

U.S. Land Port of Entry Expansion and Modernization

Alexandria Bay, New York | December 2018

New progress

- Temporary protection is installed at the perimeter of the new commercial building allowing construction to continue on the building interior.
- Roofing is nearing completion.
- Cast-in-place concrete bents are complete at column lines P5 and P6.
- Foundation work has begun for the new Non-Intrusive Inspection building
- Inspection booth foundation work has begun for the first three dual use lanes to the east of the new commercial building.
- Interior masonry and metal studs are near completion for the office areas.
- Equipment pads have been poured in the emergency generator room.
- Wetlands mitigation site work is complete and the five year monitoring period has commenced.
