SUMMARY OF CHANGES FROM FY 2015 TO FY 2016

Data Element	Summary of Changes to the 2016 Data Dictionary
#24 Disposition	Added historic status to list of required data elements for each disposed asset.
#25 Sustainability	Revised sustainability language (revisions are highlighted in yellow).

Rest of Page is Blank

SUMMARY OF CHANGES FROM FY 2016 VERSION 1 TO VERSION 2

Data Element	Summary of Changes to the 2016 Data Dictionary
#4 Status Indicator	Removed Surplus as an allowed status indicator for land assets with a legal interest of withdrawn land.
#25 Sustainability	Clarified the reporting requirements for building assets. Required for owned buildings over 5,000 GSF, optional for leased or otherwise managed building assets over 5,000 GSF, and may not be reported for land, structure, or building assets, which are less than or equal to 5,000 GSF.
FAQ's	Edited the answer to FAQ 15 to align the requirement to report historic status data element for disposed assets.

SUMMARY OF CHANGES FROM FY 2016 VERSION 2 TO VERSION 3

Data Element	Summary of Changes to the 2016 Data Dictionary
#24B Disposition Date	Clarified the business rule that disposition date must fall within FY 2016. Allowable dates are October 1, 2015 to September 30, 2016. Any date prior to October 1, 2015 or after September 30, 2016, is not allowed and will generate a validation error.
#25 Sustainability	Clarified the business rule that sustainability must not be reported for assets located in foreign countries.

Rest of Page is Blank

A. BACKGROUND: EXECUTIVE ORDER 13327

Executive Order (E.O.) 13327, “Federal Real Property Asset Management,” was created to promote efficient and economical use of the Federal Government’s real property assets. The E.O. established the interagency Federal Real Property Council (FRPC), the role of the Senior Real Property Officer (SRPO), and mandated creation of a centralized real property database. Issued by the FRPC and pursuant to E.O. 13327,¹ the *Guidance for Real Property Inventory Reporting* represents the federal real property reporting guidelines for agencies. This 2016 version reflects changes and additions to the data elements as approved by the FRPC.

Certification of Real Property Reporting

To enhance the accuracy and completeness of the data reported to the Federal Real Property Profile Management System (FRPP MS) system, each agency shall submit to GSA by March 31 of each year a certification letter that meets the following requirements:

1. Signed by the agency Chief Financial Officer;
2. Characterizes the accuracy of the data the agency submitted to FRPP MS and the methodology the agency used to evaluate the accuracy of the data;
3. Describes efforts currently employed or planned as part of the agency’s independent verification and validation process to improve the accuracy and completeness of Federal Real Property Profile (FRPP) data;
4. Indicates that the agency has implemented data validation and verification (V&V) as required by OMB Management Procedures Memorandum 2016-01, *Improving Federal Real Property Data Quality – Required Data Validation and Verification Procedures* (January 28, 2016) and *GSA Federal Real Property Data Validation and Verification Guidance* (May 13, 2016); and
5. Reports actions taken by the agency to comply with requirements of the V&V guidance.

Agency certification letters are to be submitted to GSA by email at frppcerts@gsa.gov. Additional information regarding the requirement to submit this certification letter can be found in Office of Management and Budget Management Procedures Memorandum 2015-01, *Implementation of OMB Memorandum M-12-12-Section 3: Reduce the Footprint Policy* (March 25, 2015).

Recommended Agency Certification Language

The real property data submitted by Agency X to the Federal Real Property Profile Management System (FRPP MS) for FY 2016 has been certified for accuracy and completeness based on our agency’s internal controls. Agency X will implement the required validation and verification checks detailed in GSA Federal Real Property Data Validation and Verification Guidance (May 13, 2016) to identify and address data anomalies prior to the FY 2017 FRPP MS data submittal. Agency X has also has instituted the following processes to ensure that the data submitted to the FRPP MS accurately and completely reflects what is in the agency’s inventory:

- 1.
- 2.
- 3.

Real Property Reporting – Asset Types

E.O. 13327 requires agencies to report all owned, leased, and otherwise managed² federal real property assets within and outside the United States, including improvements on federal land. The agency responsible for reporting the constructed asset-level data is defined by the following:

- For **owned** real property (for which the United States holds title), the federal agency that exercises real property accountability is responsible for reporting the asset.
- For **leased** real property, the federal agency that signed the lease on behalf of the United States Government is responsible for reporting the asset.
- For **otherwise managed** real property, the federal agency that entered into the agreement on behalf of the United States Government is responsible for reporting the asset.

¹ For the full executive order, see <http://edocket.access.gpo.gov/2004/pdf/04-2773.pdf>.

² “Otherwise managed” properties are state or foreign government-owned properties where a U.S. state or foreign government holds title to the real property, but rights for use have been granted to a Federal Government entity in an arrangement other than a leasehold. Otherwise managed properties also include those properties under “Withdrawn Land” or “Museum Trust.”

Notes:

- If an agency has a delegation of authority for operations and maintenance of the asset from GSA, known as an O&M delegation, the agency with the delegation does NOT report the asset to FRPP MS. GSA will report the asset and ask the agency to notify GSA of the O&M costs of the asset so GSA can enter this data in FRPP MS.
- If an agency has an occupancy agreement with GSA for an asset, GSA will report that asset to FRPP MS.

Property Reporting Exclusions³

The following real property assets are excluded from the E.O. 13327, and reporting is **optional**:

- Land easements or rights-of-way held by the Federal Government.
- Public domain land (including lands withdrawn for military purposes) or land reserved or dedicated for national forest, national park, or national wildlife refuge purposes, except for improvements on those lands.
- Land held in trust or restricted-fee status for individual Native Americans or Native American tribes.
- Land, and interests in land, that are withheld from the scope of this order by agency heads for reasons of national security, foreign policy, or public safety.

Rest of Page is Blank

³ These exclusions are specified in Section 2 of E.O. 13327.

B. FRPP INVENTORY DATA ELEMENTS AND DESCRIPTION

The FRPC has identified and defined data elements for assets that are to be captured and reported by all executive agencies, as listed in **Table 1: 2016 FRPP Data Elements** below. These data elements are (1) to be reported at the constructed asset level for buildings and structures and at the parcel level for land, and (2) applicable for all property types (land, building, structure). Shaded rows indicate data elements that have sub-elements.

