF EXCESS

This data element is required for all non-disposed assets (active, inactive and excess) in FY 2011.

**29a.) Does your agency anticipate reporting this asset as “Excess” in the future? Agencies should answer Yes or No**

If the answer to 29a is **No**, do not provide response to 29b. If the answer to 29a is **Yes**, proceed to 29b.

**29b.) Provide the anticipated fiscal year (FY) that the property’s status was changed or will be changed to “Excess” pursuant to a formal identification that the property is no longer needed to carry out program responsibilities.** The FY provided must be a current (FY 2011) or future reporting FY. Agencies must not report a prior FY.

## O30. POTENTIAL CANDIDATE FOR SALE

**Note:** An entry for Otherwise Managed assets will result in an error.

This data element is **required** for owned “Excess” assets only in FY 2011. It is optional for active and inactive assets. Disposed assets are not to report this data element.

An asset is a candidate for sale if it is potentially sellable, severable from a large campus, and accessible.

- **30a.) Is this asset a potential candidate for sale? Agencies should answer Yes or No.**

If the answer to 30a is **No**, do not provide a response to 30b. If the answer to 30a is **Yes**, proceed to 30b.

- **30b.) Report the fiscal year (FY) of the anticipated sale.** The FY provided must be a current (FY 2011) or future reporting FY. Agencies must not report a prior FY.

## C. FRPC INVENTORY DATA ELEMENTS & DESCRIPTIONS: LEASED ASSETS

---

### Summary of Changes for the 2011 Data Dictionary for Leased Assets

- Data element numbers are now preceded by a letter (O for Owned and L for Leased) to differentiate between Owned and Leased data elements.
- Requirement to report leases at the asset and lease level
- Former data element “Utilization” has been changed to “Percent of Space Utilization” with a new data definition.
- Former data element, “Annual Operating Costs” has been changed to “Lease Costs” and consists of 2 subelements: Annual Net Rent to Lessor and Annual Operating and Maintenance Costs.
- Agencies are required to provide additional data elements when reporting a disposed asset. The additional data elements include: Real Property Type, Real Property Use, Legal Interest Indicator, Size, Lease Costs, City, State, Country.
- New data element Total Annual BTU Consumption
- A composite data element to capture personnel information. New data elements include: Number of Contractor Employees, Number of Federal Employees, Number of Federal Teleworking Employees.
- A composite data element to capture anticipated disposal plans. New data elements include: Anticipated Disposition of Asset, and Determination of Excess.
- New Disposition Method Category: Lease Expiration.
- 3 new data elements to capture more specific information at the lease level: Lease Identifier, Lease Expiration Date, Lease Termination Rights.
- Revisions to XML schemas, based on the changes above.

### Real Property Reporting: Asset Types

EO 13327 requires agencies to report all owned, leased, and otherwise managed<sup>6</sup> Federal real property assets within and outside the United States, including improvements on Federal land. The agency responsible for reporting the constructed asset-level data is defined by the following:

For **leased** real property, the Federal agency that signed the lease is responsible for reporting the asset.

### Property Reporting Exclusions<sup>7</sup>

The following real property assets are excluded from the EO and **reporting is optional**.

- Land easements or rights-of-way held by the Federal Government.
- Public domain land (including lands withdrawn for military purposes) or land reserved or dedicated for national forest, national park, or national wildlife refuge purposes, except for improvements on those lands.
- Land held in trust or restricted-fee status for individual Indians or Indian tribes.
- Land, and interests in land, that are withheld from the scope of this order by agency heads for reasons of national security, foreign policy, or public safety.

---

<sup>6</sup> “Otherwise managed” properties are state or foreign government-owned properties where a U.S. state or foreign government holds title to the real property, but rights for use have been granted to a Federal Government entity in an arrangement other than a leasehold. Otherwise managed properties also include those properties under “Museum Trust.”

<sup>7</sup> These exclusions are specified in Section 2 of EO 13327.

The FRPC has identified and defined data elements for leased assets that are to be captured and reported by all executive agencies, as listed in **Table 1** below. These data elements are:

- Applicable for all **Property Types** (land, building, structure).
- To be reported at the Asset AND Leased Level. See Table 2 for detail.

#### Scenario 1: Multiple Assets, One Lease

For instances where there are multiple leased assets covered by one lease, report all applicable data elements (L1 – L33) at the Asset Level as a separate record for each leased asset.

#### Scenario 2: Multiple Leases, One Asset

For instances where there are multiple leases within one leased asset, report the “Asset Level” data elements once. Report the “Lease Level” data elements for each individual lease within the leased asset.

## Applicable for all Leased Assets

- \*PM = Performance Measure

Refer to [Appendix B: Quick Guide - Data Dictionary](#) for a summarized listing of the data elements, valid codes, pick-lists, and other technical note

## L1. REAL PROPERTY TYPE – ASSET LEVEL SUBMISSION

**Real Property Type** indicates the asset as one of the following categories of real property (valid codes are in parentheses):

- **Land (20)**
- **Building (35)**
- **Structure (40)**

## L2. REAL PROPERTY USE – LEASE LEVEL SUBMISSION

See also [Appendix B: Quick Guide - Predominant Use Categories & Codes](#)

**Real Property Use** indicates the asset's predominant use in one of the following categories:

- Land Predominant Use (24 categories)
- Building Predominant Use (16 categories)
- Structure Predominant Use (22 categories)

**Note: Predominant Use** means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research. A real property asset must have one predominant use code. Real Property Predominant Use categories, along with descriptions and associated 2-digit codes, can be found in [Section E: Definitions and Codes – Predominant Use](#).

## L3. LEGAL INTEREST

### Note regarding GSA leases:

Unchanged from previous years, agencies do not report GSA leases as part of their real property inventory. GSA is the responsible agency for reporting GSA-signed leases.

For delegated authority to lease properties, where GSA delegates its authority to another agency to lease space in which that agency signs a lease, that agency will report the leased property.

**Note:** For property occupied under a lease agreement where rental payments are zero (\$0), report property's **Legal Interest** as "Leased."

**Note:** For all leased assets where the agency is responsible for maintaining the condition of the asset, **Condition Index** must be reported.

See [Section D: Definitions and Codes – Lease Authority Definitions](#).

### A.) LEGAL INTEREST INDICATOR – ASSET LEVEL SUBMISSION

**Legal Interest Indicator** is used to identify a real property asset as being leased to the Federal Government (i.e., as lessee).

**Leased (L): The rights** to use the real property asset have been assigned to the Federal Government by a private entity or a non-Federal Government entity for a **defined period** of time in return for rental payments.

**Note:** Section 2 of EO 13327 defines Federal real property as including "real property owned, leased, or otherwise managed by the Federal Government, both within and outside the United States, and improvements on Federal lands." The EO excludes other interests in real property as noted on page 3. Therefore, only Federal Government-owned, -leased, or -otherwise managed property is to be reported. For property where the Federal Government occupies the property via easement, the property is not reported, as it is excluded in the EO. For Federal Government-owned property where the Federal Government has issued an easement to another entity, the property should be reported as Federal Government-owned, but the easement should be listed in **Restrictions** (data element #23).

### B.) LEASE MAINTENANCE INDICATOR - ASSET LEVEL SUBMISSION

The **Lease Maintenance Indicator** is required for all leased assets (i.e., all assets with **Legal Interest** equal to "Leased") . See also **Condition Index** (data element #11).

- **Lease Maintenance Indicator (Y/N):** Indicate Yes (Y) or No (N) regarding whether agency is responsible for maintaining the condition of the space being leased..

### C.) LEASE AUTHORITY INDICATOR – LEASE LEVEL SUBMISSION

**Lease Authority Indicator** is required for leased assets only.

Provide one of the 2-character codes to indicate the authority used to execute the lease (valid 2-character codes are in parentheses):

- **(IS) Independent Statutory Authority:** Authority to acquire leased space that originates in a statute enacted into law. This may be an agencywide standing authority to acquire leased space or it may be singular authority granted to acquire leased space for a specific activity of a Federal agency.
- **(CS) Categorical Space - Delegation from GSA:** A standing delegation of authority from the Administrator of General Services to a Federal agency to acquire a type of space, such as antennas, depots, piers, and greenhouses.
- **(SP) Special Purpose Space - Delegation from GSA:** A standing delegation of authority from the Administrator of General Services to specific Federal agencies to lease their own special purpose space.
- **(PC) Provider of Choice Authority - Delegation from GSA:** Delegation from GSA: The Administrator of General Services has issued a delegation of authority to the heads of all Federal agencies to accomplish all functions relating to leasing of general purpose space. According to FMR Bulletin 2008-B1, dated November 19, 2007, limits lease acquisition delegations to 19,999 rentable square feet or less of general-purpose space. Specific agencies have been granted categorical and special-purpose lease acquisition delegations in the FMR. Agencies must request specific authorization to exercise the special-purpose delegated authority if the requirement is for 2,500 rentable square feet or more. If the requirement is 2,499 rentable square feet or less, then the agency may proceed without specific written authorization from GSA.

## L4. STATUS - LEASE LEVEL SUBMISSION

### A.) STATUS INDICATOR – LEASE LEVEL SUBMISSION

**Status Indicator** reflects the *predominant* physical/operational status of the leased asset. Leased buildings, structures, and land assets will have one of the following attributes (valid codes are in parentheses):

- **Active (A):** Currently assigned a mission by the reporting agency.
- **Inactive (I):** Not currently being used but may have a future need. Includes real property in a caretaker status (closed pending disposal; for example, facilities that are pending a BRAC action) and closed installations with no assigned current Federal mission or function.
- **Excess (E):** Formally identified as having no further program use of the property by the landholding agency.
- **Disposed (D):** Required for assets that have exited the Federal portfolio of assets during the current reporting period.

### B.) OUTGRANT INDICATOR – LEASE LEVEL SUBMISSION

In addition to the predominant **Status** of the property, each leased asset where the **Legal Interest** equals “owned” or “leased” will have an **Outgrant Indicator**. **Outgrant** refers to Federal Government-owned or leased real property in which rights have been conveyed or granted to another entity.

- **Outgrant Indicator (Y/N):** Indicate Yes (Y) or No (N) as to whether rights have been conveyed or granted to another entity.

## L5. HISTORICAL STATUS – ASSET LEVEL SUBMISSION

Each asset where the **Legal Interest** equals “leased” will have one of the following **Historical Status** attributes (valid codes are in parentheses):

- **National Historic Landmark – NHL (1)**
- **National Register Listed – NRL (2)**
- **National Register Eligible – NRE (3)**
- **Non-contributing element of NHL/NRL district (4)**
- **Not Evaluated (5)**
- **Evaluated, Not Historic (6)**

**Note:** **Historical Status** is reported on all leased buildings, structures, and land assets, except those assets that have been evaluated and for which disclosure of historic status is restricted based upon EO 13007 and Section 304 of the National Historic Preservation Act.

## L6. REPORTING AGENCY – ASSET LEVEL SUBMISSION

Refer to [Appendix E: Agency Bureau Codes](#).

**Reporting Agency** refers to the Federal Government Agency/Bureau reporting the property to the FRPC inventory database. Agencies are required to provide data on leased assets in which they lease directly.

**Reporting Agency** is also required when an agency provides the **Disposition** data element (#24) for an asset that has exited the inventory.

Provide the 4-digit Agency Bureau Code for the agency reporting the property. The full list of Agency Bureau Codes may be found in Appendix E. The agency bureau code is a 4-digit code identifying the agency and bureau. The first two digits identify the agency; the last two digits identify the bureau within the agency.

## L7. USING ORGANIZATION – LEASE LEVEL SUBMISSION

**Using Organization** refers to the *predominant* Federal Government Agency/Bureau (or other non-Federal Government entity) occupying the lease.

Provide the 4-digit Agency Bureau Code of the predominant user of the lease. If property is occupied by a non-Federal Government entity (e.g., private sector), provide “9999” for the **Using Organization** value. The full list of Agency Bureau Codes may be found in Appendix E.

