

FY 2012 Federal Real Property Report

Introduction

As the largest property owner in the United States, the Federal Government holds a unique responsibility to properly maintain and manage its real property assets. Executive Order (EO) 13327¹, “Federal Real Property Asset Management”, issued in February 2004 focuses on the Federal Government’s need to effectively and efficiently maintain its assets. EO 13327 mandated that executive branch departments and agencies improve their real property asset management by:

- Promoting efficient and economical use of real property
- Increasing agency accountability and management attention to real property reform
- Establishing clear real property goals and objectives.

EO 13327 also required that the U.S. General Services Administration (GSA) establish the Federal Real Property Profile (FRPP), which acts as the Federal Government’s only database of all real property under the custody or control of executive branch agencies. Agencies are not required to report assets exempted for reasons of national security. In addition, agencies are not required to report public domain land or land reserved or dedicated for national forest, national park, or national wildlife refuge purposes². Executive branch departments and agencies subject to the Chief Financial Officers (CFO) Act of 1990 are required to submit real property data at the constructed asset level to the FRPP on an annual basis per EO 13327.

Report Overview

In FY 2012, the FRPP collected real property data from 36 agencies. The data presented in this report reflects the data provided by the executive branch departments and agencies subject to the Chief Financial Officers Act (CFO) Act of 1990. A summary of data submitted by agencies not subject to the CFO Act can be found in the Appendix.

In FY 2012, CFO Act agencies reported the following to the FRPP:

- Total Federal Buildings: 361,318
- Total Gross Square Feet (GSF) of Federal Buildings: 3,301,727,086
- Total Federal Structures: 485,866
- Total Federal Land Acreage: 43,646,357
- Total Operating Costs of all Real Property (Buildings, Structures and Land): \$33,040,945,112

Overall trends for CFO Act agencies are as follows:

- The buildings inventory has remained relatively stable. From FY 2011 to FY 2012, total Gross Square Feet of buildings decreased by approximately 7.6 Million, which equates to a 0.2% reduction. Annual Operating Costs³ for buildings have increased slightly. Annual operating costs for buildings increased by 2% in FY 2012 compared to FY 2011.
- In FY 2012, Land experienced a 28% increase in total acres, but Annual Operating Costs for Land has only increased by 15%.
- In total, Annual Operating Costs for Buildings, Structures and Land increased by 3% in FY 2012 from FY 2011.

The FY 2012 Federal Real Property Report format complies with Executive Order--Making Open and Machine Readable the New Default for Government Information and OMB M-13-13, Open Data Policy. In accordance with the policy, these reports support downstream information processing and dissemination activities and include machine-readable, open formats and data standards.

The FY 2012 Federal Real Property Report provides summary-level reports on government-wide real property data submitted to the FRPP, as of September 30, 2012. Using these data, the Federal real property community can gain knowledge of the extent of the government-wide real property portfolio and track its trends. More information on the Federal real property initiative, as well as an electronic version of this report, can be accessed from the FRPP Summary Report Library, at www.gsa.gov/frppreports.

³ Annual Operating Cost includes Owned and Otherwise Managed and Leased Annual Operating and Maintenance Costs and Leased Annual Rent to Lessor

FY 2012 Federal Real Report Data Set Guide

The accompanying FY 2012 Real Property Data Set (www.gsa.gov/realproperty) includes data tables representing:

- Tab 1: Real Property Dashboard
- Tab 2: Key Statistics
- Tab 3: Annual Operating Cost/ GSF
- Tab 4: Buildings Real Property Use
- Tab 5: Buildings Real Property Use 5 Year Trend
- Tab 6: 5 Year Office Trend by Agency
- Tab 7: 5 Year Warehouse Trend by Agency
- Tab 8: Buildings Overview by Agency
- Tab 9: Percent of Space Utilization
- Tab 10: Average Condition Index of Owned Buildings
- Tab 11: Total Square Footage by U.S. States
- Tab 12: Structures by Agency
- Tab 13: Structures Real Property Use
- Tab 14: Federal Land by Agency
- Tab 15: Land Acreage by U.S. State
- Tab 16: Real Property Annual Operating Cost by U.S. State
- Tab 17: Dispositions by Agency
- Tab 18: Dispositions by Method
- Tab 19: Historic Designation by Agency
- Tab 20: Sustainability of Buildings by Agency