Table 1: 2016 FRPP Data Elements

Data Element #	Data Element Name	Data Element Note
1	Real Property Type	
2	Real Property Use	
3	Reduce the Footprint	Automatically populated data element, not reported by agencies
4	Legal Interest	
4A	Legal Interest Indicator	
4B	Lease Authority Indicator	
5	Status	
5A	Status Indicator	
5B	Report of Excess Submitted Date	
5C	Report of Excess Accepted Date	
5D	Determination to Dispose Date	
5E	Surplus Date	
5F	Outgrant Indicator	
6	Historical Status	
7	Reporting Agency	
8	Using Organization	
9	Size	
9A	Acres (Land)	
9B	Square Feet (Buildings)	
9C	Square Feet Unit of Measure	
9D	Structural Unit (Structures)	

Data Element #	Data Element Name	Data Element Note
9E	Unit of Measure (Structures)	
10	Utilization	
11	Replacement Value	
12	Repair Needs	
13	Condition Index	Automatically calculated data element, not reported by agencies
14	Annual Operating Costs	
14A	Owned and Otherwise Managed Annual Operating and Maintenance Costs	
14B	Lease Annual Rent to Lessor	
14C	Lease Annual Operating and Maintenance Costs	
14D	Total Recurring Maintenance and Repair	
14E	Elevator	
14F	HVAC	
14G	Plumbing	
14H	Total Utilities	
14I	Water/Sewage	
14J	Electricity	
14K	Gas	
14L	Steam	
14M	Cleaning and Janitorial	
14N	Roads and Groundskeeping	
15	Main Location	
15A	Street Address	
15B	Latitude	
15C	Longitude	
16	Real Property Unique Identifier	
17	City	

Data Element #	Data Element Name	Data Element Note
18	State	
19	Country	
20	County	
21	Congressional District	
22	ZIP Code	
23	Installation/Sub-Installation Identifier	
23A	Installation Identifier	
23B	Sub-Installation Identifier	
23C	Installation Name	
24	Disposition	
24A	Disposition Method	
24B	Disposition Date	
24C	Actual Sales Price	Only reported for Sale (includes negotiated and public sale subcategories)
24D	Net Proceeds	Only reported for Sale (includes negotiated sale and public sale subcategories)
25	Sustainability	Required for buildings greater than 5,000 gross square feet
26	Lease Expiration Date	
27	Personnel	Not reported in FRPP MS. To be reported in OMB MAX

Refer to [Appendix B: Quick Guide – Data Dictionary](#) for a summarized listing of the data elements, valid codes, pick-lists, and other technical notes.

1. REAL PROPERTY TYPE

Real Property Type indicates the asset is one of the following categories of real property (valid codes are in parentheses):

- Land (20)
- Building (35): A building is a constructed asset that is enclosed with walls and a roof that provides space for agencies to perform activities or store materials as well as provides space for people to live or work in.
- Structure (40)

2. REAL PROPERTY USE

Real Property Use indicates the asset's predominant use in one of the following categories:

- Land predominant use (25 categories)
- Building pPredominant use (25 categories)
- Structure predominant use (23 categories)

Note:

- Predominant use means the greatest use of the real property asset (land, building, or structure). For example, buildings used primarily for office purposes are classified as "office," even though certain portions of them may be used for storage or research. A real property asset may only have one predominant use code. Real property predominant use categories, definitions, and associated 2-digit codes, can be found in Section E: Definitions and Codes.

3. REDUCE THE FOOTPRINT (WILL BE AUTOMATICALLY POPULATED – DO NOT REPORT)

Consistent with OMB Management Procedures Memorandum 2015-01, *Implementation of OMB Memorandum M-12-12 Section 3: Reduce the Footprint*, dated March 25, 2015, all Chief Financial Officers (CFO) Act executive branch departments and agencies shall move aggressively to dispose of surplus properties held by the Federal Government, make more efficient use of the government's real property assets, and reduce the total square footage of their domestic office and warehouse inventory relative to an established baseline. To identify assets that are subject to the Reduce the Footprint (RTF) policy, FRPP MS will populate the RTF data element to determine whether the asset is subject to monitoring under the RTF policy.

The determination of the RTF data element will be made on the following criteria:

- CFO Act⁴ Agencies; and
- Office and warehouse assets that have a legal interest of owned or leased, AND location in the United States, the District of Columbia, or one of the U.S. territories.

Reduce the Footprint Asset (YES/NO) is used to identify whether an asset is covered by the Reduce the Footprint policy.

- If the asset is covered by the RTF policy, FRPP MS will populate the RTF data element with a YES (Y).
- If the asset is not covered by the RTF policy, FRPP MS will populate the FTF data element with a NO (N).

In addition, assets which were monitored by the RTF policy in a previous year will continue to be subject to the RTF policy, even if the predominant use changes to something other than office or warehouse. For instance, if an agency had reported an asset with a real property use of office in a prior year, but this year the real property use changed to lab, the asset remains subject to the RTF policy, and the FRPP system will populate a YES to the RTF data element.

Once a RTF asset is disposed of, the agency will report the asset as disposed in the current reporting year, and the FRPP system will provide YES for the RTF data element. If an asset was reported as a lab asset in a prior year, and thus not subject to the RTF policy,

⁴ Chief Financial Officer Act of 1990, 31 U.S.C § 901 (b)(1) can be accessed at:
<http://www.gpo.gov/fdsys/pkg/USCODE-2011-title31/pdf/USCODE-2011-title31-subtitle1-chap9-sec901.pdf>

but the real property use changed to office in the current reporting period, the RTF data element would populate a NO for that asset, as it was not originally subject to the RTF policy.

4. LEGAL INTEREST

4A. LEGAL INTEREST INDICATOR

Legal Interest Indicator is used to identify a real property asset as being either owned or leased or otherwise managed by the Federal Government (valid codes are in parentheses):

- **Owned (G):** The Federal Government has fee simple interest for the real property asset.
- **Leased (L):** The rights to use the real property asset have been assigned to the Federal Government by a private entity or a non-Federal Government entity for a defined period of time in return for rental payments.
- **Otherwise Managed:**
 - **State Government-Owned (S):** A U.S. State, city, county, town, or other municipality government holds title to the real property asset, but rights for use have been granted to a Federal Government entity in a method other than a leasehold arrangement.
 - **Foreign Government-Owned (F):** A foreign government, trust, or U.S. territory holds title to the real property asset, but rights for use have been granted to a Federal Government entity in a method other than a leasehold arrangement.
 - **Museum Trust (M):** A trust entity holds title to the real property asset predominantly used as a museum, but federal funds may be received to cover certain operational and maintenance costs.
 - **Withdrawn Land (W):** Land withdrawn from public domain for another federal entity's specific use.

Notes:

- Agencies will not be permitted to submit a legal interest of Withdrawn Land (W) for a building or structure asset.
- Agencies are not to report an asset located in a foreign country with a legal interest of State Government-Owned. Agencies are not to report an asset located in the United States with a legal interest of Foreign Government-Owned.