## L8. SIZE – LEASE LEVEL SUBMISSION

**Note:** Numeric values reported for **Gross Square Feet** or **Structural Unit** must be greater than zero. For land, the value for **Urban Acres** or **Rural Acres** can be “zero,” but “zero” cannot be entered in both fields.

Size refers to the size of the real property being leased according to appropriate units of measure. The unit of measure used for the three real property types is as follows:

- For land, the unit of measure is *acreage* and is designated as either **Rural Acres** or **Urban Acres**.
- For buildings, the unit of measure is area in *square feet* and is designated as **Gross Square Feet (GSF)**.
- For structures, refer to the **Structural Unit** and the **Unit of Measure** for reporting the size of specific types of structures.

### A.) RURAL ACRES (LAND)

Provide the number of rural acres associated with each land asset record.

**B.) URBAN ACRES (LAND)**

Provide the number of urban acres associated with each land asset record.

**C.) GROSS SQUARE FEET (BUILDINGS)**

Provide the total area in gross square feet.

**D.) STRUCTURAL UNIT (STRUCTURES)****E.) UNIT OF MEASURE (STRUCTURES)**

Provide both the size (or quantity) and the unit of measure for the structure. Table 2 provides the valid units of measure for each predominant use category for structures.

**Table 2: Structural Units of Measure for Predominant Use Categories**

Code	Predominate Use Category for Structures	Valid Units of Measure
12	Airfields Pavements	Square Yards
13	Harbors and Ports	Square Yards
15	Power Development and Distribution	Each, Linear Feet
16	Reclamation and Irrigation	Each, Linear Feet
18	Flood Control and Navigation	Each, Linear Feet
28	Museum	Each
40	Storage (other than buildings)	Each, Linear Feet
50	Industrial (other than buildings)	Each, Linear Feet
60	Service (other than buildings)	Each
65	Space Exploration Structures	Each
66	Parking Structures	Square Yards
70	Research and Development (other than labs)	Each
71	Utility Systems	Each, Linear Feet, Miles
72	Communications Systems	Each, Miles
73	Navigation and Traffic Aids (other than buildings)	Each
75	Recreational (other than buildings)	Each
76	Roads and Bridges	Lane Miles, Square Yards
77	Railroads	Miles
78	Monuments and Memorials	Each
79	Miscellaneous Military Facilities	Each
82	Weapons Ranges	Each
80	All Other	Each, Lane Miles, Linear Feet, Miles, Square Yards

The unit of measure is reported along with the size of the structure. The database codes for the units of measure are as follows:

- Each (1)
- Lane Miles (2)
- Linear Feet (3)
- Miles (4)
- Square Yards (5)

## L9. PERCENT OF SPACE UTILIZATION (PERFORMANCE MEASURE 1) – LEASE LEVEL SUBMISSION

This data element replaces the utilization data element from FY 2010 (i.e. "under-utilized", "over-utilized", etc.).

Provide the percentage of the space utilized in each lease. Agencies will provide a percentage from 0% to 100% for each lease. This data element is **REQUIRED** for the following Building Predominant Use categories: Offices, Hospitals, Family Housing, Dormitories and Barracks, Warehouses and Laboratories. Agencies should anticipate reporting Prisons, Schools and Museums for the FY 2012 data collection. This data element is optional for all other building assets as well as land and structure assets.

**NOTE: Percent of Space Utilization must be reported as a number greater than or equal to 0 and less than or equal to 100 representing the percentage of space being utilized. If the actual percent of space utilization is greater than 100, than agencies must provide the numeric value of 100.**

Utilization rate for the Predominant Use categories is defined as follows:

- **Offices, Hospitals – percentage should be based on ratio of occupancy to current design capacity.**
- **Family Housing, Dormitories and Barracks – percentage should be based on the individual units that are occupied.**
- **Warehouses – ratios of gross square feet occupied to current design capacity.**
- **Laboratories – ratio of lab modules/ stations to current design capacity.**

## L10. VALUE – LEASE LEVEL SUBMISSION

**Exception:** Land is excluded for **Value**. Only buildings and structures will be required to have **Value** reported in the inventory.

**Value** is defined as the cost of replacing the existing constructed lease at today's building standards, and is also known as Plant Replacement Value (PRV) or Functional Replacement Value (FRV). **Value** is the amount required to **construct** an asset of similar size and in the same location of the existing lease. The **Value** reported must be greater than zero.

**Formula: Value = Unit x Unit Cost x Overhead Factor**

Notes:

**Note:** Numeric values reported for **Value** must be greater than zero.

- In determining value, agencies are to assume that they will replace the leased asset with a newly constructed leased asset of the same size at the same location at today's buildings standards and codes. Agencies are not to consider the current condition or need of a leased asset.
- Agencies must not use the lease costs (data element #L13) as the value of a leased asset. In determining the value of a leased asset, agencies are to base the value on the amount required to **construct** an asset of similar size and in the same location. The rent associated with the lease does NOT equate to the value of leased asset.
- The result is adjusted by area cost and inflation, as appropriate.
- For leased property, **Unit** should be based on the area as specified in the lease agreement.
- **Overhead Factor** includes other costs that are associated with construction, such as planning and design, historic factor, supervision, inspection, and other overhead costs. The intent at the moment is for agencies to define their own guidance and regulations for implementing the **Value** formula. Agencies such as DoD and GSA have published cost guidance that can be used by other agencies.
- **DoD's Facilities Pricing Guide can be found at [http://www.wbdg.org/ccb/DOD/UFC/ufc\\_3\\_701\\_01.pdf](http://www.wbdg.org/ccb/DOD/UFC/ufc_3_701_01.pdf)**

## L11. CONDITION INDEX (PERFORMANCE MEASURE 2) – LEASE LEVEL SUBMISSION

**Exception:** Land is excluded for **Condition Index**. Only buildings and structures will be required to have a **Condition Index**.

**Condition Index (CI)** is a general measure of the leased asset's condition at a specific point in time. **CI** is calculated as the ratio of **Repair Needs** to **Plant Replacement Value (PRV)**.

$$\text{Formula: } CI = [1 - (\$repair\ needs / \$PRV)] \times 100$$

**Note:** Numeric values reported for **Condition Index** must be greater than or equal to zero.

**Repair Needs:** the amount necessary to ensure that a leased asset is restored to a condition substantially equivalent to the originally intended and designed capacity, efficiency, or capability. Agencies will initially determine repair needs based on existing processes, with a future goal to further refine and standardize the definition.

**Plant Replacement Value** (or Functional Replacement Value): the cost of replacing an existing asset at today's standards (see data element #10 **Value**).

Notes:

For leased assets, only report condition for leases where the Government is responsible for maintaining the condition of the asset (see data element #3b **Lease Maintenance Indicator**).

- The **CI** will be reported as a "percent condition" on a scale of 0% to 100% (positive whole numbers; for cases in which the calculation results in a negative number, the percentage should be reported as zero).
- The higher the **CI**, the better the condition of the leased asset.
- If the agency only leases a portion of the constructed asset, only report condition of the leased portion of the inventory.

## L12. MISSION DEPENDENCY (PERFORMANCE MEASURE 3) – LEASE LEVEL SUBMISSION

**Mission Dependency** is the value each lease brings to the performance of the mission as determined by the governing agency (valid codes are in parentheses):

- **Mission Critical (1)** – without constructed asset or parcel of land, mission is compromised.
- **Mission Dependent, Not Critical (2)** – does not fit into *Mission Critical* or *Not Mission Dependent* categories.
- **Not Mission Dependent (3)** – mission unaffected.
- **Not Rated (9)** – used for DoD/BRAC properties only.

## L13. LEASE COSTS (PERFORMANCE MEASURE 4) – LEASE LEVEL SUBMISSION

**Note:** Numeric values reported for **Lease Costs** must be greater than or equal to zero.

**Lease Costs** is comprised of two sub elements. Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide actual costs annually.

**13 a. Annual Rent to Lessor** – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

**13 b. Annual Operating and Maintenance Costs** – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

For properties where GSA PBS signs the lease and delegates authority for operations and maintenance to the agency, GSA PBS will report the leased property.

Agencies with no ability to account for division between the annual rent and maintenance costs may input zero in 13b and put entire sum amount in 13a.

**Note:** Excludes federal personnel and security costs.

## L14. MAIN LOCATION – ASSET LEVEL SUBMISSION

**Main Location** refers to the street/delivery address for the leased asset or the latitude and longitude coordinates. Either of the following will be provided for the constructed asset or parcel of land:

- Street address.

OR

- Latitude and longitude (if no security concerns exist).

### Notes:

For leased assets that do not have a specific street address and there is a security issue associated with reporting the latitude/longitude:

- Report the street address for the main gate or main entrance if the asset is located on an installation or campus.
- If there is no street address available, report the ZIP code in the **Street Address** field (as well as in **ZIP code** field). For assets in a geographic location that do not have a ZIP code, report the name of the nearest city and country in the **Street Address** field (as well as the GLC codes in **City** and **Country** fields).

### A.) STREET ADDRESS

Provide the *Street Address* in geo-codable format, i.e., an address that can be mapped by Geographic Information System (GIS) software or used by an overnight delivery service to deliver packages. An example of a geo-codable address is "123 Main Street." Agencies now have the option to report either the asset's full postal address (including city, state, and five-digit ZIP code) or the asset's street address.

- Do not use the following:
  - Mailing address that is different than the location's address
  - Building name
  - Street corner (e.g., "Main & 1st")
  - Other description (such as a Post Office Box number)

If using special characters in text (&, <, >, ", ' ) escape characters must be used in XML as shown below:

• Special Character	• Special Character Name	• XML Code to Use
• &	• Ampersand	• & ;
• <	• Less than	• &lt; ;
• >	• Greater than	• &gt; ;
• "	• Quote	• &quot; ;
• '	• Single quote	• &#39; ;

**Note:** If **Street Address** is provided, **Latitude** and **Longitude** are not required.

### B.) LATITUDE

### C.) LONGITUDE

Indicate both the *Latitude* and *Longitude* coordinates of the asset's physical address. Report *Latitude* and *Longitude* in either decimal format or degrees, minutes, seconds, and direction.

## L15. REAL PROPERTY UNIQUE IDENTIFIER – ASSET LEVEL SUBMISSION

**Real Property Unique Identifier** is a code that is unique to a leased real property asset that will allow for linkages to other information systems. The **Real Property Unique Identifier** is assigned by the Reporting Agency and can contain up to 24 alpha-numeric digits.

Note: The **Real Property Unique Identifier** must remain the same for each asset from year to year.

## L16. CITY – ASSET LEVEL SUBMISSION

GLCs (Geo Location Codes) can be found at:  
<http://www.gsa.gov/glc>

Provide the 4-digit GLC for the **City** or town associated with the reported **Main Location** in which the leased land, building, or structure is located.

## L17. STATE - ASSET LEVEL SUBMISSION

Provide the 2-digit GLC for the **State** or District of Columbia associated with the reported **Main Location** in which the leased land, building, or structure is located.

## L18. COUNTRY – ASSET LEVEL SUBMISSION

Provide the 3-digit GLC for the **Country** associated with the reported **Main Location** in which the leased land, building, or structure is located.

## L19. COUNTY - ASSET LEVEL SUBMISSION

Provide the 3-digit GLC for the **County** associated with the reported **Main Location** in which the leased land, building, or structure is located.

## L20. CONGRESSIONAL DISTRICT - ASSET LEVEL SUBMISSION

The Congressional District database can be found at [www.house.gov](http://www.house.gov)

Provide the value for the **Congressional District** associated with the reported **Main Location** in which the leased land, building, or structure is located.