Appendix⁴

Agency	Number of Buildings	Building Gross Square Feet	Number of Structures	Land Acreage	Annual Operating Cost

⁴ Annual Operating Cost includes operations and maintenance costs and rent. **NOTE:** Capital costs are not included in agency operating costs. Below are the definitions for Annual Operating Costs as found in the Data Dictionary:

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

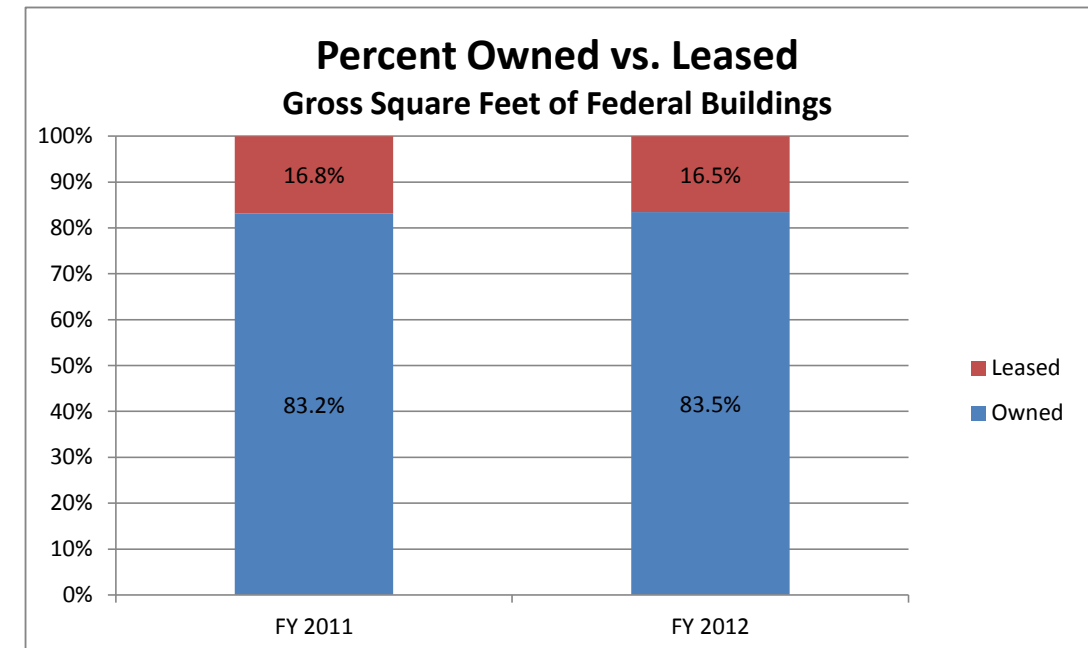

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

† All real property data from the CFO Act agencies required to submit data to the FRPP

**includes federal government owned, foreign government owned, museum trust, and state government owned

***includes federal government owned, foreign government owned, museum trust, state government owned, withdrawn land, and leased. DOES NOT INCLUDE PUBLIC DOMAIN LAND

Key Definitions and Examples

Buildings (Examples) : Office, Laboratories, Hospital, School, Museum, Data Center, Warehouse

Structures (Examples) : Airfields Pavements, Harbors and Ports, Parking Structures, Utility Systems

Land (Examples) : Agriculture, Grazing, Forest and Wildlife, Navigation and Traffic Aids

Owned : The Federal Government has fee simple interest for the real property asset.

Leased : The rights to use the real property asset have been assigned to the Federal Government by a private entity or a non-Federal Government entity for a defined period of time in return for rental payments.

State Government-Owned : A U.S. state government holds title to the real property asset but rights for use have been granted to a Federal Government entity in a method other than a leasehold arrangement.

Foreign Government-Owned : A foreign government holds title to the real property asset but rights for use have been granted to a Federal Government entity in a method other than a leasehold arrangement.

Museum Trust: A trust entity holds title to the real property asset predominantly used as a museum, but Federal funds may be received to cover certain operational and maintenance costs.

FY 2012 Federal Real Property Charts
Cost per Gross Square Feet of Buildings†

Fiscal Year	Owned Annual Operating Costs**	Gross Square Feet**	Owned Annual Operating Costs/ GSF**	Leased Annual Costs***	Gross Square Feet	Leased Annual Costs/ GSF

**includes federal government owned, foreign government owned, museum trust, state government owned

*** Includes operations and maintenance costs and rent

****The All Other category is defined as "Buildings that cannot be classified elsewhere."

Note, is it difficult to compare Owned and Leased Annual Operating Costs (AOC) due to their make-up. Owned AOC only includes operations and maintenance costs, whereas Leased AOC also includes rent to capture the full cost of the asset.