4B. LEASE AUTHORITY INDICATOR

Lease Authority Indicator is required for leased assets only. Provide one of the following 2-character codes to indicate the authority used to execute the lease (valid codes are in parentheses):

- **Independent Statutory Authority (IS):** Authority to acquire leased space that originates in a statute enacted into law. This may be an agency wide standing authority to acquire leased space or it may be singular authority granted to acquire leased space for a specific activity of a federal agency.
- **Categorical Space – Delegation from GSA (CS):** A standing delegation of authority from the Administrator of General Services to a federal agency to acquire certain types of space as identified in FMR 41 CFR Part 102-73 Delegation of Authority, sec 102.73-155. All leased real estate assets reported as categorical delegation must comply with GSA FMR Bulletin C-2 Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014) reporting requirements in the GSA Lease Delegations data system.
- **Special Purpose Space – Delegation from GSA (SP):** A standing delegation of authority from the Administrator of General Services to specific federal agencies to lease their own special purpose space. Restricted to agencies that have special purpose delegation authority for the types of space authorized under FMR 41 CFR §§ 102-73.170 through– 102-73.225. Agencies that have special purpose delegation are Agriculture, Commerce, Defense, Energy, Federal Communications Commission, Health and Human Services, Homeland Security, Interior, Justice, Transportation, Treasury, and Veterans Affairs. All leased real estate assets reported as special purpose delegation must comply with GSA FMR Bulletin C-2 Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014) reporting requirements in the GSA Lease Delegation data system.
- **General Purpose (PC):** GSA FMR Bulletin C-2, Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014) established new requirements for agencies requesting authorization to use the general purpose lease delegation authorization. The bulletin re-emphasized and modified certain procedures associated with the use of the delegation of general purpose

leasing authority as provided by GSA FMR Bulletin 2008-B1, Revised Implementation Requirements for Delegations of Lease Acquisition Authority (72 FR 65026, November 19, 2007). General purpose delegations of lease authority is limited to no more than 19,999 usable square feet of space for terms of up to 20 years and below prospectus-level requirements, regardless of geographic location. General purpose space is defined as office and related space, as well as laboratory and warehouse space. All leased real estate assets reported as general purpose delegation with lease award dates after November 11, 2007, must be approved by GSA in accordance with GSA FMR Bulletin C-2, Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014). No real estate asset may be reported under general purpose delegation without receiving appropriate delegated authority from GSA.

Notes:

- Information on Special Purpose Space Delegation can be found at <http://www.gsa.gov/portal/ext/public/site/FMR/file/Part102-73.html/category/21859/>
- Information on General Purpose Space Delegation can be found at <http://www.gpo.gov/fdsys/pkg/FR-2014-04-16/pdf/2014-08645.pdf>

5. STATUS

5A. STATUS INDICATOR

Status Indicator reflects the predominant physical/operational status of the asset. Buildings, structures, and land assets will have one of the following attributes (valid codes are in parentheses):

- **Current Mission Need (A):** Asset is currently needed to support agency's mission or function.
- **Future Mission Need (I):** Asset is not currently needed to support agency's mission or function but will be needed in the future.
- **Report of Excess Submitted (B):** Agency has submitted a report of excess (ROE) to GSA and the ROE is pending acceptance by GSA. For this category, the agency must submit the date the ROE was submitted to GSA in 5B. The universe of these assets will be reviewed in subsequent reporting periods.
- **Report of Excess Accepted (C):** Agency has received an acceptance of the ROE from GSA Disposal Office. For this category, the agency must submit the date the ROE was accepted by GSA in 5C. The universe of these assets will be reviewed in subsequent reporting periods.
- **Determination to Dispose (F):** Agency has made the final determination to remove the asset from the inventory pursuant to independent statutory authorities. For this category, the agency must submit the date the agency made the determination to dispose in 4D. The universe of these assets will be reviewed in subsequent reporting periods. This category includes demolitions, regardless of authority.
- **Surplus(S):** Consistent with statutory definition cited in 41 CFR § 102-75.1160; accord 45 CFR § 12a.1; 24 CFR § 581.1., surplus property means any excess real property not required by any federal landholding agency for its needs or the discharge of its responsibilities, as determined by the Administrator of GSA. Agencies with independent authority to dispose of assets may also declare assets as "surplus", depending on the processes prescribed in their statutory authorities
- **Disposed (D):** Asset has exited the federal inventory. For the category, the agency must submit the date of asset disposition.
- **Cannot Currently be Disposed (G):** Asset for which an agency has no long term need, but the asset "cannot currently be disposed" because of certain circumstances. See data element 5G. Agencies must pick one specific circumstance from among the following options in the drop down list (valid codes are in parentheses):
 - Environmental Remediation (1)
 - Diplomatic Restrictions (2)
 - Title/ Legal Disputes (3)
 - Campus Location (4)
 - Easements (5)
 - Protective Structures (levies, breakwaters, or berms) (6)
 - Other (7)

Owned Inventory Status Categories — Owned assets may only have a status:

- Current Mission Need (A),
- Future Mission Need (I),
- Report of Excess Submitted (B),
- Report of Excess Accepted (C),
- Determination to Dispose (F),
- Surplus (S),
- Disposed (D), or
- Cannot Currently be Disposed (G).

Leased Inventory Status Categories — Leased assets may only have a status of:

- Current Mission Need (A),
- Future Mission Need (I), or
- Disposed (D).

Museum Trust, State, and Foreign Govt. Owned Inventory Status Categories — Assets with legal interest of museum trust, state government owned, or foreign government owned may only have a status of:

- Current Mission Need (A),
- Future Mission Need (I),
- Determination to Dispose (F),
- Surplus (S),
- Cannot Currently be Disposed (G), or
- Disposed (D).

Withdrawn Land Status Categories — Assets with legal interest of withdrawn land may only have status of:

- Current Mission Need (A),
- Future Mission Need (I),
- Disposed (D).

5B. REPORT OF EXCESS SUBMITTED DATE

This data sub-element is required for all assets with Status Indicator of (B). Agencies are to report the actual date the ROE was submitted to GSA in mm/dd/yyyy format. Agencies may submit past, present, or future date.

5C. REPORT OF EXCESS ACCEPTED DATE

This data sub-element is required for all assets with Status Indicator (C). Agencies are to report the actual date the ROE was accepted by GSA in mm/dd/yyyy format. Agencies may submit past, present, or future date.

5D. DETERMINATION TO DISPOSE DATE

This data sub-element is required for all assets with Status Indicator of (F). An agency with independent statutory authority to dispose of assets (and that therefore will not submit a ROE to GSA) has made the final determination to remove the asset from the inventory. The agency is to report the actual date the agency made the final determination to remove the asset from the inventory in mm/dd/yyyy format. Agencies may submit past, present or future date.

5E. SURPLUS DECLARATION DATE

This data sub-element is required for all assets with Status Indicator of (S). Agency will report the date the asset has been declared surplus to the Federal Government in a mm/dd/yyyy format. Agencies may submit past, present or future date.

5F. OUTGRANT INDICATOR

In addition to the predominant status of the property, each asset where the legal interest equals owned, leased, or museum trust will have an Outgrant Indicator. Outgrant refers to Federal Government-owned or leased real property in which rights have been conveyed or granted to another entity. Please do not report outgrant indicator for onsite retail and food outlease.

Outgrant Indicator (Y/N): Indicate yes (Y) or no (N) as to whether rights have been conveyed or granted to another entity.