Notes:

- When agencies report the **Congressional District** for an asset, FRPP cross-references the **ZIP code** of the asset and suggests a **Congressional District** value, which may be ignored by the agency if it so chooses.
- **Congressional District** is a 20-character alpha-numeric field, as assets may be located in multiple **Congressional Districts**.
- For a state with only one Congressional District, which sometimes is referred to as "At Large", enter the number one (1) for the Congressional District data element. For example: Alaska, Delaware.=

## L21. ZIP CODE- ASSET LEVEL SUBMISSION

ZIP codes can be found at  
<http://www.usps.com>

Provide the 5-digit ZIP code associated with the reported **Main Location** in which the leased land, building, or structure is located and, if known, the additional 4-digit ZIP code suffix.

## L22. INSTALLATION/SUB-INSTALLATION IDENTIFIER – ASSET LEVEL SUBMISSION

### A.) INSTALLATION ID

**Installation** – Land, buildings, other structures, or any combination of these. Examples of installations are a hydroelectric project, office building, warehouse building, border station, base, post, camp, or an unimproved site.

Provide a 24-digit alpha-numeric code for the **Installation ID** assigned by the reporting agency.

### B.) SUB-INSTALLATION ID

**Sub-Installation** – Part of an installation identified by a different geographic location code than that of the headquarters installation. An installation must be separated into sub-installations (and reported separately) when the installation is located in more than one state or county. However, an agency may elect to separate an installation into sub-installations even if the installation is not located in more than one state or county.

Provide a 6-digit alpha-numeric code for the **Sub-Installation ID** assigned by the reporting agency.

### C.) INSTALLATION NAME (OPTIONAL)

**Installation Name** – Installation Name is an optional data element. An installation name can be the building name in the case of a single building installation or the name of the entire installation as in the case of an agency campus.

Provide up to 100 alpha-numeric digits for the **Installation Name** assigned by the reporting agency. If using special characters in text (&, <, >, ", ') escape characters must be used in XML as shown below:

• Special Character	• Special Character Name	• XML Code to Use
• &	• Ampersand	• & ;
• <	• Less than	• &lt; ;
• >	• Greater than	• &gt; ;
• "	• Quote	• &quot; ;
• '	• Single quote	• &#39; ;

## L23. RESTRICTIONS – ASSET LEVEL SUBMISSION

See [Section E: Definitions and Codes – Restrictions](#) for legal descriptions.

**Note:** If the response is (13) Non-Applicable, no other restrictions will be allowed.

**Note:** More than one restriction value is acceptable; if a property has multiple restrictions associated with it, agency should report them all. Partial restrictions should also be reported (e.g., easement granted on part of the land parcel).

**Restrictions** are limitations on the use of real property. Provide one or more of the following values for each lease within a building, structure, and parcel of land (valid codes are in parentheses):

- **Environmental Restrictions (1):** cleanup-based restrictions, etc.
- **Natural Resource Restrictions (2):** endangered species, sensitive habitats, floodplains, etc.
- **Cultural Resource Restrictions (3):** archeological, historic, Native American resources, except those excluded by EO 13007, Section 304 of the National Historical Preservation Act, etc.
- **Developmental (improvements) Restrictions (4)**
- **Reversionary Clauses from Deed (5)**
- **Zoning Restrictions (6)**
- **Easements (7):** including access for maintenance rights, etc.
- **Rights-of-Way (8)**

- Mineral Interests (9)
- Water Rights (10)
- Air Rights (11)
- Other (12)
- Non-Applicable (13)

## L24. DISPOSITION – LEASE LEVEL SUBMISSION

During the confirmation step of the FRPP data submission process, FRPP will generate the Missing Assets report, which compares the current reporting period to the previous year's reporting to ensure that all disposed property has been properly identified. Agencies will need to correct data or be prepared to explain these missing asset variances to OMB.

Agencies are required to report all leases that have exited the Federal portfolio of assets during the reporting fiscal year. This includes, lease expirations and lease terminations. **Disposition** data is reported only in the year the leased asset has exited the Federal portfolio of assets.

Agencies are required to provide the following data elements for each lease that is disposed of (new data elements highlighted):

- **Real Property Type**
- **Real Property Use Legal Interest Indicator**
- **Status** = "disposed"
- **Reporting Agency**
- **Size**
- **Annual Net Rent to Lessor – Report full year costs**
- **Annual Operating and Maintenance Costs – Report full year costs**
- **Real Property Unique Identifier**
- **City**
- **State (Required for U.S. assets only)**
- **County (Required for U.S. assets only)**
- **Country**
- **Disposition**
- **Lease Identifier**

**Note:** Lease Expiration and Lease Termination may only be reported for assets with legal interest of "leased." Reporting an asset with legal interest of leased and any disposition method other than lease expiration or lease termination will result in an error.

### A.) DISPOSITION METHOD

Report one of the following categories for the disposition method as outlined below: , Lease Termination, Lease Expiration or Other.

Provide one of the 2-character codes to indicate the disposition method (valid codes are in parentheses):

(LX) Lease Termination

(LE) Lease Expiration – applies to the actual end of the lease or the end of the lease holdover period.

(OT) Other

**Note:** Administrative errors that are corrected by an agency must not be reported as disposed assets. The administrative errors should no longer be reported to FRPP once discovered. These assets would show up in the agency's missing asset report in FRPP and should be noted by the agency.

### B.) DISPOSITION DATE

Report the date the disposal action was completed in mm/dd/yyyy format.

**Note:** Future dates for planned disposal actions are not accepted for **Disposition Date**.

Disposition Method	Example Event Indicating Disposition Date
Lease Termination	Lease termination date
Lease Expiration	Lease expiration date

**Note:** Numeric values reported for **Disposition Value** must be greater than or equal to zero.

### C.) DISPOSITION VALUE

Disposition Value is to be reported for Lease Termination only. If disposition value is reported for a Lease Expiration, an error will occur. The following **Disposition Value** information is to be reported:

Disposition Method	Disposition Value to Report
Lease Termination	Government's Cost Avoidance

**Note:** Numeric values reported for **Net Proceeds** may be less than, greater than, or equal to zero.

## D.) NET PROCEEDS

Report the proceeds received as part of the asset disposal less the disposal costs incurred by the agency. Net Proceeds is to be reported for Lease Termination only. If Net Proceeds is reported for Lease Expiration, an error will occur.

Notes:

- The **Net Proceeds** represents the total cost avoidance realized by the Government on the remaining term of the lease minus any Government costs associated with terminating the lease before the expiration date in the contract. The **Net Proceeds** may in some cases be a negative number.
- An agency must report all of the proceeds to the Federal government from the sale of an asset. This includes any funds that are returned to the U.S. Treasury, as well as any funds that the agency retains. The agency must subtract any costs incurred in the sale of the asset to determine the net proceeds from the sale.

## L25. SUSTAINABILITY – ASSET LEVEL SUBMISSION

**Sustainability** reporting is required for leased building assets greater than or equal to 5,000 GSF. Sustainability may be reported for leased building assets under 5,000 GSF and structure assets on an optional basis. **Sustainability** should not be reported for leased land assets.

The sustainability goal in Section 2 (g) (iii) of Executive Order 13514 is applicable only to buildings.

**Sustainability** reflects whether or not an asset meets the sustainability criteria set forth in Section 2 (g) (iii) of Executive Order 13514<sup>8</sup>. To be considered sustainable and report "Yes," the asset must meet the five Guiding Principles for High Performance and Sustainable Buildings<sup>9</sup>. **Note: If a building was constructed or renovated AND certified by an American National Standards Institute (ANSI)- credited institution prior to the release of the Guiding Principles (FY 2007), then the asset can count as sustainable.** Valid codes are in parentheses:

**Yes (1)** – asset has been evaluated and meets guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

**No (2)** – asset has been evaluated and does not meet guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

**Not yet evaluated (3)** – asset has not yet been evaluated on whether or not it meets guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

**Not applicable (4)** – guidelines set forth in Section 2 (g) (iii) of Executive Order 13514 do not apply to the asset. **This includes assets that will be disposed of by the end of FY 2015.**

## L26. TOTAL ANNUAL BTU CONSUMPTION – LEASE LEVEL SUBMISSION

This data element is **optional** for all Building and Structure leases for FY 2011. Agencies should prepare for reporting this data element for the FY 2012 data collection.

<sup>8</sup> For the full Executive Order, see <http://edocket.access.gpo.gov/2009/pdf/E9-24518.pdf>

<sup>9</sup> For the full text of the Guiding Principles of Federal Leadership in High Performance and Sustainable Buildings <http://www1.eere.energy.gov/femp/regulations/eo13514.html>

Note: BTU consumption should not be reported for Land. An input for BTU consumption for Land will result in an error in the system.

Agencies will report the total energy consumption of the asset in units of million British thermal units (MBTU's) in terms of energy delivered to the asset (site-delivered BTU). This measure should not include generation and transmission losses for electricity and steam/chilled water. See DOE's reporting guidance for more information related to calculation of this figure: [http://www1.eere.energy.gov/femp/regulations/facility\\_requirements.html](http://www1.eere.energy.gov/femp/regulations/facility_requirements.html)

For agencies covered by EISA Section 432, this reporting should be consistent with the asset-level data that is collected by the Energy Star Portfolio manager benchmarking tool and uploaded into the EISA 432 Compliance Tracking System (CTS).

For leased facilities not covered under the EISA requirements, but which have achieved Energy Star ratings, energy use data uploaded into the FRPP should be consistent with data uploaded into the Energy Star Portfolio manager.

## L27. Personnel

### L27A. NUMBER OF FEDERAL EMPLOYEES— LEASE LEVEL SUBMISSION

This data element is **required** for all Office and Laboratory Building leases. It is optional for all other types of leased Building assets as well as Land and Structure assets.

Agencies are to provide the total number of Federal personnel (including full-time teleworkers) assigned to the building in full time equivalents (FTE's). Agencies should consult OMB Circular A-11 for guidance on defining FTE. Agencies are to coordinate all totals with the personnel office at their agency.

### L27B. NUMBER OF CONTRACTOR EMPLOYEES – LEASE LEVEL SUBMISSION

This data element is **required** for all Office and Laboratory Building leases. It is optional for all other types of leased Building assets as well as Land and Structure assets.

For purposes of submitting data on real property assets, a contractor employee is an employee working under a contract as defined by Part 2.101 of the Federal Acquisition Regulation (FAR). Agencies are to coordinate all totals with the personnel office at their agency. Agencies should not report those people who are unpaid interns or performing volunteer work.

### L27C. NUMBER OF FEDERAL TELEWORKING EMPLOYEES— LEASE LEVEL SUBMISSION,

This data element is **optional** for all leases in FY 2011. Agencies should anticipate reporting this data element for Office and Laboratory Building leases for the FY 2012 data collection.

Agencies are to provide the total number of personnel who telework at least one day per week on a regular and recurring basis, pursuant to a signed telework agreement, in FTE's. Agencies should consult OMB Circular A-11 for guidance on defining FTE.

The number of federal teleworking employees should be less than the total number of Federal employees (data element #27a). A number greater than or equal to what was submitted for data element #27a will result in an error.

## L28. ANTICIPATED DISPOSITION OF ASSET – LEASE LEVEL SUBMISSION

This data element is **required** for all non-disposed assets (active, inactive and excess) in FY 2011.

**28a.) Does your agency anticipate disposing of this asset in the future? Agencies should answer Yes or No.**

**Answer Yes if your agency plans to vacate the premises at some point in the future subsequent to a lease expiration, termination, or other unknown disposition. If the response is Yes, proceed to answer 28b and 28c.**

**Answer No if you agency has no plans to vacate at any time in the future after a lease expiration, termination, or other unknown disposition method. If the response is No, do not provide responses to 28b and 28c.**

**28b.) Anticipated Disposition Method**

If the answer to 28a. is **Yes**, provide one of the 2-character codes to indicate the disposition method (valid codes are in parentheses):

- (LX) Lease Termination
- (LE) Lease Expiration
- (UN) Unknown – the disposition method has not been determined.