Key Definitions and Examples

Buildings (Examples): Office, Laboratories, Hospital, School, Museum, Data Center, Warehouse

Real Property Use: Indicates the asset's predominant use.

Predominant Use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research.

Gross Square Feet: For buildings, the unit of measure is area in square feet and is designated as Gross Square Feet (GSF).

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

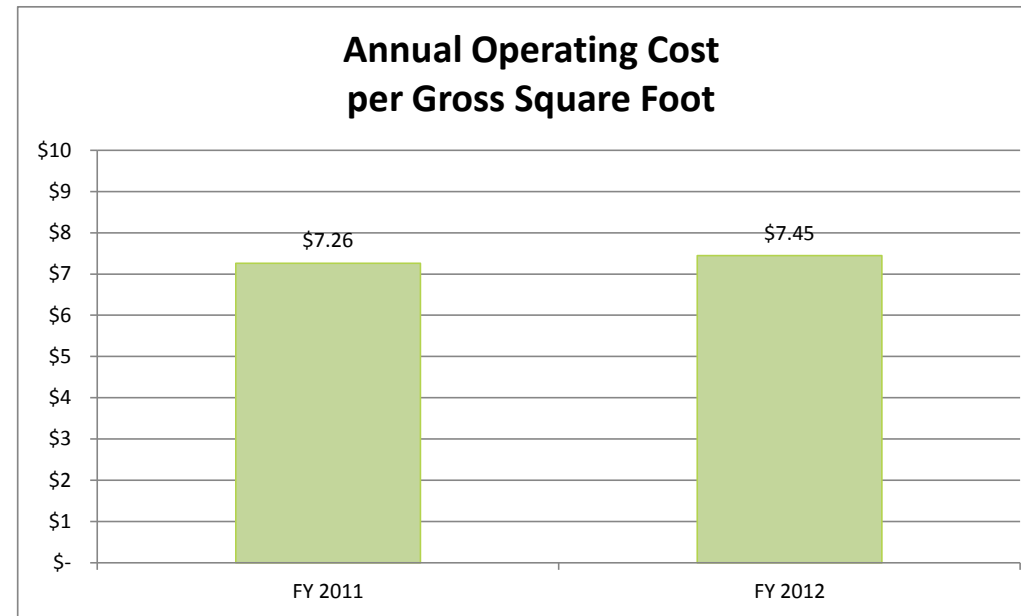

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling

Key Definitions and Examples

Buildings (Examples): Office, Laboratories, Hospital, School, Museum, Data Center, Warehouse

Real Property Use: Indicates the asset's predominant use.

Predominant Use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research.

Gross Square Feet: For buildings, the unit of measure is area in square feet and is designated as Gross Square Feet (GSF).

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Key Definitions and Examples

Real Property Use: Indicates the asset's predominant use.

Predominant Use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research.

Gross Square Feet: For buildings, the unit of measure is area in square feet and is designated as Gross Square Feet (GSF).

Real Property Use: Indicates the asset's predominant use.

Predominant Use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research.

Percent of Space Utilization: The percentage of the space utilized in a building asset. Each building asset will report the whole digit percentage from 0% to 100%.

Utilization rate for the Predominant Use categories is defined as follows:

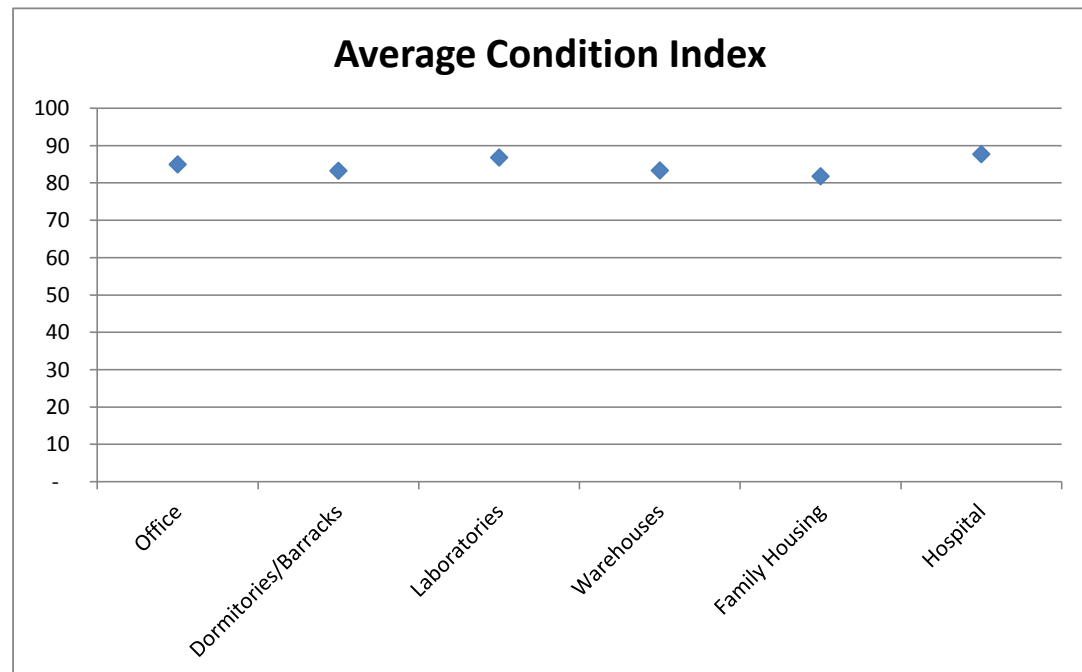

- Offices, Hospitals – percentage should be based on ratio of occupancy to current design capacity.
- Family Housing, Dormitories and Barracks – percentage should be based on the individual units that are occupied.
- Warehouses – ratios of gross square feet occupied to current design capacity.

Key Definitions and Examples

Buildings (Examples): Office, Laboratories, Hospital, Warehouse

Real Property Use: Indicates the asset’s predominant use.

Predominant Use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as “office,” even though certain portions of them may be used for storage or research.

Condition Index: Is a general measure of the constructed asset’s condition at a specific point in time. CI is calculated as the ratio of Repair Needs to Plant Replacement Value (PRV). **Formula:** $CI = [1 - (\$repair\ needs / \$PRV)] \times 100$

Repair Needs: the amount necessary to ensure that a constructed asset is restored to a condition substantially equivalent to the originally intended and designed capacity, efficiency, or capability. Agencies will initially determine repair needs based on existing processes, with a future goal to further refine and standardize the definition.

Plant Replacement Value (or Functional Replacement Value): the cost of replacing an existing asset at today’s standards (see data element #10 Replacement Value).

** Includes operations and maintenance costs and rent

*** The All Other category is defined as "Structures that cannot be classified elsewhere."

Key Definitions and Examples

Structures (Examples) : Airfields Pavements, Harbors and Ports, Parking Structures, Utility Systems

Real Property Use: Indicates the asset's predominant use.

Predominant Use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research.