Notes:

- The percentage of a constructed asset outgranted is not a consideration for reporting “Yes” for Outgrant Indicator. If any portion of the asset is outgranted (excluding onsite retail and food outlease), the agency should report “Yes” for Outgrant Indicator. For example, an agency would report a 100,000 square-foot office building with only 1,000 square feet outgranted as “Yes” for Outgrant Indicator.
- Agencies are not to report Outgrant Indicator when outgrant is for either onsite retail or food outlease. If any portion of the asset is outgranted (excluding onsite retail and food outlease), the agency should report “Yes” for Outgrant Indicator.

5G. REASON CANNOT CURRENTLY BE DISPOSED

This data sub-element is required for all assets with Status Indicator of (G). Agencies must pick one specific circumstance from among the following options in the drop down list (valid codes are in parentheses):

- Environmental Remediation (1)
- Diplomatic Restrictions (2)
- Title/ Legal Disputes (3)
- Campus Location (4)
- Easements (5)
- Protective Structures (levies, breakwaters, or berms) (6)
- Other (7)

6. HISTORICAL STATUS

This data element may not be submitted for Leased, Withdrawn Land, State, and Foreign Government Owned assets.

Historical status is based on the National Register of Historic Places (NRHP) evaluation by your agency’s cultural resources staff; the staff members should be aware of formal determinations by the Keeper of the NRHP and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO). It is reported on all owned and museum trust building, structure, and land assets. Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported.

Each asset where the legal interest equals “owned” or “museum trust” will have one of the following Historical Status attributes (valid codes are in parentheses):

- National Historic Landmark (NHL) (1)
- National Register Listed (NRL) (2)
- National Register Eligible (NRE) (3)
- Non-contributing element of NHL/NRL district (4)

- Not Evaluated (5)
- Evaluated, Not Historic (6)

National Historic Landmark (NHL) (1): the asset is designated as a National Historic Landmark (NHL) either individually or as a contributing resource to an NHL district. Consult with your agency's cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO).

National Register Listed (NRL) (2): the asset is listed in the National Register of Historic Places (NRHP) either individually or as a contributing resource to a National Register-listed historic district. Consult with your agency's cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO).

National Register Eligible (NRE) (3): the asset is eligible for listing in the National Register of Historic Places (NRHP) either individually or as a contributing resource to a National Register-eligible historic district. Consult with your agency's cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO).

Noncontributing element of NHL/NRL district (4): the asset has been determined noncontributing to a National Historic Landmark (NHL) or National Register listed or eligible historic district. Consult with your agency's cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO).

Not Evaluated (5): the asset has not been evaluated by your agency's cultural resources staff for listing in the National Register of Historic Places either individually or as part of a larger district or no Historical Status information is available. This is common and acceptable for assets less than 45 or 50 years old to be unevaluated. Consult with your agency's cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO).

Evaluated, Not Historic (6): the asset has been evaluated by your agency's cultural resources staff and determined not to be historical, that is, not eligible for listing in the National Register of Historic Places (NRHP). Consult with your agency's cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO)/Tribal Historic Preservation Officer(s) (THPO).

7. REPORTING AGENCY

Reporting Agency refers to the Federal Government agency/bureau reporting the property to FRPP MS. Agencies are required to provide data on assets they own, lease, or manage directly.

Provide the 4-digit agency/bureau code for the agency reporting the property. The full list of agency/bureau codes may be found in [Appendix E: Agency Bureau Codes](#). The agency bureau code is a 4-digit code identifying the agency and bureau. The first two digits identify the agency; the last two digits identify the bureau within the agency.

Note:

- Reporting Agency is also required when an agency provides the Disposition data element (#24) for an asset that has exited the inventory.

8. USING ORGANIZATION

Using Organization refers to the predominant Federal Government agency/bureau (or other non-Federal Government entity) occupying the property.

Provide the 4-digit agency bureau code of the predominant user of the property. If property is occupied by a non-Federal Government entity (e.g., private sector), provide "9999" for the Using Organization value. The full list of agency bureau codes may be found in [Appendix E: Agency Bureau Codes](#).

Note:

- Optional for structure assets.

9. SIZE

Size refers to the size of the real property asset according to appropriate units of measure. The units of measure used for building and land assets are as follows:

For land, the unit of measure is acreage and is designated as Acres.

For buildings, the unit of measure is area in *square feet* and is designated as Square Feet (SF) based on source document (e.g., lease, construction documents, CAD drawings).

Note:

- Numeric values reported for acres or square feet must be greater than zero.

9A. ACRES (LAND)

Provide the total number of acres associated with each land asset record.

9B. SQUARE FEET (BUILDINGS)

Provide the total area in square feet based on source document (e.g., lease). This data element is required for all building assets.

The total amount of square feet in #9B will continue to be used for the reporting and performance measurement of the Reduce the Footprint policy.

9C. SQUARE FEET UNIT OF MEASURE

In addition to reporting the square feet, agencies will provide one of the three available options for the unit of measure for the square feet indicated in data element #9B. The three categories are:

- **Gross Square Feet (G):** The area of all floors on all levels of a building as determined using an industry standard such as ANSI/BOMA Z65.3-2009⁵, *Gross Area of a Building* or IFMA/ASTM E1836-01, *Standard Classification for Building Floor Area Measurements for Facility Management*. All owned buildings must submit Gross Square Feet (G). Otherwise managed buildings must choose Gross Square Feet (G), Rentable Square Feet (R) or Usable Square Feet (U).
- **Rentable Square Feet (R):** The rentable area, SF, as determined using ANSI/BOMA Z61.1-2010, *Office Buildings: Standard Methods of Measurement* or IFMA/ASTM E1836-01, *Standard Classification for Building Floor Area Measurements for Facility Management*. It is the area, measured to the inside finished surface of the permanent outer walls, excluding any major vertical penetrations of the floor. Areas of columns and building projects are included in rentable area. Excluded are exterior walls, major vertical penetrations, and interior parking spaces. All leased buildings must choose Rentable Square Feet (R) or Usable Square Feet (U). Otherwise managed buildings must choose Gross Square Feet (G), Rentable Square Feet (R) or Usable Square Feet (U).
- **Usable Square Feet (U):** The portion of a building that is available for occupants, as determined using ANSI/BOMA Z65.1-2010⁶, *Office Buildings: Standard Methods of Measurement*, or IFMA/ASTM E1836-01, *Standard Classification for Building*

⁵ The **ANSI/BOMA Standard Z65.3-2009** outlines the industry practice for measuring gross area of a building. This standard applies to buildings containing all types of types of occupancies, including office, retail, industrial, since and multi-unit residential, hospitality, entertainment and institutional buildings. It applies to both new and existing buildings containing single or multiple stories

⁶ The **ANSI/BOMA Standard Z65.1-2010** outlines the industry practice for measuring different types of spaces commonly found **within** buildings. The standard seems particularly well suited to office buildings.

