

**PROSPECTUS - ALTERATION
JUDICIARY COURT SECURITY PROGRAM
VARIOUS BUILDINGS**

Prospectus Number: PJCS-0001-MU15

FY2015 Project Summary

This prospectus proposes alterations to improve physical security in government-owned buildings occupied by the Judiciary and U.S. Marshals Service (USMS) during Fiscal Year 2015 in lieu of future construction of new facilities.

FY2015 Committee Approval and Appropriation Requested..... \$20,000,000

Program Summary

The Judiciary Capital Security (JCS) Program is dedicated to improving physical security in buildings occupied by the Judiciary and the USMS in lieu of construction of brand new facilities, thereby providing cost savings and expedited delivery. These projects will vary in size, location, and delivery method and improve the separation of circulation for the public, judges, and prisoners. Funding provided for the security improvement projects would address elements such as additional doors, reconfiguring or adding corridors, reconfiguring or adding elevators, sallyports, and constructing physical or visual barriers.

Justification

The JCS will provide a vehicle for addressing security deficiencies in a timely and less costly manner when constructing a new courthouse is unlikely in the foreseeable future. In both FY 2012 and FY 2013, GSA's appropriation (as part of Repair and Alterations line item) included funding for such security improvements to buildings occupied by the Judiciary. This prospectus requests separate funding to specifically address these security conditions at existing federal courthouses for locations that are unlikely to be considered for construction of a new courthouse. The Judiciary's asset management planning process serves to help compile a preliminary assessment of potential JCS projects that identify courthouses with poor security ratings nationwide.

Certification of Need

Over the years a number of security issues have been identified that need to be addressed in order to reduce risk to physical security. The proposed program is the best solution to meet a validated Government need.
