**Justification**

A new 84,739 NUSF lease in Franklin County, OH, will allow for the replacement and expansion of the existing Columbus VA Mental Health Clinic.

The current mental health, primary care, specialty care, and ancillary spaces at the Columbus VA Mental Health Clinic lease as well as the Chalmers P. Wylie Veterans Outpatient Clinic are inadequate and undersized for the current and projected veteran workload demand for services. Specifically, workload for ambulatory services and procedures and mental health stops and services is projected to increase over the next 20 years.

The new facility will enhance VA outpatient services by closing space gaps identified in VA's Strategic Capital Investment Planning process. This new lease will allow VA to provide comprehensive primary care, mental health, specialty care, and ancillary services to the veteran population in the Franklin County area in a rightsized and state-of-the-art healthcare facility in a timely manner. Being housed in a right-sized, Patient-Aligned Care Team-designed,<sup>3</sup> and more accessible facility will allow better optimized VA care delivery, improved veteran satisfaction, increased team coordination, improved workflows, and improved recruitment and retention for VA staff.

The proposed project aligns with the following VA Departmental Strategic Goals:

1. Build Long-term Relationships and Trust with Customers and Partners
  - VA consistently communicates with its customers and partners to assess and maximize performance, evaluate needs, and build long-term relationships and trust.
2. Deliver Timely, Accessible, High-Quality Benefits, Care and Services
  - VA delivers timely, accessible, high-quality benefits, care, and services to meet the unique needs of veterans and all eligible beneficiaries.
3. Improve Experiences, Satisfaction, Accountability and Security
  - VA ensures governance, systems, data, and management best practices improve experiences, satisfaction, accountability, and security.

**Summary of Energy Compliance**

The Government will incorporate energy efficiency and sustainability requirements into the Request for Lease Proposal and other documents related to the procurement of space

---

<sup>3</sup> Patient-Aligned Care Team design focuses on open office work environments, separation of patient and staff flows, and modular adaptable design.

based on the approved prospectus. The Government encourages offerors to exceed minimum requirements set forth in the procurement, and to the maximum extent practicable requires offerors to comply with the Energy Star requirement and other statutory and regulatory requirements.

**Resolutions of Approval**

Resolutions adopted by the House Committee on Transportation and Infrastructure and the Senate Committee on Environment and Public Works approving this prospectus will constitute approval to make appropriations to lease space in a facility that will yield the required net usable area.

**Interim Leasing**

The Government will execute such interim leasing actions as are necessary to ensure continued housing prior to the effective date of the new lease. It is in the best interest of the Government to avert the financial risk of holdover tenancy.