Floor Area Measurements for Facility Management. The area excludes common areas such as bathrooms, stairways, elevator shafts, corridors, lobbies, equipment (that supports the building) rooms, janitor rooms, pipe and vent shafts, exterior walls, and telephone closets. All leased buildings must choose Rentable Square Feet (R) or Usable Square Feet (U). Otherwise managed buildings must choose Gross Square Feet (G), Rentable Square Feet (R) or Usable Square Feet (U).

9D. STRUCTURAL UNIT (STRUCTURES)

Provide the unit of measure for the structure. This is optional for Structures Assets.

9E. UNIT OF MEASURE (STRUCTURES)

Provide the unit of measure for the structure. Table 2 Structural Units of Measure for Predominant Use Categories provides the valid units of measure. See also [Appendix B: Quick Guide - Predominant Use Categories & Codes](#).

Table 2: Structural Units of Measure for Predominant Use Categories

Code	Predominate Use Category for Structures	Valid Units of Measure
12	Airfields Pavements	Square Yards
13	Harbors and Ports	Square Yards
15	Power Development and Distribution	Each, Linear Feet
16	Reclamation and Irrigation	Each, Linear Feet
18	Flood Control and Navigation	Each, Linear Feet
28	Museum	Each
40	Storage (other than buildings)	Each, Linear Feet
50	Industrial (other than buildings)	Each, Linear Feet
60	Service (other than buildings)	Each
65	Space Exploration Structures	Each
66	Parking Structures	Square Yards
70	Research and Development (other than labs)	Each
71	Utility Systems	Each, Linear Feet, Miles
72	Communications Systems	Each, Miles
73	Navigation and Traffic Aids (other than buildings)	Each
75	Recreational (other than buildings)	Each
76	Roads and Bridges	Lane Miles, Square Yards
77	Railroads	Miles
78	Monuments and Memorials	Each
79	Miscellaneous Military Facilities	Each
82	Weapons Ranges	Each
83	Renewable Energy System	Each
80	All Other	Each, Lane Miles, Linear Feet, Miles, Square Yards

The unit of measure is reported along with the size of the structure. The database codes for the units of measure are as follows:

- Each (1)
- Lane Miles (2)
- Linear Feet (3)
- Miles (4)
- Square Yards (5)

10. UTILIZATION

This data element is REQUIRED for the following building predominant use categories: offices, hospitals, family housing, dormitories and barracks, warehouses, and laboratories. It is NOT to be reported for any structure assets, land assets, or remaining building uses.

Agencies must report utilization in terms of **Unutilized (5)**, **Underutilized (7)**, or **Utilized (6)** based on the statutory definitions provided below.

Unutilized property means an entire property or portion thereof, with or without improvements, not occupied for current program purposes for the accountable executive agency or occupied in caretaker status only. (41 CFR § 102-75.1160; accord 45 CFR § 12a.1; 24 CFR § 581.1.)

Underutilized means an entire property or portion thereof, with or without improvements, which is used only at irregular periods or intermittently by the accountable landholding agency for current program purposes of that agency, or which is used for current program purposes that can be satisfied with only a portion of the property. (41 CFR § 102-75.1160; accord 45 CFR § 12a.1; 24 CFR § 581.1.)

Utilized means anything that is not defined as “unutilized” or “underutilized.”

Per the McKinney –Vento Homeless Assistance Act of 1987 (Pub. L. 100-77, July 22, 1987, 101 Stat.482, 42 U.S.C. §11301 *et seq.* [FMR 41 CFR §§102-75.1160 through 102-75.1290], Federal agencies are required to report to HUD information concerning their unutilized, underutilized, excess, and surplus properties.

Note:

- Agencies should ensure that what they report in FRPP as unutilized or underutilized is also submitted to HUD. Refer to FMR 41 CFR §§ 102-75.1160 through 102-75.1290 at: <http://www.gsa.gov/portal/ext/public/site/FMR/file/Part102-75.html/category/21859/>

11. REPLACEMENT VALUE

This data element may not be submitted for land or leased assets.

Notes:

- In determining the replacement value of an asset, agencies are to assume that they will replace the asset with a newly constructed asset of the same size at the same location at today's buildings standards and codes. Agencies are not to consider the current condition or need of an asset.
- The result is adjusted by area cost and inflation, as appropriate.
- For otherwise managed property, unit should be based on the area as specified in the agreement.
- Overhead Factor includes other costs that are associated with construction, such as planning and design, historic factor, supervision, inspection, and other overhead costs. The intent at the moment is for agencies to define their own guidance and regulations for implementing the Replacement Value of Asset formula. Agencies such as DOD and GSA have published cost guidance that can be used by other agencies. DOD's Facilities Pricing Guide can be found at http://www.wbdg.org/ccb/DOD/UFC/ufc_3_701_01.pdf.
- Numeric values reported for Replacement Value must be greater than zero.

Exception:

- Land is excluded for Replacement Value. Only owned and otherwise managed buildings and structures will be required to have Replacement Value reported in the inventory.

12. REPAIR NEEDS

This data element may not be submitted for land or leased assets.

Repair Needs is the objective amount necessary to ensure that a constructed asset is restored to a condition substantially equivalent to the originally intended and designed capacity, efficiency, or capability. This should exclude any consideration of the likelihood that the repair will actually be performed at any time before the asset's disposition.

Note:

- Numeric values reported for Repair Needs must be greater than or equal to zero.

13. CONDITION INDEX **(Will Be Automatically Calculated – DO NOT REPORT)**

This data element will be automatically calculated. Agencies will not submit a value for this data element

Note:

- An acceptable calculated value may be negative.
- For reference purposes, the Condition Index formula is $CI = [1 - (\$repair\ needs / \$replacement\ value)] \times 100$

14. ANNUAL OPERATING COSTS

Agencies must submit 14A for Owned and Otherwise Managed Assets.

Note:

- Numeric values reported for Annual Operating Costs must be greater than or equal to zero. Excludes federal personnel and security costs.
- Excludes Federal personnel and security costs.

14A. OWNED AND OTHERWISE MANAGED ANNUAL OPERATING AND MAINTENANCE COSTS

Owned and Otherwise Managed Annual Operating and Maintenance (O&M) Costs consist of the following:

- Recurring maintenance and repair costs.
- Utilities (includes plant operation and purchase of energy).
- Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations).
- Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

Agencies are to provide full year costs. Agencies are to report total O&M costs for all assets.

Lease Costs for leased assets are comprised of two sub-elements: lease annual rent to lessor and lease annual operating and maintenance costs. Agencies are to provide full year costs.

Agencies with no ability to account for division between the annual rent and maintenance costs may put the entire sum amount in 14B and enter zero in 14C.

14B. LEASE ANNUAL RENT TO LESSOR

Agencies must submit 14B and 14C for Leased Assets.

Provide the net rent to the lessor. This is the fully serviced rental to the lessor minus the annual operating and maintenance costs.