**28c.) Anticipated Disposal Year: Report the fiscal year (FY) the disposal action is anticipated to be completed.** Refer to the examples in the matrix below for the *Anticipated Disposition Date* to report based on the method of disposal. The FY provided must be a current (FY2011) or future reporting FY. Agencies must not report a prior FY.

Disposition Method	Example Event Indicating Anticipated Disposition Date
Lease Termination	Anticipated fiscal year of terminating the lease
Lease Expiration	Anticipated fiscal year of lease expiration
Unknown	Anticipated fiscal year the disposition will take place

**L29. DETERMINATION OF EXCESS – LEASE LEVEL**

This data element is required for all non-disposed leases (active, inactive and excess) FY 2011.

**Note: excess is only a determination of whether an asset is excess to the programmatic needs of the agency – the date of the lease expiration or termination should not play a role in the decision to declare something excess.**

**29a.) Does your agency anticipate reporting this lease as “Excess” in the future? Agencies should answer Yes or No**

**If the answer is to 29a is No, do not provide response to 29b. If the answer to 29a is Yes, proceed to 29b.**

**29b.) Provide the anticipated fiscal year (FY) that the property’s status was changed or will be changed to “Excess” pursuant to a formal identification that the lease is no longer needed to carry out program responsibilities.** The FY provided must be a current (FY2011) or future reporting FY. Agencies must not report a prior FY.

**L31. LEASE IDENTIFIER - LEASE LEVEL SUBMISSION**

This data element is **required** for all leases in FY 2011. Agencies are to provide the unique identifier the agency uses to track and monitor a lease. Identifier should be unique to each individual lease.

**L32. LEASE EXPIRATION DATE - LEASE LEVEL SUBMISSION**

This data element is **required** for all leases in FY 2011. Agencies are to report the latest expiration date of the current lease in mm/dd/yyyy format. This date represents the expiration of the current lease term, regardless of termination rights and renewal options. Once a renewal option is formally exercised, then that date will be the new expiration date.

**L33. OPTION TO EXERCISE EARLY TERMINATION RIGHT - LEASE LEVEL SUBMISSION**

This data element is **optional** for all leases (active, inactive or excess) for FY 2011. Agencies should prepare for reporting this data element for the FY 2012 data collection. An early termination right is a bargained for, agreed-upon provision in a leasing contract that grants the government the option to exit a lease early with little or no penalty.

**Does your agency possess early termination rights for this lease? Agencies should answer YES or No**

## D. TECHNICAL REPORTING GUIDANCE

The Federal Real Property Profile (FRPP) is the online system that houses the Federal real property inventory data. Agencies must report data annually by either submitting an XML file in a predetermined format or by entering the data manually into the online FRPP system. It is important that the inventory data is updated in a consistent manner across the agency and bureaus – the SRPO is responsible for coordinating the agency/bureau activities, ensuring consistency and accuracy.

### 1. OPTIONS FOR UPDATING LAST YEAR'S INVENTORY DATA

Agencies can update last year's real property data by:

- Overwriting all existing data; or
- Updating existing data (modify, delete, add new record).

Regardless of how agencies decide to update their data, the overall FRPP data submission process is the same (see Figure 1 on page 19). The two updating options, "Overwrite Existing Inventory" and "Update Existing Inventory," are described below.

#### a.) Overwrite Existing Inventory

This method involves issuing a system command that clears out the agency's entire existing inventory. The agency essentially starts from scratch, creating a new inventory from their host system(s), and using the XML template for adding new records. Once the XML file is generated, the agency goes through the process of staging the data into the FRPP application, validating it and then confirming it, similar to last year's reporting process.

The XML schema for adding all new records to the inventory (after clearing out existing data) can be found in [Appendix A](#).

#### b.) Update Existing Inventory

Using this method, the agency's owned inventory is automatically copied over from the previous year to the new fiscal year. Due to the significant restructuring of the leased reporting requirements in FY 2011, the FY 2010 leased data will not be copied over in the FRPP system. Agencies must add all leased records for FY 2011 reporting. After lease records have been added, agencies can refer to the schemas in Appendix A for modifying their leased records.

Any modifications, additions, or deletions to the inventory can be made either manually or by the XML file transfer process (as discussed below).

The XML schema for revising the existing inventory – consisting of **modifying, deleting, or adding new assets** – for land, buildings, and structures is provided in [Appendix A](#).

##### i) Modify Existing Assets

When modifying data, the only required fields are the **Reporting Agency** code and the **Real Property Unique Identifier**, in addition to any other data elements that need to be updated. Prior to modifying an existing asset, FRPP will perform a search for the **Reporting Agency** code and the **Real Property Unique Identifier** to check if the asset record exists. If the record exists, the user will then be prompted to confirm modification. If the record does not exist, the system will allow the user to add it.

##### ii) Delete Existing Assets

When deleting an asset record, the only required fields are the **Reporting Agency** code and the **Real Property Unique Identifier**. FRPP will perform a search for the **Reporting Agency** code and the **Real Property Unique Identifier** to check if the asset record exists. If the record exists, the user will then be prompted to confirm deletion.

**Note for disposed assets:** If the asset has transferred to another agency or has exited the Federal inventory, the **Disposition** data elements must be reported in addition to the **Reporting Agency** code and the **Real Property Unique Identifier**. An analysis of the **Disposition** data element should be completed for any assets that are deleted from an agency's inventory.

##### iii) Add New Assets

In order to add a new asset record, the record should not exist in the current FRPP database. FRPP will perform a search for the **Reporting Agency** code and **Real Property Unique Identifier** to check for this condition. If the record already exists in the database, the user will be prompted to either modify the asset or cancel the "add" operation.

## 2. DATA SUBMISSION PROCESS

**Figure 1** below outlines the process for FRPP data submission. An agency must first decide if it will “overwrite” or “update” the existing inventory data. Next, the agency prepares the XML data file(s) accordingly (see Appendix A for XML schemas). An agency administrator then runs a data validation routine and error checking report in FRPP. After the agency has corrected invalid data, it is ready to upload final data file to the FRPP main storage area and confirm the data. The deadline for confirmation is December 15, 2011. Data can be updated at anytime throughout the year.

**Figure 1: FRPP Data Submission Process**

### a.) Data Confirmation

The FRPP confirmation step provides several reports and graphs at the final stage of data submission that are designed to assist agencies with their data validation process to identify potential errors. Agencies are expected to utilize the information available in the FRPP confirmation step and the search capability in FRPP, in combination and consultation with internal agency validation and verification processes, to ensure that the agency submissions to FRPP **accurately** and **completely** represent the data in the agency's internal asset management systems.

The confirmation step provides both numerical and graphical representations comparing a key set of data elements from last year's inventory data to the current year agency data entered in the FRPP. The Confirmation/Variance Report (sample shown in **Figure 2**) provides the variance in both numerical and percentage form between current data and last year's data. Data compared at the confirmation step include:

- Total number of assets (broken down by asset type)
- Total number of assets (broken down by legal interest)
- Total number of assets (broken down by status, which includes number of assets reported as excess)
- Total acreage (broken down by rural and urban acres)
- Total square footage
- Total value (broken down by asset type)
- Total annual operating costs
- Number of constructed assets (broken down by asset type and usage code)
- Number of dispositions reported (broken down by disposal method)
- Number of Real Property Unique Identifiers reported in the current and prior reporting fiscal years (i.e., Missing Asset Report).

Agency Administrators may generate these reports at the agency level and at a bureau level.

Agencies are responsible for ensuring that data being submitted for all data elements – not just those data elements examined by the FRPP confirmation step – is accurate and complete. The FRPP provides a robust search capability that allows agencies to compare the totals for those data elements not included in the confirmation reports. Agency Administrators should compare the results from internal asset management systems with the FRPP reports (both confirmation and search reports) and make necessary corrections. Agencies are expected to utilize the information available in this phase in combination and consultation with internal agency validation and verification processes to ensure that the agency submissions are accurate and complete.

## b.) Data Anomalies

The FRPC has focused on anomalies in data submitted by agencies. While these anomalies do comply with the reporting requirements for FRPP, it is important that agencies review data – prior to submission – to ensure that the following responses are in fact accurate:

- Reporting “All Other” for **Real Property Use (#2)**
- Reporting either 0 or 100 for **Condition Index (#11)**
- Reporting \$0 for **Annual Operating Costs (#13)**

## c.) Data Range/Distribution and Relationship Considerations

The following data ranges/distributions and relationships explain data conditions that will be accepted by the FRPP. However, agencies should take note of the following ranges/distributions and relationships when submitting data to the FRPP, as they may indicate unusual data conditions.

The example ranges shown below are illustrative only. While the ranges shown below may be used when reviewing data, agencies comparing data relationships are advised to set their own ranges.

	Data Range/Distribution Review	Range/Distribution may indicate unusual data conditions if:
1.	<ul style="list-style-type: none"> <li>• <b>Size (#8) - gross square feet (GSF): buildings only</b></li> </ul>	a) Buildings are smaller or larger than a pre-defined range (e.g. smaller than 5 GSF or larger than 10 million GSF).
2.	<ul style="list-style-type: none"> <li>• <b>Condition Index (#11)</b></li> </ul>	a) A large proportion of assets have a single <b>Condition Index</b> score (e.g. over 60% of assets have a <b>Condition Index</b> score of exactly 90%). b) There are few unique <b>Condition Index</b> scores in the overall data across an agency/bureau. (Maximum possible <b>Condition Index</b> unique scores is 101.)
3.	<ul style="list-style-type: none"> <li>• <b>Mission Dependency (#12)</b></li> </ul>	a) A large proportion of assets are either “Mission Critical,” “Mission Dependent - Not Critical,” or “Not Mission Dependent” (e.g. over 90% of assets have the same <b>Mission Dependency</b> rating).

	Data Relationship Review	Relationship may indicate unusual data conditions if:
1.	<ul style="list-style-type: none"> <li>Agency/Bureau</li> <li>Annual Operating Costs (#13)</li> <li>Size (#8) - gross square feet (GSF): buildings only</li> </ul>	<p>a) <b>Annual Operating Costs</b> per GSF for an individual asset falls outside of a pre-defined range (e.g. <b>Annual Operating Costs</b> are less than \$0.50/GSF or are greater than \$50/GSF).</p> <p>b) Dividing <b>Annual Operating Costs</b> by GSF for each asset produces few unique results in the overall data across an agency/bureau.</p> <p>c) There is a substantial difference between the average (i.e. mean) <b>Annual Operating Costs</b> per GSF result and the median <b>Annual Operating Costs</b> per GSF result for the overall data across an agency/bureau.</p>
2.	<ul style="list-style-type: none"> <li>Agency/Bureau</li> <li>Value (#10)</li> <li>Size (#8) - gross square feet (GSF): buildings only</li> </ul>	<p>a) <b>Value</b> per GSF for an individual asset falls outside of a pre-defined range (e.g. Value is less than \$50/GSF or is greater than \$500/GSF).</p> <p>b) Dividing <b>Value</b> by GSF for each asset produces few unique results in the overall data across an agency/bureau.</p> <p>c) There is a substantial difference between the average (i.e. mean) <b>Value</b> per GSF result and the median <b>Value</b> per GSF result for the overall data across an agency/bureau.</p>
3.	<ul style="list-style-type: none"> <li>Annual Operating Costs (#13)</li> <li>Status (#4)</li> <li>Size (#8) - gross square feet (GSF): buildings only</li> </ul>	<p>a) Average <b>Annual Operating Costs</b> per GSF for "Inactive" buildings exceeds average <b>Annual Operating Costs</b> per GSF for active buildings (e.g. average <b>Annual Operating Costs</b> for active buildings is \$4/GSF while average for "Inactive" buildings is \$6/GSF).</p>
4.	<ul style="list-style-type: none"> <li>Annual Operating Costs (#13)</li> <li>Value (#10)</li> </ul>	<p>a) <b>Annual Operating Costs</b> to <b>Value</b> ratio for an individual asset falls outside of a pre-defined range (e.g. <b>Annual Operating Costs</b> are less than 0.1% or are greater than 10% of <b>Value</b>).</p> <p>b) Dividing <b>Annual Operating Costs</b> by <b>Value</b> for each asset produces few unique results in the overall dataset.</p> <p>c) There is a substantial difference between the average (i.e. mean) <b>Annual Operating Costs</b> to <b>Value</b> ratio and the median <b>Annual Operating Costs</b> to <b>Value</b> ratio for the overall dataset.</p>
5.	<ul style="list-style-type: none"> <li>Condition Index (#11)</li> <li>Mission Dependency (#12)</li> </ul>	<p>a) A large proportion of assets that have high <b>Condition Index</b> scores are "Not Mission Dependent" (e.g. over 90% of the assets with a <b>Condition Index</b> score of 95% are "Not Mission Dependent").</p> <p>b) A large proportion of assets that have low <b>Condition Index</b> scores are "Mission Critical" (e.g. over 90% of the assets with a <b>Condition Index</b> score of 5% are "Mission Critical").</p> <p>c) The average <b>Condition Index</b> score for "Not Mission Dependent" assets exceeds the average <b>Condition Index</b> score for "Mission Critical" assets.</p>

