**Justification**

A new 218,708 NUSF lease in Cumberland County, PA, will allow for the replacement of the existing Cumberland County Community-Based Outpatient Clinic (CBOC) and the decompression of the Lebanon VA Medical Center (VAMC) in Lebanon, PA.

The current primary care, mental health, specialty care, inpatient medicine, ambulatory surgery, and ancillary spaces at the Cumberland County CBOC and Lebanon VAMC are inadequate and undersized for the current and projected veteran workload demand for services.

This project addresses these space gaps and would enhance veteran health care services in the Cumberland County market. As workload for ambulatory services and procedures and mental health services is projected to increase over the next 20 years, this project is essential to ensure that veterans can access these services in a timely manner. Being housed in a right-sized, Patient-Aligned Care Team-designed,<sup>3</sup> and more accessible facility would allow for better optimized VA care delivery, improved veteran satisfaction, increased team coordination, improved workflows, and improved recruitment and retention for VA staff. Additionally, VA plans to continue providing clinical services post-decompression at the Lebanon VAMC in less crowded and constrained conditions.

The proposed project aligns with the following VA Departmental Strategic Goals:

1. Build Long-term Relationships and Trust with Customers and Partners
  - VA consistently communicates with its customers and partners to assess and maximize performance, evaluate needs and build long-term relationships and trust.
2. Deliver Timely, Accessible, High-Quality Benefits, Care and Services
  - VA delivers timely, accessible, high-quality benefits, care and services to meet the unique needs of veterans and all eligible beneficiaries.
3. Improve Experiences, Satisfaction, Accountability and Security
  - VA ensures governance, systems, data and management best practices improve experiences, satisfaction, accountability and security.

---

<sup>3</sup> Patient-Aligned Care Team design focuses on open office work environments, separation of patient and staff flows, and modular adaptable design.

**Summary of Energy Compliance**

The Government will incorporate energy efficiency and sustainability requirements into the Request for Lease Proposal and other documents related to the procurement of space based on the approved prospectus. The Government encourages offerors to exceed minimum requirements set forth in the procurement, and to the maximum extent practicable requires offerors to comply with the Energy Star requirement and other statutory and regulatory requirements.

**Resolutions of Approval**

Resolutions adopted by the House Committee on Transportation and Infrastructure and the Senate Committee on Environment and Public Works approving this prospectus will constitute approval to make appropriations to lease space in a facility that will yield the required net usable area.

**Interim Leasing**

The Government will execute such interim leasing actions as are necessary to ensure continued housing prior to the effective date of the new lease. It is in the best interest of the Government to avert the financial risk of holdover tenancy.