14C. LEASE ANNUAL OPERATING AND MAINTENANCE COSTS

Agencies must submit 14B and 14C for Leased Assets.

Provide the reoccurring maintenance and repair costs including: Utilities (includes plant operation and purchase of energy); Cleaning and/or janitorial costs (includes pest control, refuse collection, and disposal to include recycling operations). Roads/grounds expenses (includes grounds maintenance, landscaping, and snow and ice removal from roads, piers, and airfields).

O&M COST COMPONENTS (REPORTING IS OPTIONAL FOR ALL ASSETS)

As a first step to initiate a benchmarking process on the most common components, agencies may optionally report O&M cost components, if identifiable and allocatable at the asset level. Agencies with the ability to identify any of the following cost components should include those values. *Agencies without the ability to identify and allocate individual cost components at the constructed asset level should indicate a NULL value for those components and not zero.*

The analysis and benchmarking of these cost components will occur independently of the other cost components. It is not expected or desired for the cost components to add up to the total O&M cost value in 14A. or 14B. and C. Agencies must continue to report the full costs in 14A or 14B and C.

Example: Agency A has \$500,000 in total annual O&M costs. It can identify and allocate the following cost components: \$5,000 for 14D; \$10,000 for 14K and \$100,000 for 14M. Agency A would input the total \$500,000 of O&M costs in 14A. and input the individual identifiable component costs for 14D, 14K and 14M. The remaining cost components would be reported with a NULL value as they cannot be identified or allocated at the constructed asset level.

14D. TOTAL RECURRING MAINTENANCE AND REPAIR

- 14E. Elevator
- 14F. HVAC
- 14G. Plumbing

14H. TOTAL UTILITIES

- 14I. Water/Sewage
- 14J. Electricity
- 14K. Gas
- 14L. Steam

14M. CLEANING AND JANITORIAL

14N. ROADS AND GROUNDSKEEPING

15. MAIN LOCATION

Main Location refers to the street/delivery address for the asset or the latitude and longitude coordinates. Either of the following will be provided for the constructed asset or parcel of land:

- Street Address, or
- Latitude and Longitude (if no security concerns exists). To standardize this data element, agencies will report latitude and longitude using the World Geodetic System (WGS 84) coordinate reference system. WGS 84 is used for GPS navigation systems. The link to the National Geospatial Intelligence Agency, which maintains WGS 84, is <http://earth-info.nga.mil/GandG/wgs84/index.html>.

Note:

- Reporting of 15A, 15B and 15C is optional for structure assets.

15A. STREET ADDRESS

Provide the street address in geo-codable format (i.e., an address that can be mapped by Geographic Information System (GIS) software or used by an overnight delivery service to deliver packages). An example of a geo-codable address is "123 Main Street." Agencies now have the option to report either the asset's full postal address (including city, State, and 5-digit ZIP code) or the asset's street address. Do **not** use the following:

- Mailing address that is different than the location's address
- Building name
- Street corner (e.g., "Main & 1st")
- Other description (such as a Post Office Box number)

If using special characters in text (&, <, >, ", '), escape characters must be used in XML as shown below:

Special Character	Special Character Name	XML Code to Use
&	Ampersand	& ;
<	Less than	< ;
>	Greater than	> ;
"	Quote	" ;
'	Single quote	' ;

15B. LATITUDE

The measure of the angular distance on a meridian north or south of the equator. The latitude of the Equator is 0°; the latitude of the South Pole is -90°; the latitude of the North Pole is 90°. Positive latitude values correspond to the geographic locations north of the Equator. Negative latitude values correspond to the geographic locations south of the Equator. An example is 048.421220. Acceptable values range from 90.0 to -90.0.

15C. LONGITUDE

The measure of the angular distance between the plane of a meridian east or west from the plane of the meridian of Greenwich (Prime meridian). Positive longitude values correspond to the geographic locations east of the prime meridian. Negative longitude values correspond to the geographic locations west of the prime meridian. An example is -122.3340500. Acceptable values range from 180.0 to -180.0.

Senior Agency Officials for Geospatial Information (SAOGI)

Agencies should coordinate with their senior agency officials for geospatial information (SAOGI). The SAOGI is responsible per *OMB Circular A-16, Coordination of Geographic Information Related Spatial Data Activities* and *OMB Memorandum M-06-07: Designation of a SAOGI*, for promoting the allocation of agency resources to fulfill the responsibility of effective spatial data collection, production and stewardship.

A list of the current senior agency officials can be found at <http://www.fgdc.gov/participation/steering-committee/steering-committee-membership>.

16. REAL PROPERTY UNIQUE IDENTIFIER

Real Property Unique Identifier is a code that is unique to a real property asset that will allow for linkages to other information systems. The Real Property Unique Identifier is assigned by the reporting agency and can contain up to 24 alpha-numeric digits.

Note:

- The Real Property Unique Identifier must remain the same for each asset from year to year.

17. CITY

FRPP MS has adopted the Geographic Names Information System (GNIS) standard for the GLCs for City, State, and County. GNIS codes can be found at http://geonames.usgs.gov/domestic/download_data.htm. A GLC is a Geolocation Code.

Provide the 4-digit GLC for the city or town associated with the reported Main Location in which the land, building, or structure is located.

18. STATE

Provide the 2-digit GLC for the state or District of Columbia associated with the reported Main Location in which the land, building, or structure is located.

19. COUNTRY

FRPP MS has adopted the Geospatial Entities, Names, and Codes (GENC) standard for the Country GLC. Provide the 3-digit GLC for the Country associated with the reported Main Location in which the land, building, or structure is located.

See [Appendix F: GLC Country Code Crosswalk](#)

As of FY 2014, FRPP MS will adopt Geospatial Entities, Names, and Codes (GENC) standard for the GLC Country Codes. GENC codes can be found at <http://geonames.nga.mil/gns/html/>.

20. COUNTY

Provide the 3-digit GLC for the County associated with the reported Main Location in which the land, building, or structure is located.

21. CONGRESSIONAL DISTRICT

Provide the value for the Congressional District associated with the reported Main Location in which the land, building, or structure is located.

Notes:

- When agencies report the Congressional District for an asset, FRPP MS cross-references the 9-digit ZIP code of the asset and suggests a Congressional District value only if the Congressional District value entered does not match what is in FRPP MS. An agency may choose to ignore this suggestion.
- OPTIONAL for structure assets.
- Congressional District is a 20-character alpha-numeric field, because assets may be located in multiple Congressional Districts.
- The Congressional District database can be found at www.house.gov.

22. ZIP CODE

Provide the 5-digit ZIP code associated with the reported Main Location in which the land, building, or structure is located and, if known, the additional 4-digit ZIP code suffix.

ZIP codes can be found at <http://www.usps.com>.

23. INSTALLATION/SUB-INSTALLATION IDENTIFIER

An installation is land, buildings, or any combination of these. Examples of installations are a hydroelectric project, office building, warehouse building, border station, base, post, camp, or an unimproved site.