6.	<ul style="list-style-type: none"><li>• <b>Condition Index (#11)</b></li><li>• <b>Status (#4)</b></li></ul>	a) A large proportion of assets with a single <b>Condition Index</b> score have the same <b>Status</b> (e.g. over 90% of the assets with a <b>Condition Index</b> score of 95% are "Inactive").
7.	<ul style="list-style-type: none"><li>• <b>Status (#4)</b></li><li>• <b>Mission Dependency (#12)</b></li></ul>	a) A majority of "Inactive" assets (e.g. over 50%) are "Mission Critical" or "Mission Dependent, Not Critical". b) "Excess" assets are "Mission Critical" or "Mission Dependent, Not Critical".

### 3. XML OVERVIEW

XML is the industry-standard format for transferring data to Internet applications. XML is currently the only acceptable format for electronically submitting mass data to the FRPP application.

The FRPP's XML format is organized by the **Real Property Types** of land, buildings, and structures (the XML tags are indicated as: *Type 20Land*, *Type35BuildingDetail*, and *Type40Structure*). These are referred to as record type "nodes."

The **optional fields** are depicted with *italicized font* in the XML templates (see [Appendix A](#)). Optional fields with blank values do not need to be included in the file.

Some of the data elements are composite fields with sub-data elements. **Legal Interest, Status, Size, Main Location, Installation/Sub-Installation Identifier, and Disposition** are the composite fields which contain sub-data elements. The composite fields are easily identified in the XML template by the sub-data elements tags indented on the lines following the data element name.

As shown in the XML example below, each data element is represented with a "tag." The tag name (or data element name) is displayed between the brackets "< >"; the value for that data element is placed between the opening tag and ending tag.

#### XML Tag Example:

#### a) Common XML Errors in FRPP Data File

Preparing the XML data file requires diligent attention to detail. It typically takes several iterations to produce an error-free file. The most common XML errors are listed below and depicted in **Figure 3**.

- Case sensitivity of tag names:
- XML is case sensitive!
- ZIP code has a lowercase "c."
- **Invalid tag-names or misplaced ending tags:** Make sure all the tags are named correctly
- Invalid special characters in the data elements:
- Do NOT insert dashes in the ZIP code field.
- If using these special characters in text (e.g., Installation Name): &, <, >, ", ', escape characters must be used in XML as shown below:

• Special Character	• Special Character Name	• XML Code to Use
• &	• Ampersand	• &amp; ;
• <	• Less than	• &lt; ;
• >	• Greater than	• &gt; ;
• "	• Quote	• &quot; ;
• '	• Single quote	• &#39; ;

- Please make sure that the XML document can be correctly loaded and viewed in Internet Explorer browser before staging the file. The XML file should be compliant with the schema provided in the Appendix.
- An Excel spreadsheet saved as XML will NOT work!
- Questions? Contact FRPP Help Desk (866) 509-1800 or frpp@3ht.com

### XML Name Tags are Case Sensitive!

The Reporting Agency and the Agency selected in File Stage options should be the same. You cannot stage data for another Agency.

The value for Urban Acres OR Rural Acres can be "Zero" - but "Zero" cannot be entered in both fields

Use geo-codable format for Street Address, i.e., can be mapped by GIS software or used by an overnight delivery service to deliver packages.

Use GLC codes for City, State (no abbreviations), Country and County fields.

The Country code for USA is 926, **NOT** US.

Congressional District should NOT have State Abbreviations.

SubInstallation ID is a required field, please refer to Data Dictionary for definition.

## E. DEFINITIONS AND CODES

### 1. RESTRICTIONS

The following restriction categories and associated codes are used for the **Restrictions** data element. Report all restrictions that apply to each building, structure, and land asset.

Code	Restriction Category
1	<b>Environmental Restrictions (clean-up based restrictions, etc.):</b> Legally enforceable restrictions placed on the use of real property or any of its natural resources (e.g., surface water or ground water) due to the presence of hazardous substances, pollutants, or contaminants (terms that are defined in the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. 9601 (14) and (33)), and the need to protect human health and the environment from exposure to such hazardous substances, pollutants, or contaminants. These restrictions could also be necessary due to the presence of petroleum, which is a type of contaminant that is not regulated by CERCLA but instead, typically, by the Solid Waste Disposal Act, 42 U.S.C. 6991, et seq. These restrictions can be temporary, such as in the case where a cleanup of the contamination is being undertaken and limitations on the use of the property are required to allow the cleanup to safely proceed. These restrictions can also be permanent, such as in the case where the cleanup is complete but at a level that allows for low levels of contamination to continue to be present as long as the full use of the property is curtailed (e.g., the property is cleaned to allow commercial or industrial uses, but not residential).
2	<b>Natural resource restrictions:</b> Legally enforceable restrictions placed on the use of real property or any of its natural resources to protect a given resource from harm (e.g., an endangered species or its habitat), or to protect activities on the real property or the use of any of its natural resources from the harms caused by outside, natural forces (e.g., floodplains). In either case, the need to restrict the use of the property may be compelled either by a determination that such restrictions are necessary to achieve the purpose compelled by the applicable law, regulation, or Executive Order (e.g., the Endangered Species Act), or due to a written agreement with other Federal agencies or state or local government, that compel such restrictions (e.g., the terms of any authorization from the U. S. Army Corps of Engineers to build in a certain wetlands).
3	<b>Cultural resource restrictions (archeological, historic, Native American resources, etc.):</b> Legally enforceable restrictions placed on the use of real property by the owner of the property to protect and preserve historic or Tribal resources deemed worthy of preservation giving a government agency or preservation organization the right to review and approve changes to the historically or culturally significant property before they are undertaken.
4	<b>Developmental (improvements) restrictions:</b> Legally enforceable restrictions on land use to protect the health, safety, and welfare of the community, such as the kind of buildings that can be built on the property, what size the buildings may be, and which materials can be used in their construction.
5	<b>Reversionary clauses from deed:</b> Interest that exists when the grant is limited such that it may possibly terminate on the occurrence of a condition subsequent and title to the property returns to the original owner.
6	<b>Zoning restrictions:</b> Municipal regulations having to do with structural and architectural designs of buildings and prescribing the use to which buildings within designated districts may be put.
7	<b>Easements (including access for maintenance rights, etc.):</b> A nonpossessory interest in the land of another that gives the party a right of use over the other person's property for a designated purpose.
8	<b>Rights of way:</b> A right belonging to a party to pass over land of another. The interest is the same as an easement with the owner of the soil retaining all other rights and benefits of ownership consistent with the easement. The phrase is also used to describe that strip of land upon which railroad companies construct their road bed and, when so used, the term refers to the land itself, not just the right of passage over it.
9	<b>Mineral interests:</b> An interest in minerals in land, with or without ownership of the surface of the land, and the right to take minerals or a right to receive a royalty.
10	<b>Water rights:</b> A legal right to use the water of a natural stream or water furnished through a ditch or canal, for general or specific purposes, such as irrigation, mining, power, or domestic use, either to its full capacity or to a measured extent or during a defined period of time.
11	<b>Air rights:</b> The right to use all or a portion of the air space above real property. Such right is vested by grant (e.g., fee simple, lease, or other conveyance).
12	<b>Other:</b> All other restrictions that cannot be classified elsewhere.
13	<b>Non-applicable:</b> Restrictions are non-applicable to the real property asset.

## 2. PREDOMINANT USE

Real Property Predominant Use Categories (along with descriptions and associated 2-digit codes) are listed below for each **Real Property Record Type** (Land-20, Building-35, Structure-40). A real property asset must have only one predominant use code.

### Predominant Use Categories and Codes for Land

Code	Land Predominant Use Classifications
01	<b>Agriculture:</b> Land under cultivation for food or fiber production.
04	<b>Grazing:</b> Conservation lands primarily administered to preserve, protect, manage, or develop grass and other forage resources suitable for livestock. Exclude Wilderness Areas from this classification.
07	<b>Forest and Wildlife:</b> Conservation lands primarily administered to preserve, protect, manage, or develop timber, wildlife, watershed, and recreational resources. Exclude Wilderness Areas from this classification.
08	<b>Parks and Historic Sites:</b> Land administered for cemeteries, memorials, monuments, parks (national, historical, military, memorial, and national capital), sites (battlefield and historic), parkways, and recreation areas. Exclude Wilderness Areas from this classification.
09	<b>Wilderness Areas:</b> Land designated by Congress as a part of the National Wilderness Preservation System.
10	<b>Office Building Locations:</b> Land containing office buildings or future planned office buildings, to include military headquarters buildings.
11	<b>Miscellaneous Military Land:</b> Department of Defense (DoD) and U.S. Coast Guard (USCG) controlled land used for military functions that cannot be classified elsewhere.
12	<b>Airfields:</b> Land used for military air bases or air stations, and military or civilian landing fields.
13	<b>Harbors and Ports:</b> Land used for harbor and port facilities.
14	<b>Post Offices:</b> Land used in conjunction with a Post Office and used predominately as a general service and access area.
15	<b>Power Development and Distribution:</b> Land used for power development and distribution projects.
16	<b>Reclamation and Irrigation:</b> Land used for reclamation and irrigation projects.
18	<b>Flood Control and Navigation:</b> Land used for flood control and navigation projects.
19	<b>Vacant:</b> Land not being used.
20	<b>Institutional:</b> Land used for institutional purposes such as hospitals, prisons, schools, libraries, chapels, and museums.
30	<b>Housing:</b> Land used primarily for public housing projects, military personnel quarters, and dwellings for other Federal personnel.
40	<b>Storage:</b> Land used primarily for supply depots and other storage.
50	<b>Industrial:</b> Land used for physical plants engaged in producing and manufacturing ammunition, aircraft, ships, vehicles, electronic equipment, chemicals, aluminum, magnesium, etc.
65	<b>Space Exploration:</b> Land used in direct support of space exploration and utilization, including launch and test sites, emergency landing sites (not airfield), and astronaut training.
70	<b>Research and Development:</b> Land used directly in basic or applied research, such as science, medicine, and engineering.
72	<b>Communications Systems:</b> Land used for telephone and telegraph lines, data transmission lines, satellite communications, and other communications facilities or towers.
73	<b>Navigation and Traffic Aids:</b> Land used for aircraft and ship navigation aids, such as beacon lights, antenna systems, ground control approach systems, and obstruction lighting.

• Code	• Land Predominant Use Classifications
• 81	• <i>Training Land:</i> Land containing training buildings, or land that is used to conduct outdoor training, such as firefighting, weapons training, or other military training activities.
• 80	• <i>All Other Land:</i> Land that cannot be classified elsewhere.