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

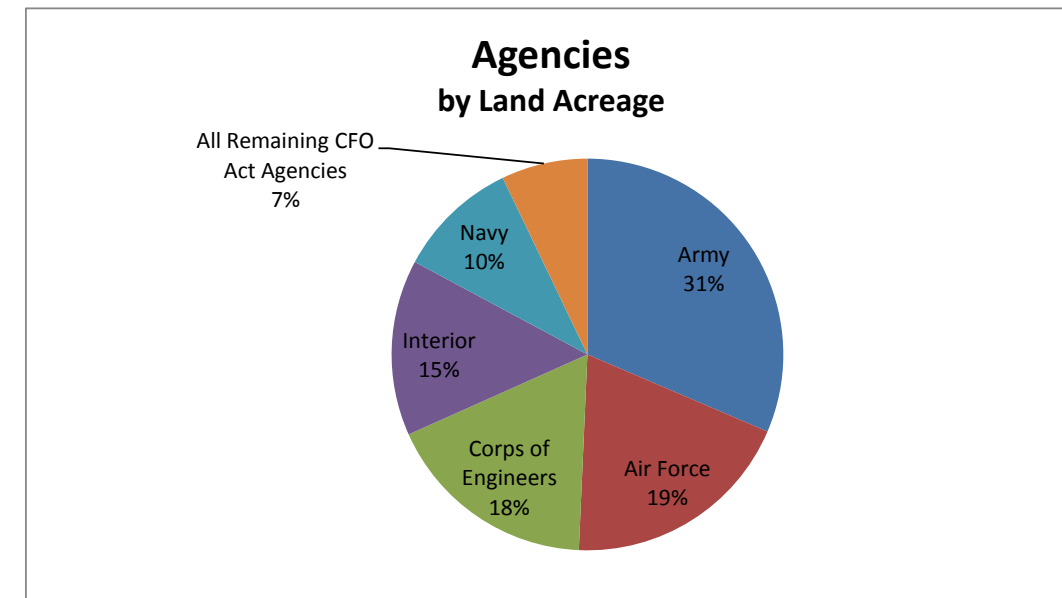

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Total Annual Operating Cost

Key Definitions and Examples

Buildings (Examples) : Office, Laboratories, Hospital, School, Museum, Data Center, Warehouse

Structures (Examples) : Airfields Pavements, Harbors and Ports, Parking Structures, Utility Systems

Land (Examples) : Agriculture, Grazing, Forest and Wildlife, Navigation and Traffic Aids

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

**A disposition where disposal costs are greater than the sales price will result in a negative Net Proceeds.

Key Definitions and Examples

Buildings (Examples) : Office, Laboratories, Hospital, School, Museum, Data Center, Warehouse

Structures (Examples) : Airfields Pavements, Harbors and Ports, Parking Structures, Utility Systems

Land (Examples) : Agriculture, Grazing, Forest and Wildlife, Navigation and Traffic Aids

Disposition: Agencies are required to provide all assets that have exited the Federal portfolio of assets during the reporting fiscal year. This will include, but is not limited to, sales, Federal transfers, public benefit conveyances, and demolitions. **Disposition** data is reported only in the year the asset has exited the Federal portfolio of assets.

Net Proceeds: Report the proceeds received as part of the asset disposal less the disposal costs incurred by the agency. Data reporting is required only for assets disposed through Sale.

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

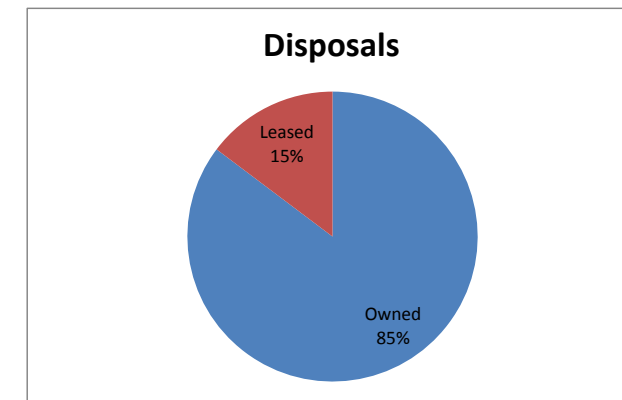

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

† All real property data from the CFO Act agencies required to submit data to the FRPP

*Agencies can report one disposal method from Public Building Conveyance, Federal Transfer, Sale, Demolition, Lease Termination or Other. Subcategories found in FRPP Data Dictionary

**Has optional subcategories: Negotiated Sale, Public Sale

***A disposition where disposal costs are greater than the sales price will result in a negative Net Proceeds.

****Examples of "Other" include abandonment, loss due to natural disaster, and loss due to natural deterioration. Air Force, Army, Navy, and Transportation together comprise 97% of all "Other" disposed assets reported by CFO Act Agencies.

Key Definitions and Examples

Disposition: Agencies are required to provide all assets that have exited the Federal portfolio of assets during the reporting fiscal year. This will include, but is not limited to, sales, Federal transfers, public benefit conveyances, and demolitions. *Disposition* data is reported only in the year the asset has exited the Federal portfolio of assets.

Disposition Method: Report one of the following six categories for the disposition method: Public Benefit Conveyance, Federal Transfer, Sale, Demolition, Lease Termination, or Other.

Net Proceeds: Report the proceeds received as part of the asset disposal less the disposal costs incurred by the agency. Data reporting is required only for assets disposed through Sale.