Note:

- Data Elements 23A, B, and C are OPTIONAL for Structure Assets.

23A. INSTALLATION ID

Provide a 24-digit alpha-numeric code for the Installation ID assigned by the reporting agency

23B. SUB-INSTALLATION ID

A sub-Installation is part of an installation identified by a different geographic location code than that of the headquarters installation. An installation must be separated into sub-installations (and reported separately) when the installation is located in more than one State or county. However, an agency may elect to separate an installation into sub-installations even if the installation is not located in more than one State or county.

Provide a 24-digit alpha-numeric code for the Sub-Installation ID assigned by the reporting agency.

23C. INSTALLATION NAME (OPTIONAL)

Installation Name is an optional data element. An installation name can be the building name (as in the case of a single building installation) or the name of the entire installation (as in the case of an agency campus).

Provide up to 100 alpha-numeric digits for the Installation Name assigned by the reporting agency. If using special characters in text (&, <, >, ", '), escape characters must be used in XML as shown below:

Special Character	Special Character Name	XML Code to Use
&	Ampersand	&
<	Less than	<
>	Greater than	>
"	Quote	"
'	Single quote	'

24. DISPOSITION

Agencies are required to report all assets that have exited the federal portfolio of assets during the reporting fiscal year. This includes, but is not limited to, sales, federal transfers, public benefit conveyances, and demolitions. Disposition data is reported only in the year the asset has exited the federal portfolio of assets.

Agencies are required to provide the following data elements for each disposed asset:

- Real Property Type
- Real Property Use
- Legal Interest Indicator
- Status = "disposed"
- **Historic Status (New for 2016)**
- Reporting Agency
- Size
- Annual Operating Costs/Lease Costs – Report full year costs
- Real Property Unique Identifier
- City
- State (Required for U.S. assets only)
- County (Required for U.S. assets only)
- Country
- Disposition Data Elements

24A. DISPOSITION METHOD

Report one of the following categories for the disposition method as outlined below using one of the 2-character codes to indicate the disposition method (valid codes are in parentheses):

Public Benefit Conveyance (PB)

Subcategories (optional):

- Homeless Assistance (HA)
- Health or Educational Use (HE)
- Public Parks and Public Recreational Area (PR)
- Historic Monuments (HM)
- Correctional Facility Use (CF)
- Port Facilities (PF)
- Public Airports (PA)
- Wildlife Conservation (WC)
- Negotiated Sales to Public Agencies (NS)
- Self-help Housing (SH)
- Law Enforcement and Emergency Management Response (LW)

Federal Transfer (FT)

Sale (SL)

Subcategories (optional):

- Negotiated Sale (SN)
- Public Sale (SP)

Lease Termination (LX)

Lease Expiration (LE): applies to the actual end of the lease or the end of the lease holdover period

Demolition (DM)

Other (OT)

Loss due to Disaster (LD)

Abandonment⁷ (AB)

Loss due to Deterioration (DE)

Return to Host Nation/ Tribe (RH)

Loss due to Training Exercise (LT)

Reversion to Prior Owner (RO)

Exchange (EX)

⁷ Abandonment - 41 CFR §102-75.1025 When can a federal agency abandon or destroy improvements on land or related personal property in lieu of donating it to a public body?

A federal agency may not abandon or destroy improvements on land or related personal property unless a duly authorized official of that agency finds, in writing, that donating the property is not feasible. This written finding is in addition to the determination prescribed in §§102-75.1000, 102-75.1005, and 102-75.1010. If donating the property becomes feasible at any time prior to actually abandoning or destroying the property, the federal agency must donate it.

Notes:

- Land assets may not be reported as a disposition method of Demolition.
- During the confirmation step of the FRPP MS data submission process, FRPP MS will generate the Missing Assets report, which compares the current reporting period to the previous year's reporting. This comparison is to ensure that all disposed property has been properly identified. Agencies will need to correct data or be prepared to explain any missing asset variances.
- The definitions of the sub-categories of disposition methods for Public Benefit Conveyance can be found in Section D: Definitions and Codes - Public Benefit Conveyance Methods.
- Lease Expiration and Lease Termination may only be reported for assets with legal interest of "leased." Reporting an asset with legal interest of "leased" and any disposition method other than lease expiration or lease termination will result in an error.
- Agencies may only submit Withdrawn Land with one of the following 12 disposition methods: Federal Transfer (FT), Other (OT), and Sale (SL) including subcategories: Negotiated Sale (SN) and Public Sale (SP), Loss due to Disaster (LD), (AB) Abandonment* (AB), Loss due to Deterioration (LE), Return to Host/ Tribe (RH), Loss due to Training Exercise (LT), (RO) Reversion to Prior Owner (RO), Exchange (EX).
- Administrative errors that are corrected by an agency must not be reported as disposed assets. The administrative errors should no longer be reported to FRPP MS once discovered. These assets would show up in the agency's missing asset report in FRPP MS and should be noted by the agency.

24B. DISPOSITION DATE

Report the date the disposal action was completed in mm/dd/yyyy format. Refer to the examples in the matrix below for the Disposition Date to report based on the method of disposal.

Note:

- Clarified the business rule that disposition date must fall within FY 2016. Allowable dates are October 1, 2015 to September 30, 2016. Any date prior to October 1, 2015 or after September 30, 2016, is not allowed and will generate a validation error.

Disposition Method	Example of Event Indicating Disposition Date
Public Benefit Conveyance	Date of assignment letter to sponsoring agency and subsequent deed date to grantee
Federal Transfer	Date of letter of transfer
Sale (Negotiated or Public)	Deed date
Demolition	Demolition date
Other	Transaction date
Lease Termination	Lease termination date
Lease Expiration	Lease expiration date
Loss due to Disaster	Date of Disaster
Abandonment	Date of Abandonment
Loss due to Deterioration	Date of total loss due to Deterioration
Return to Host Nation/ Tribe	Date of Return to Host Nation/ Tribe
Loss due to Training Exercise	Date of actual loss due to Training Exercise
Reversion to Prior Owner	Date of Reversion to the Prior Owner
Exchange	Date of Exchange completion

24C. ACTUAL SALES PRICE

Actual Sales Price is only to be reported for Sale and subcategories negotiated or public sale and should represent the asset's actual sales price.

Numeric values reported for Actual Sales Price must be greater than or equal to zero.

24D. NET PROCEEDS

Report the proceeds received as part of the asset disposal costs incurred by the agency. Data reporting is required only for assets disposed through sale (negotiated or public).

Note:

- An agency must report all of the proceeds to the Federal Government from the sale of an asset. This includes any funds that are returned to the U.S. Treasury, as well as any funds that the agency retains. The agency must subtract any costs incurred in the sale of the asset to determine the net proceeds from the sale.