## Predominant Use Categories and Codes for Buildings

Code	Building Predominant Use Classifications
10	<i>Office:</i> Buildings primarily used for office space or military headquarters.
14	<i>Post Office:</i> Buildings or portions of buildings used as a Post Office.
21	<i>Hospital:</i> Buildings used primarily for furnishing in-patient diagnosis and treatment under physician supervision and having 24-hour-a-day registered graduate nursing services. This category also includes medical laboratories used for routine testing. This category excludes buildings used directly in basic or applied medical research.
22	Prisons and Detention Centers
23	<i>School:</i> Buildings used primarily for formally organized instruction, such as schools for dependent children of Federal employees, Indian schools, and military training buildings including specialized training facilities.
28	<i>Museum:</i> Buildings used for the housing and/or display of tangible objects or collections for the purpose of displaying said objects or collections for public view and benefit on a regular basis.
29	<i>Other Institutional Uses:</i> Buildings used for institutional purposes other than schools, hospitals, and prisons, such as libraries, chapels, and out-patient clinics. This category also includes food preparation and dining facilities, buildings housing entertainment and recreational activities, and visitor's centers.
30	<i>Family Housing:</i> Buildings primarily used as dwellings for families/dependents. Includes apartment houses, single houses, row houses, public housing, military personnel housing, Federal employee housing, and housing for institutional personnel.
31	<i>Dormitories/Barracks:</i> Buildings primarily used as dwellings for housing individuals (without families/dependents).
41	<i>Warehouses:</i> Buildings used for storage, such as ammunition storage, covered sheds, and buildings primarily used for storage of vehicles or materials. Also included are underground or earth covered ammunition storage bunkers and magazines. This category excludes water reservoirs and POL storage tanks which are storage structures.
50	<i>Industrial:</i> Buildings specifically designed and primarily used for production or manufacturing, such as the production or manufacture of ammunition, aircraft, ships, vehicles, electronic equipment, fish production, chemicals, aluminum, and magnesium. Included are buildings that house utility plants or utility system components such as pump stations or valves.
60	<i>Service:</i> Buildings used for service activities, such as maintenance and repair shops, dry cleaning plants, post exchange stores, airport hangars, and buildings primarily used for vehicle maintenance and repair.
72	<i>Communications Systems:</i> Buildings used for telephone and telegraph systems, data transmission, satellite communications, and/or associated with radio towers or other communications facilities.
73	<i>Navigation and Traffic Aids:</i> Includes buildings that house aircraft or ship navigation and traffic aids, such as beacon lights, antenna systems, ground control approach systems, and obstruction lighting.
74	<i>Laboratories:</i> Buildings used directly in basic or applied research in the sciences (including medicine) and in engineering, such as medical laboratories; meteorological research laboratories; and buildings used in designing, developing, and testing of prototypes and processes for chemistry and physics. This category excludes medical or industrial laboratories used for routine testing.
80	<i>All Other:</i> Buildings that cannot be classified elsewhere.

- Predominant Use Categories, Codes, and Units of Measure for Structures

Code	Structure Predominant Use Classifications	Valid Units of Measure
12	<i>Airfield Pavements:</i> Runways, helicopter landing pads, taxiways, and aprons.	Square Yards
13	<i>Harbors and Ports:</i> Docks, piers, wharves, jetties and breakwaters, and other harbor, port, or coastal facilities.	Square Yards
15	<i>Power Development and Distribution:</i> Hydroelectric and other power development projects that produce power for resale (generally consisting of dams and powerhouses). Include transmission lines that are an integral part of Federal power development, even if the power is produced by another Federal agency.	Each, Linear Feet
16	<i>Reclamation and Irrigation:</i> Canals, laterals, pumping stations, storage, and diversion dams.	Each, Linear Feet
18	<i>Flood Control and Navigation:</i> River improvements, revetments, dikes, dams, and docks.	Each, Linear Feet
28	<i>Museum:</i> Structures used for the housing and/or display of tangible objects or collections for the purpose of displaying said objects or collections for public view and benefit on a regular basis.	Each

79	<i>Miscellaneous Military Facilities</i> : Structures and facilities of DoD and USCG used for military functions that are not included in any other classification.	Each
82	<i>Weapons Ranges</i> : Ranges where weapons are fired and areas where explosives are detonated.	Each
80	<i>All Other</i> : Sidewalks, parking areas, fences, and walking trails that cannot be readily classified under the above categories. Includes improvements to public domain lands, such as drainage, grading, and landscaping.	Each, Lane Miles, Linear Feet, Miles, Square Yards

### 3. PUBLIC CONVEYANCE DISPOSITION METHODS

The following table provides standard definitions for each of the public conveyance disposition methods, as described for **Disposition** data element #24. For purposes of reporting the **Disposition** data element to the FRPP, only include those assets that have been deeded or permanently transferred to an organization. Do NOT include those assets under the Public Benefit Conveyance that were leased or made available on an interim basis, as these assets remain in the agency's inventory. FRPP **Disposition** data element only tracks assets that have permanently left the Federal portfolio of assets.

## 4. LEASE AUTHORITY DEFINITIONS

The following table provides definitions for each lease authority category, as described for **Lease Authority Indicator** data element #3c. Lease Authority Indicator is required for leased assets only.

Code	Lease Authority Indicator Categories and Definitions
IS	<i>Independent Statutory Authority</i> : Authority to acquire leased space that originates in a statute enacted into law. This may be an agencywide standing authority to acquire leased space or it may be singular authority granted to acquire leased space for a specific activity of a Federal agency.
CS	<i>Categorical Space - Delegation from GSA</i> : As specified in Federal Management Regulation (FMR) 102-73.145 through 102-73.155, a categorical space delegation is a standing delegation of authority from the Administrator of General Services to a Federal agency to acquire a type of space, such as antennas, depots, piers, and greenhouses. The full list of space included in the categorical space delegation can be found at FMR 102-73.155.
SP	<i>Special Purpose Space - Delegation from GSA</i> : As specified in FMR 102-73.160 through 102-73.255, an agency special purpose space delegation is a standing delegation of authority from the Administrator of General Services to specific Federal agencies to lease their own special purpose space. The full list of agencies that have special purpose space delegations and the types of special purpose space they may lease can be found at FMR 102-73.170 through FMR 102-73.225.
PC	<i>Provider of Choice Authority - Delegation from GSA</i> : As specified in FMR 102-72.30 (b.), the Administrator of General Services has issued a standing delegation of authority (under a program formerly known as "Can't Beat GSA Leasing," now referred to as "Provider of Choice") to the heads of all Federal agencies to accomplish all functions relating to leasing of general purpose space for terms of up to 20 years and below prospectus level requirements, regardless of geographic location. General purpose space is defined as office and related space, as well as warehouse space.

## APPENDIX A: XML SCHEMAS

### XML SCHEMA FOR OVERWRITING AND ADDING NEW ASSETS

#### Notes:

- Prior to staging data to overwrite the existing inventory in FRPP, the agency administrator must issue the FRPP menu command to clear out the agency's existing inventory. The XML file for adding new records can then be uploaded to FRPP for validation.
- The XML file should be compliant to the schema provided below (XML file opening and closing tags are required). To verify that the XML file can be correctly loaded, preview the file in Internet Explorer browser before staging the file.
- The sub-data elements of the composite fields are indented.
- Optional fields are indicated with *italics* font.

## 2. LEASED ASSETS

Due to the significant restructuring of the leased requirements in FY 2011, the order of the leased data elements for the XML schemas differ from the numerical order on Page 21, Table 2: FRPC's Data Elements for Leased Assets.

### Scenario 1: Multiple Assets, One Lease

For instances where there are multiple leased assets covered by one lease, report all applicable data elements (L1 – L33) at the Asset Level as a separate record for each leased Asset.

### Scenario 2: Multiple Leases, One Asset

For instances where there are multiple leases within one leased asset, report the "Asset Level" data elements once. Report the "Lease Level" data elements for each individual lease within the leased asset.

The following table illustrates the order of the leased data elements for the XML schemas.

Data Element #	Data Element Name	Data Element Note

## XML SCHEMA FOR UPDATING EXISTING INVENTORY

### Notes:

- Updating the existing inventory consists of specific XML schema for **modifying existing asset records, deleting existing asset records, and adding new asset records**. The agency's inventory for the new fiscal year is copied over from the previous year and any updates to the inventory are made by a file transfer process using the XML schema provided below that handles these "delta" updates (data can also be updated manually using FRPP menu commands).
- The XML file should be compliant to the schemas provided below. To verify that the XML file can be correctly loaded, preview the file in Internet Explorer browser before staging the file.
- The sub-data elements of the composite fields are indented.
- Optional fields are indicated with *italics* font.

### Modifying Existing Asset Records

**Note:** When modifying data, the only required fields are the **Reporting Agency** and the **Real Property Unique Identifier**, in addition to any other data elements that need to be updated. Prior to modifying an existing asset, FRPP will perform a search for the **Real Property Unique Identifier** and the **Reporting Agency** to check if the asset record exists. If the record exists, the user will then be prompted to confirm modification.

## 4. LEASED ASSETS

Due to the significant restructuring of the leased reporting requirements in FY 2011, the FY 2010 leased data will not be copied over in the FRPP system. Agencies must add all leased records for FY 2011 reporting. After lease records have been added, agencies can refer to the below schemas for modifying their leased records.

## e.) Deleting Existing Asset Records

- When deleting an asset record, the only required fields are the **Reporting Agency** and the **Real Property Unique Identifier**. FRPP will perform a search for the **Real Property Unique Identifier** and the **Reporting Agency** to check if the asset record exists. If the record exists, the user will then be prompted to confirm deletion.
- Note for disposed assets:** If the asset has transferred to another agency or exited the Federal inventory, the Disposition sub-data elements must be reported in addition to the **Real Property Unique Identifier** and the **Reporting Agency** with the “modify” action instead of the “delete” action.