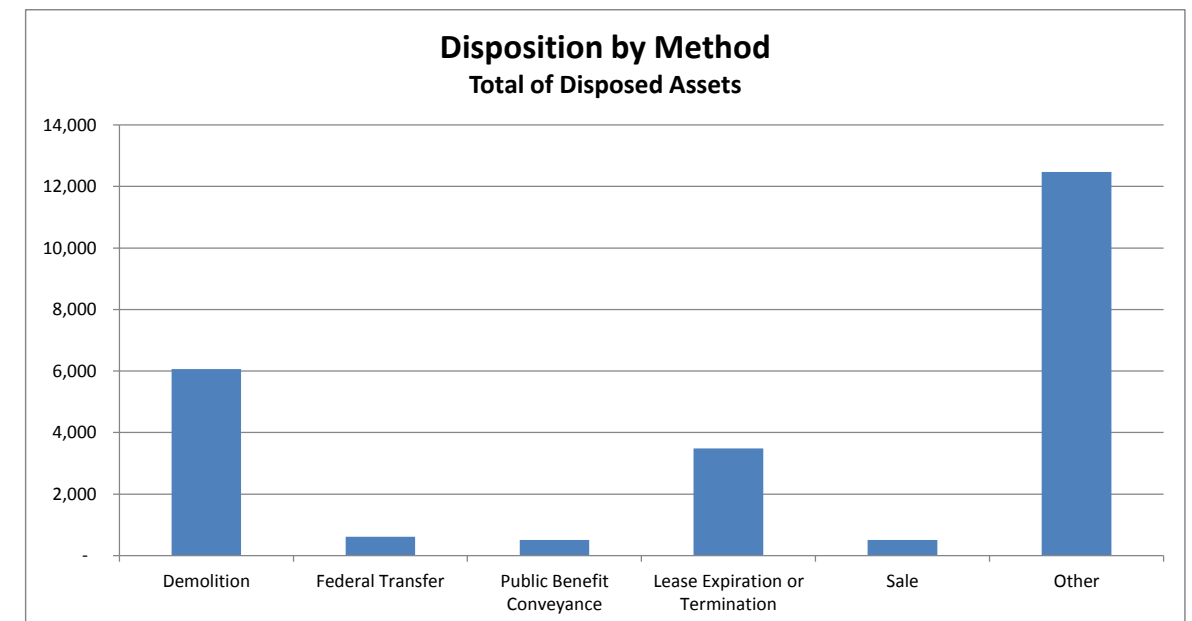

Owned and Otherwise Managed Annual Operating and Maintenance Costs consists of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Lease Costs for leased assets are comprised of two sub elements: Lease Annual Rent to Lessor and Lease Annual Operating and Maintenance Costs. Agencies are to provide full year costs.

Lease Annual Rent to Lessor – Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

Lease Annual Operating and Maintenance Costs – Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

* Historic Designation is reported on all owned buildings, structures, and land assets, except those assets that have been evaluated and for which disclosure of historic status is restricted based upon EO 13007 and Section 304 of the National Historic Preservation Act. Generally, properties eligible for listing in the National Register are at least 50 years old. Properties less than 50 years of age must be exceptionally important to be considered eligible for listing.

**Department of Defense

Key Definitions and Examples

Historical Status: Each asset where the *Legal Interest* equals “owned” or “museum trust” will have one of the following *Historical Status* attributes (valid codes are in parentheses):

- National Historic Landmark – NHL (1)**
- National Register Listed – NRL (2)**
- National Register Eligible – NRE (3)**
- Non-contributing element of NHL/NRL district (4)**
- Not Evaluated (5)**
- Evaluated, Not Historic (6)**

Note: *Historical Status* is reported on all owned buildings, structures, and land assets, except those assets that have been evaluated and for which disclosure of historic status is restricted based upon EO 13007 and Section 304 of the National Historic Preservation Act.

* Sustainability is reported for all buildings above 5,000 GSF

**Department of Defense

Key Definitions and Examples

Buildings (Examples): Office, Laboratories, Hospital, Warehouse

Gross Square Feet: For buildings, the unit of measure is area in square feet and is designated as Gross Square Feet (GSF).

Sustainability reflects whether or not an asset meets the sustainability criteria set forth in Section 2 (g) (iii) of Executive Order 13514.

Yes (1) – asset has been evaluated and meets guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

No (2) – asset has been evaluated and does not meet guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

Not yet evaluated (3) – asset has not yet been evaluated on whether or not it meets guidelines set forth in Section 2 (g) (iii) of Executive Order 13514

Not applicable (4) – guidelines set forth in Section 2 (g) (iii) of Executive Order 13514 do not apply to the asset. **This includes assets that will be disposed of by the end of FY 2015.**
