Justification

A new 153,528 NUSF lease in Tampa will allow for expanded capacity of the Tampa VA Medical Center by moving the current CLC off-site into a rightsized location.

The current space in these facilities is insufficient to meet the projected needs of the veteran community. Space limitations limit veterans' access to services in a timely manner.

The new facility will enhance VA CLC services by closing space gaps identified in VA's Strategic Capital Investment Planning process. The new lease will allow VA to provide CLC and ancillary services to the veteran population in the Tampa area in a rightsized and state-of-the-art healthcare facility.

Summary of Energy Compliance

The Government will incorporate energy efficiency requirements into the Request for Lease Proposals and other documents related to the procurement of space based on the approved prospectus. The Government encourages offerors to exceed minimum requirements set forth in the procurement and to achieve an Energy Star performance rating of 75 or higher.

Resolutions of Approval

Resolutions adopted by the House Committee on Transportation and Infrastructure and the Senate Committee on Environment and Public Works approving this prospectus will constitute approval to make appropriations to lease space in a facility that will yield the required net usable area.

Interim Leasing

The Government will execute such interim leasing actions as are necessary to ensure continued housing prior to the effective date of the new lease. It is in the best interest of the Government to avert the financial risk of holdover tenancy.
