FY 2018 Committee Approval and Appropriation Requested..... \$20,000,000

Program Summary

The Judiciary Capital Security Program is dedicated to improving physical security in buildings occupied by the Judiciary and USMS. In most cases, these projects are in lieu of constructing new facilities, thereby providing cost savings and expedited delivery. These projects will vary in size, location and delivery method, and are designed to improve the separation of circulation for the public, judges and prisoners. Funding provided for the security improvement projects will address elements such as additional doors, reconfiguring or adding corridors, reconfiguring or adding elevators and sallyports, and constructing physical or visual barriers.

Justification

This program provides a vehicle for addressing security deficiencies in a timely and less costly manner when constructing a new courthouse is unlikely in the foreseeable future. The projects in this program are based on studies undertaken by the Judiciary. This prospectus requests separate funding to address security conditions at existing Federal courthouses for locations that are unlikely, in most cases, to be considered for construction of a new courthouse. The Judiciary's asset management planning process serves to help compile a preliminary assessment of potential projects that involve courthouses with poor security ratings nationwide.