</Type40Structure>

```

## f.) Adding New Asset Records

### Notes:

- In order to add a new asset record, the record should not exist in the current FRPP database. FRPP will perform a search for the **Real Property Unique Identifier** and the **Reporting Agency** to check for this condition. If the record already exists in the database, the user will be prompted with options to either modify the asset or cancel the "add" operation. For more information on adding new records, see "Add New Assets" on page 18.
- For adding new assets [action="add"] the parameter is optional (as indicated by the brackets in XML schema below), i.e., the system will add all assets without the "action" parameter explicitly included, along with all assets that have the [action="add"] parameter specified. For the applicable data elements to report for new land, building, and structure assets, refer to XML schema provided in [Appendix A: XML Schema for Adding New Assets](#).

## APPENDIX C: FREQUENTLY ASKED QUESTIONS (FAQs)

Data Element/ Keyword	Question
<b>1. Real Property Type</b>	
1. Real Property Type; Land	(1) <b>Our agency is using land on a permit-basis from another Federal agency that owns the land. Which agency should report the land to the FRPP?</b>  The agency that owns the land should report the land to GSA.
1. Real Property Type; Buildings; Structures	(2) <b>Are trailers considered buildings or structures?</b>  This would depend on an individual agency's internal regulations. If the trailer is considered personal property within the agency, then it is not reported. If it is considered to be real property, then it should be reported to the FRPP inventory system.
<b>2. Real Property Use</b>	
2. Real Property Use	(3) <b>Can more than one land use classification code be reported for one land record?</b>  No, only one predominant land use classification code can be used for each land record.
2. Real Property Use	(4) <b>How should I report a structure, such as the Vietnam Memorial, that is located on Government-owned land?</b>  The land and the structure are separate records. The agency should report information on the structure itself (Vietnam Memorial) and the land on which the structure is located. For the structure, using the Use Categories, identify the Vietnam Memorial with the use code "78 – Monuments and Memorials." Identify the land the Vietnam Memorial is located on with the predominant use code "08 – Parks and Historic Sites."
2. Real Property Use	(5) <b>How would I report structures such as antennas and water towers?</b>  Antennas are reported as use code "73- "Navigation and Traffic Aids (Other than Buildings)", and water towers as use code "71 - "Utility Systems (Heating, Sewage, Water, and Electrical Systems)."
<b>3. Legal Interest</b>	
3. Legal Interest; Leased Properties	(6) <b>Which data elements are required for leased properties (e.g., Value, Condition Index, etc.)?</b>  The FRPC's required data elements for Leased Assets can be found in Table 2 on Page 21 of the User Guidance. Leased assets have the following data elements that owned assets do not: Leased Costs, Lease Identifier, Lease Expiration Date, Option to Exercise Early Termination Right. Leased assets do have to report data element O30, Potential Candidate of Sale.  <b>Condition Index</b> is reported for leased assets when the Government is responsible for maintaining the condition of the asset. Numeric values reported for <b>Condition Index</b> must be greater than or equal to zero.
3. Lease Authority Indicator; Lease Maintenance Indicator	(7) Are the data elements <b>Lease Authority Indicator</b> and <b>Lease Maintenance Indicator</b> required for outgrants?  <b>Lease Authority Indicator</b> and <b>Lease Maintenance Indicator</b> (sub-data elements of <b>Legal Interest</b> ) are not required for outgrants, unless the asset being outgranted is a leased asset.
3. Legal Interest; GSA delegated authority	(8) <b>If an agency has a delegation of authority from GSA to acquire leased space, which agency is responsible for reporting the asset to the FRPP?</b>  The agency that signs the lease document is responsible for reporting that asset to FRPP. If an agency leases space under a delegation of authority from GSA, that agency must report the asset to the FRPP, and specify the appropriate <b>Lease Authority Indicator</b> .
3. Legal Interest; Easement	(9) <b>An option for easements is not included in Legal Interest. How are easements reported?</b>  If the property is Federally-owned and an easement is granted, the property should be reported with the <b>Legal Interest</b> as "owned" and easement should be reported in the <b>Restrictions</b> field. If the Federal Government has an easement onto non-Federally owned property, the property should not be reported.
3. Legal Interest; Easement	(10) <b>If the Government occupies a property via an easement, does the property need to be reported in the inventory?</b>  If the Government occupies a non-Federally owned property via an easement, the property is not reported in the inventory. If it is Government-owned property and the agency has given an easement to another entity to occupy/use the property, then the property does get reported in the inventory as follows: the property should be reported with the <b>Legal Interest Indicator</b> as "owned" and easement should be reported in the <b>Restrictions</b> field.

Data Element/ Keyword	Question
3. Legal Interest; Concessions	<p><b>(11) How does an agency handle reporting data on concession-operated facilities?</b></p> <p>For concession-operated facilities, the agency should first identify the <b>Legal Interest</b>, i.e., either Government-owned or Government-leased. If it is an owned property, the agency would then address the concession component in the <b>Using Organization</b> field.</p>
3. Legal Interest; Partially occupied	<p><b>(12) How is a facility handled if it is only partially occupied by the Government?</b></p> <p>For owned assets and otherwise managed (Legal Interest = Museum Trust [M]) assets, report on the entire asset. For leased and otherwise managed (Legal Interest = State Government-Owned [S] or Foreign Government-Owned [F]) assets, report on the portion addressed through the lease or other agreement.</p>
<b>4. Status</b>	
4. Status; Outgrant	<p><b>(13) How is the <b>Status</b> field handled in cases where the property is an outgrant or outlease?</b></p> <p>An outgrant is reported within the <b>Status</b> fields, under the <b>Outgrant Indicator</b>. The <b>Outgrant Indicator</b> is applicable to owned and leased property only. Within the <b>Status</b> field, the agency should first identify if the asset is active, inactive, or excess, then provide a "yes/no" as to whether or not the property is outgranted.</p>
4. Status; Outgrant; Using Organization	<p><b>(14) What values for <b>Status</b> and <b>Outgrant Indicator</b> should be provided for the following situations?</b></p> <p><b>Q: If the owned property is outgranted outside of the Reporting Agency but still within the Government?</b></p> <p>a) If the owned property is outgranted outside of the Reporting Agency, but still within the Government, "yes" would be provided for <b>Outgrant Indicator</b>, with the Agency Bureau Code reported for the predominant <b>Using Organization</b>.</p> <p><b>Q: If the owned property is outgranted to a non-Federal Government entity?</b></p> <p>a) If the owned property is outgranted to a non-Federal Government entity, "yes" would be provided for <b>Outgrant Indicator</b>, with "9999-Non-Federal Government Entity" reported for <b>Using Organization</b>.</p>
4. Status	<p><b>(15) How should the information be entered if there is more than one <b>Status</b>?</b></p> <p>Agencies should report the predominant status of the property.</p>
4. Status; Outgrant	<p><b>(16) What percentage of constructed asset should be outgranted for a "Yes" response?</b></p> <p>Using the predominant status guideline, if less than 51% is not outgranted, then report "No" for <b>Outgrant Indicator</b>.</p>
4. Status; "Disposed"	<p><b>(17) If I report "Disposed" as the <b>Status</b> of an asset, am I required to provide all FRPP data elements?</b></p> <p>The new pick-list item for the <b>Status</b> of a disposed asset, "D", will indicate that the asset has left the Federal portfolio of assets. If you report "D" for <b>Status</b> you must provide the following FRPP data elements:</p> <p><b>Real Property Type</b>  <b>Real Property Use</b>  <b>Legal Interest Indicator</b>  <b>Reporting Agency/Bureau</b>  <b>Size</b>  <b>Annual Operating Costs</b> (<i>Annual Net Rent to Lessor and Annual Operating and Maintenance Costs for Leases</i>)  <b>Real Property Unique Identifier</b>  <b>City</b>  <b>State</b>  <b>County</b>  <b>Country</b></p> <p><b>Disposition</b> sub-data elements:</p> <ul style="list-style-type: none"> <li>- <b>Disposition Method</b></li> <li>- <b>Disposition Date</b></li> <li>- <b>Disposition Value</b></li> <li>- <b>Net Proceeds</b></li> <li>- <b>Recipient</b></li> </ul> <p>Refer to page 16 for further details on certain disposal methods.</p>
<b>5. Historical Status</b>	
5. Historical Status	<p><b>(18) If the asset is located in a historical district but not on the registry, how is this reported?</b></p> <p>If asset is in an historical district and is not applicable to other values, the <b>Historical Status</b> should be indicated as "4-Non-contributing element of NHL/NRL district".</p>
<b>6. Reporting Agency</b>	

Data Element/ Keyword	Question
6. Reporting Agency; Restriction;	<p><b>(19) If Federal Government-owned property is occupied via a Memorandum of Understanding (MOU) with another agency, who would report the facility?</b></p> <p>If the property is owned by the Federal Government and granted to another Federal agency via a MOU, the property is reported by the agency holding the title. All 25 data elements, including <b>Restrictions</b>, are reported by the agency holding the title.</p>

## 7. Using Organization

7. Using Organization;	<p><b>(20) How should the information be entered if there is more than one <i>Using Organization</i>?</b></p> <p>Agencies should report the predominant user of the property.</p>
------------------------	---

## 8. Size

8. Size; Structure Unit of Measure	<p><b>(21) We anticipate a problem if the same Real Property Use category code is used for structures that have different units of measure, e.g., roads and bridges.</b></p> <p>The FRPC category codes are broad categories; therefore, internal agency systems should allow for more detailed units of measure.</p>
8. Size; Structure Unit of Measure	<p><b>(22) Can an agency provide a negative number or a zero for <i>Size</i>?</b></p> <p>The numeric value reported for <b>Size</b> must be greater than zero.</p>

## 9. Percent of Space Utilization

9. Percent of Space Utilization	<p><b>(23) Can an agency provide a negative number for Percent of Space Utilization?</b></p> <p><i>The numeric value for Percent of Space Utilization must be greater than or equal to zero and less than or equal to 100.</i></p>
9. Percent of Space Utilization;	<p><b>(24) Can an agency provide a number greater than 100 for Percent of Space Utilization?</b></p> <p><i>If the actual percent of space utilization is greater than 100, than agencies must provide the numeric value of 100.</i></p>

## 10. Value

10. Value	<p><b>(25) Can an agency provide a negative number or a zero for <i>Value</i>?</b></p> <p>The numeric value reported for <b>Value</b> must be greater than or equal to zero.</p>
-----------	--

## 11. Condition Index

11. Condition Index	<p><b>(26) Will the FRPP be able to accept negative values for <i>Condition Index</i>?</b></p> <p>No, the <b>Condition Index</b> must be reported as a percentage (whole number – not a decimal) and must be greater than or equal to zero. In cases in which the agency's calculation results in a negative number, the percentage should be reported as zero.</p>
11. Condition Index	<p><b>(27) Is the reporting agency required to submit the <i>Condition Index</i> for leased assets?</b></p> <p><b>Condition Index</b> must be reported for all leased assets where the agency is responsible for maintaining the asset's condition.</p>

## 13. Annual Operating Costs/ Lease Costs

13. Annual Operating Costs	<p><b>(28) Are <i>Annual Operating Costs</i> reported for the past or current fiscal year?</b></p> <p><b>Annual Operating Costs</b> should be reported for past fiscal year (i.e., data represents FY2009, but it is submitted in Q1 of FY2010).</p>
13. Annual Operating Costs	<p><b>(29) Can an agency provide a negative number or a zero for <i>Annual Operating Costs</i>?</b></p> <p>The numeric value reported for <b>Annual Operating Costs</b> must be greater than or equal to zero.</p>
13. Annual Operating Costs/ Lease Cost	<p><b>(30) For categories of operating costs, should any additional costs be included beyond those indicated in the definition?</b></p> <p>For owned and otherwise managed properties, agencies are required to include only those components that are in the data element definition: 1) recurring maintenance and repair costs; 2) utilities; 3) cleaning and/or janitorial costs; and 4) roads and grounds expenses. <b>Agencies are to exclude associated costs for federal personnel and security.</b></p> <p><b>For leased assets, agencies are required to separate lease costs into 13a. Lease Annual Rent to Lessor and 13b. Lease Annual Operating and Maintenance Costs.</b></p>

Data Element/ Keyword	Question
13. Lease Cost	<p><b>(31) What if agencies are unable to separate their Lease Annual Rent to Lessor (13a) and Lease Annual Operating and Maintenance Costs (13b)</b></p> <p>Agencies with no ability to account for division between the annual rent and maintenance costs may input zero in 13b and out the entire sum amount in 13a.</p>
13. Annual Operating Costs	<p><b>(32) How should agencies report Annual Operating Costs when a building is not metered? For instance, one meter exists for a number of connected buildings/structures.</b></p> <p>Each agency will need to report operation and maintenance costs at the constructed asset level. In the example mentioned, the agency will need to decide how to allocate the costs amongst the buildings.</p>
13. Annual Operating Costs	<p><b>(33) How are Annual Operating Costs reported to GSA/PBS for buildings in which agency has Delegated Authority for operation and maintenance?</b></p> <p>For properties where GSA signs the lease and delegates operating authority to the agency, agencies should provide GSA with operating and maintenance cost data (GSA will report the leased property). The agency-reported costs will be added to the full annual lease costs captured by GSA and GSA will report the total operating costs for the asset.</p>

#### 14. Main Location

14. Main Location; Street address; Latitude/ Longitude	<p><b>(34) For Main Location, do agencies fill out both Street Address and Latitude/Longitude information?</b></p> <p>Agencies must report <b>Street Address OR Latitude/Longitude</b> information. If they choose to report both fields, the system will accept this.</p>
14. Main Location	<p><b>(35) If there is a security concern limited to reporting Main Location information, how is the information reported?</b></p> <p>For assets that do not have a specific street address and there is a security issue associated with reporting the latitude/longitude, report the street address for the main gate or main entrance if the asset is located on an installation or campus. If there is no street address available, <u>report the ZIP code in the <b>Street Address</b> field</u> (as well as in <b>ZIP code</b> field). For assets in a geographic location that do not have a Zip code, <u>report the name of the nearest city and country in the <b>Street Address</b> field</u> (as well as the GLC code in <b>City</b> and <b>Country</b> fields).</p>
14. Main Location	<p><b>(36) How should an agency identify the Main Location for a linear structure, such as a road or fence?</b></p> <p>Until a more developed Federal-wide geospatial capability is available, an asset that does not have a street address or a lat/long should use the street address or lat/long of the <u>main gate</u>. If there is no main gate, agency should provide the ZIP code. For assets in a geographic location that do not have a ZIP code, <u>report the nearest city and country in the <b>Street Address</b> field</u> (as well as in <b>City</b> and <b>Country</b> fields).</p>

#### 15. Real Property Unique Identifier

15. Real Property Unique Identifier; Installation/Sub-Installation Identifier	<p><b>(37) What is the distinction between the Real Property Unique Identifier versus the Installation/Sub-Installation Identifier (noncontiguous)?</b></p> <p><b>Real Property Unique Identifier</b> provides a unique code for each asset (similar to a person's Social Security Number). The <b>Installation/Sub-Installation ID</b> provided for each asset record will allow the grouping of asset by installations/sub-installations for roll-up reporting.</p>
--	---

#### 16-19. City, State, Country, County

16. Location; GLC	<p><b>(38) Are the Geo Location Codes (GLCs) required for city, state, country, and county?</b></p> <p>The GLCs for <b>City, State, Country, and County</b> are required for assets in the United States and District of Columbia. The GLCs for <b>City</b> and <b>Country</b> are required for foreign assets and assets in U.S. territories. GLCs may be found at <a href="http://www.gsa.gov/glc">http://www.gsa.gov/glc</a>.</p>
----------------------	--

#### 20. Congressional District

20. Congressional District	<p><b>(39) How should Congressional District data be handled for an asset in a foreign country?</b></p> <p><b>Congressional District</b> is not applicable for foreign assets and therefore need not be reported.</p>
----------------------------	---

#### 21. ZIP code

21. ZIP code	<p><b>(40) What value for ZIP code (or a postal code) do I provide for real property located in a United States territory or a foreign country?</b></p> <p>The <b>ZIP code</b> data element is not required for assets located in a United States territory or foreign country that do not have a ZIP code.</p>
--------------	---

#### 23. Restrictions

Data Element/ Keyword	Question
23. Restrictions	<p><b>(41) How should the information be entered if there is more than one <i>Restriction</i>?</b></p> <p>If a property has multiple restrictions associated with it, agency should report all restrictions that apply. Partial restrictions should also be reported.</p>
<b>24. Disposition</b>	
24. Disposition	<p><b>(42) If an agency disposes of an asset during the reporting period, is it required to report the asset to the FRPP?</b></p> <p>Yes, the agency must identify the asset as disposed by providing the required information for the disposition data element. See <b><i>Disposition</i></b> on page 15.</p>
24. Disposition	<p><b>(43) If an agency disposes of an asset during the reporting period, does the agency have to report all FRPP data elements for the asset?</b></p> <p>No, if an asset has been disposed, the agency is required to submit the following data elements, which are:</p> <ul style="list-style-type: none"> <li>• <b><i>Real Property Type</i></b></li> <li>• <b><i>Real Property Use</i></b></li> <li>• <b><i>Legal Interest Indicator</i></b></li> <li>• <i>Status = "disposed"</i></li> <li>• <i>Reporting Agency</i></li> <li>• <b><i>Size</i></b></li> <li>• <b><i>Annual Operating Costs (Annual Net Rent to Lessor and Annual Operating and Maintenance Costs for Leases)</i></b></li> <li>• <i>Real Property Unique Identifier</i></li> <li>• <b><i>City</i></b></li> <li>• <b><i>State</i></b></li> <li>• <b><i>County</i></b></li> <li>• <b><i>Country</i></b></li> <li>• <i>Disposition</i></li> </ul>
24. Disposition	<p><b>(44) Should an agency report a lease expiration as a disposed asset under the <b><i>Disposition Method of Lease Termination (LX)</i></b>?</b></p> <p>No, agencies should not report a lease expiration as a disposition under Lease Termination. Assets whose lease expires during the reporting year should report disposition method of Lease Expiration (LE).</p>
24. Disposition	<p><b>(45) Are agencies required to report the sub-category of Public Benefit Conveyance or Sale in the <b><i>Disposition Method</i></b> sub-data element?</b></p> <p>No, agencies are only required to report the 2-digit code for one of the six main categories for <b><i>Disposition Method</i></b>, i.e., Public Benefit Conveyance (PB), Federal Transfer (FT), Sale (SL), Demolition (DM), Lease Termination (LX), or Other (OT). If an agency knows the specific category of Public Benefit Conveyance or Sale, the agency may report that sub-category (the 2-digit code) <u>instead</u> of the main category.</p>
24. Disposition	<p><b>(46) Can an agency provide a negative number or a zero for <b><i>Disposition Value</i></b>?</b></p> <p>The numeric value reported for <b><i>Disposition Value</i></b> must be greater than or equal to zero.</p>
24. Disposition	<p><b>(47) Can an agency provide a negative number or a zero for <b><i>Net Proceeds</i></b>?</b></p> <p>The numeric value reported for <b><i>Disposition Value</i></b> may be less than, greater than, or equal to zero.</p>
24. Disposition	<p><b>(48) For dispositions; do agencies report the Annual Operating Costs of when the asset was disposed of?</b></p> <p>Agencies are to report the <b>full year</b> of annual operating costs for the asset/ lease, regardless of when the asset/ lease was disposed of.</p>
24. Disposition	<p><b>(49) If an agency reports <b><i>Disposition</i></b> data element 24, is it required to report the <b><i>Real Property Unique Identifier</i></b> and <b><i>Reporting Agency</i></b>?</b></p> <p>Yes, if an asset has left the inventory, an agency must report the <b><i>Real Property Unique Identifier</i></b> and <b><i>Reporting Agency</i></b>, as well as <b><i>Disposition</i></b> data element #24.</p>
24. Disposition	<p><b>(50) Why does an agency receive a list of missing Real Property Unique Identifiers during the confirmation step of the FRPP data submission process?</b></p> <p>Before an agency completes the confirmation step, FRPP will generate the Missing Assets report, listing missing Real Property Unique Identifiers in the current reporting period compared to the previous year's reporting. Agencies will need to correct data or be prepared to explain these variances to OMB.</p>

Data Element/ Keyword	Question
24. Disposition; Net Proceeds; Lease Termination	<b>(51) How do you determine the net proceeds from a lease termination?</b>  The <i>Net Proceeds</i> represents the total cost avoidance realized by the Government on the remaining term of the lease minus any Government costs associated with terminating the lease before the expiration date in the contract. The <i>Net Proceeds</i> may in some cases be a negative number, where the costs for terminating the lease exceed the cost avoidance on the remaining term of the lease.
24. Disposition; Net Proceeds; Sale	<b>(52) Does it matter which Government entity received the proceeds when reporting <i>Net Proceeds</i> as part of the <i>Disposition</i> data element?</b>  No. The total net proceeds received by the Federal government are to be reported under the <i>Net Proceeds</i> sub-data element of the <i>Disposition</i> data element. This includes any funds that are returned to the U.S. Treasury, as well as any funds that the agency retains. The agency must subtract any costs incurred in the sale of the asset to determine the net proceeds from the sale.
25. Sustainability	<b>(53) Do I report the <i>Sustainability</i> data element on all assets in my inventory?</b>  Reporting is required for all buildings. Agencies have the flexibility to voluntarily report <i>Sustainability</i> data on their structure assets. The data element must not be reported for land.
25. Sustainability	<b>(54) How do I determine if an asset is sustainable?</b>  To be considered sustainable and report "Yes", the asset must meet the five Guiding Principles for High Performance and Sustainable Buildings that can be found at <a href="http://www1.eere.energy.gov/femp/regulations/eo13514.html">http://www1.eere.energy.gov/femp/regulations/eo13514.html</a>
25. Sustainability	<b>(55) Who reports on leased buildings?</b>  Agency reporting responsibilities for <i>Sustainability</i> data is consistent with the methodology for reporting leases. The agency that is a signatory to the lease agreement is responsible for reporting on the <i>Sustainability</i> data element.
26. Annual BTU Consumption	<b>(56) Is this data element required for all assets in FY 2011?</b>  This data element is optional for Building and Structure assets only in FY 2011.
27a. Number of Federal Employees	<b>(57) Is this data element required for all assets in FY 2011?</b>  This data element is only required for Office and Laboratory Building Assets in FY 2011. It is optional for all other types of Building asset as well as Land and Structure assets.
27b. Number of Contractor Employees	<b>(58) Is this data element required for all assets in FY 2011?</b>  This data element is only required for Office and Laboratory Building Assets in FY 2011. It is optional for all other types of Building asset as well as Land and Structure assets.
27b. Number of Contractor Employees	<b>(59) Should agencies report unpaid interns and volunteers as "Contractors"?</b>  Agencies should not report those people who are unpaid interns or performing volunteer work.
27c. Number of Teleworking Employees	<b>(60) Can you report a number equal to Number of Federal Employees?</b>  No. The number of Federal Teleworking Employees should be less than the total number of Federal Employees (#27a). A number great than or equal to what was submitted in data element #27a will result in an error.
28. Anticipated Disposition of Asset	<b>(61) Does this data element also need to be reported for Disposed assets?</b>  No. This data element is required for all non-disposed assets (active, inactive and excess) in FY 2011.
29. Determination of Excess	<b>(62) Can you provide a prior Fiscal Year for the anticipated date of determination of excess?</b>  No, agencies must report either a current (FY2011) or future reporting fiscal year.
30. Potential Candidate for Sale	<b>(63) Is this data element required for all assets in FY 2011?</b>  This data element is only required for "Excess" assets in FY 2011.
L31. Lease Identifier	<b>(64) Is this the same as the Real Property Unique Identifier?</b>  No. The Lease Identifier is unique to each individual lease and is used to track and monitor a lease.
L32. Lease Expiration Date	<b>(65) Does this date include any renewal options in the lease?</b>  No. The lease expiration date represents the expiration of the current lease term. Once a renewal option is formally exercised, the date will be the new expiration date.
L33. Option to Exercise Early Termination Right	<b>(66) Is this the same as the Lease Expiration Date?</b>  No. A right for early termination is a bargained for, agreed-upon provision in a leasing contract that grants the government the option to exit a lease early with little or no penalty. If this provision does not exist in the lease, the response to this question would be No.

Data Element/ Keyword	Question
--------------------------	----------

### Data Submission

Data Submission	<p><b>(67) What do you include in a field if you don't have the information for one of the data elements?</b></p> <p>Agencies must make every effort to provide current and accurate data for all data elements that were approved by the FRPC.</p>
Data Submission	<p><b>(68) How must our agency submit real property information? When does the official FRPP reporting cycle begin?</b></p> <p>Each agency must submit real property information annually as follows:</p>
	<p>a) Data for agencies' real property inventory is as of the last day of each fiscal year. The fiscal year ends September 30<sup>th</sup>.</p>
	<p>b) Agencies can begin uploading data to the Federal Real Property Profile (FRPP) for testing and validation at any time. The cut-off date for data submission ends December 15<sup>th</sup>.</p>
Data Submission	<p><b>(69) If agencies upload data using the XML format, will they still need to go through the validation and certification process in FRPP?</b></p> <p>Yes, the authorized users will be required to validate and certify the data online.</p>
Data Submission	<p><b>(70) Can agencies have multiple data submissions to the FRPP and then upload it once?</b></p> <p>Yes, agencies may stage and upload multiple files in agency inventory of the FRPP. However, the Agency Administrator for FRPP must confirm the inventory at the entire agency level after all the files have been uploaded to the main area of the database.</p>