25. SUSTAINABILITY

Note:

- Sustainability reporting is required for and applicable to all owned building assets greater than 5,000 GSF that are located in the United States and U.S. territories. **Sustainability reporting may be optionally reported for leased and otherwise managed buildings over 5,000 GSF. These optionally reported assets will not be used in assessing agency performance for the agency Sustainability Scorecard. Sustainability reporting may not be reported for the following real property types: land assets, structures assets, or building assets less than or equal to 5,000 GSF.**
- Clarified the business rule that sustainability must not be reported for assets located in foreign countries.

Sustainability reflects whether or not the reported building asset meets the sustainability criteria set forth in Section 3 (h) (ii) of Executive Order 13693, which requires federal agencies to improve building efficiency, performance, and management by identifying a percentage of at least 15 percent, by number or total square footage, of the agency's existing buildings above 5,000 gross square feet (GSF) that will, by fiscal year 2025, comply with the revised 2016 Guiding Principles for Federal Leadership in High Performance and Sustainable Buildings (Guiding Principles), and making annual progress toward 100 percent.

Sustainability reporting is required for and applicable to all owned building assets greater than 5,000 GSF that are located in the United States and U.S. territories. Sustainability must not be reported for assets located in foreign countries. **Sustainability reporting may be optionally reported for leased and otherwise managed buildings over 5,000 GSF. These optionally reported assets will not be used in assessing agency performance for the agency Sustainability Scorecard. Sustainability reporting may not be reported for the following real property types: land assets, structures assets, or building assets less than or equal to 5,000 GSF.** To be considered sustainable and report "Yes," the assets must meet the revised Guiding Principles released on February 26, 2016.

Likewise, buildings that have been determined to meet the 2016 Guiding Principles for new construction and modernization can be considered as meeting the Guiding Principles if they continue to meet ongoing sustainable operating requirements, such as recommissioning every four years, benchmarking, waste diversion, etc. Valid codes are in parentheses.

- Yes (1) – asset has been evaluated and meets guidelines set forth in Section 3 (h) (ii) of Executive Order 13693
- No (2) – asset has been evaluated and does not meet guidelines set forth in Section 3 (h) (ii) of Executive Order 13693
- Not Yet Evaluated (3) – asset has not yet been evaluated on whether or not it meets guidelines set forth in Section 3 (h) (ii) of Executive Order 13693
- Not Applicable (4) – buildings that have a status of Report of Excess (ROE) submitted, ROE accepted, or Determination to Dispose;

OR ARE

- Unoccupied: The building is occupied 1 hour or less per person per day on average; AND
- Low/ No Energy Use: The total building energy consumption from all sources is less than 20.9 BTU/ SF/ YR; AND
- Low/ No Water Use: Annual average water consumption is less than 2 gallons per day for the building.

Note:

- Buildings that were determined to have met the 2008 Guiding Principles are considered to meet the Guiding Principles through FY 2025 as long as they continue to meet ongoing requirements such as Energy Independence and Security Act of 2007 (EISA) section 432 requirements including quadrennial evaluations, ongoing commissioning, benchmarking, and operating and maintenance requirements. Also, for these [grandfathered] buildings, agencies should add the sixth Guiding Principle on Resilience as they implement the ongoing requirements for a four-year evaluation.

26. LEASE EXPIRATION DATE

This data element is required for all leased assets. If the leased asset has multiple leases with different expiration dates, agencies are to report the expiration date with the latest date in mm/dd/yyyy format. This date represents the expiration of the current lease term, regardless of termination rights and renewal options. Once a renewal option is formally exercised, then that date will be the new expiration date.

Lease expiration dates may be submitted as a past, present, or future date. As leases expire, adjust the GSF and rental cost data elements, as appropriate.

27. PERSONNEL – THIS DATA ELEMENT WILL NOT BE REPORTED IN FRPP MS. IT WILL BE REPORTED IN OMB MAX.

All CFO Act agencies are required to submit personnel data for all building assets that are predominantly used as office space. Agencies will use the reporting tool established in the OMB MAX Collaboration, Information Sharing and Data Collection Web Based Application to submit their personnel data. Detailed Reporting Guidance is included in Appendix H: Fiscal Year 2015 GSA Guidance for Gathering Personnel Data for the Square Feet per Person Real Property Metric.

The agency reported personnel data will be used for pre-decisional data analysis and will not be distributed outside of the federal community. The definitions below were developed in coordination with the Chief Human Capital Officer (CHCCO) Council and each agency should contact their CHCO to ensure the agency makes the count in a consistent manner.

FEDERAL EMPLOYEES

Agencies are to provide to OMB MAX the total number of federal personnel (including full-time teleworkers) assigned to the building. Agencies are to coordinate all totals with the personnel office at their agency.

Federal employees are defined as:

- The total number of full and part time employees who are permanently assigned to a facility,
- Seasonal hires, interns, and other temporary staff if they predominantly work in the office and are employed for three months or longer, and
- Individuals who telework less than five days a week but are permanently assigned to the location are counted.

FEDERAL CONTRACTORS

Agencies are to provide to OMB MAX the total number of resident contractors. Resident contractors are those whose primary work location is the facility in question. The term "Resident contractor" excludes janitorial staff, construction workers, movers, security guards, and all other contractors who do not work from a desk and are not typically considered "office workers". The agency reported personnel data will be used for pre-decisional data analysis and will not be distributed outside of the federal community.

Rest of Page is Blank

C. FRPP MS DATA VALIDATION

Three Stages of FRPP Validation

Three stages of FRPP data validation occur from the time that information on an asset is entered into an agency's various information systems until after the FRPP data is submitted into the application by December 15 of each year. The following section discusses each stage of the FRPP data validation process.

1. Agency Independent Validation and Verification

Agencies that submit data to FRPP MS perform the steps in this first stage of FRPP validation. These steps are performed prior to the start of the FRPP submission, which begins in mid-October of each year. This first stage involves two steps. First, agencies must ensure that the data in their various information systems accurately represents the characteristics of the assets in their inventories. For example: An agency with a building asset of 1 million square feet must ensure that the size of the building is actually 1 million square feet in its various information systems. During the second step in this first stage, agencies must ensure that the compiled XML file submitted to the FRPP MS matches the data in their internal systems. Agencies will need to ensure that the data compiled and generated into an XML file for submission to FRPP MS matches the source data from the various information systems.

2. FRPP Reporting Requirements and Business Rule Validation

FRPP MS and agencies that submit FRPP data perform the steps in the second stage of the FRPP validation process. This stage occurs as agencies begin to stage, validate, and correct errors in the XML files, which occurs from mid-October until the submission deadline of December 15 of each year.

FRPP MS has a robust set of reporting requirements for the data elements agencies are to report for their inventories. These requirements are contained within the annual Guidance for Real Property Inventory Reporting, known as the FRPP Data Dictionary. This document lists, defines, and provides technical guidance for each of the data elements in FRPP MS and ensures that submitted data follows reporting requirements and business rules established in the Data Dictionary. Example: Agencies must submit Outgrant Indicator in an alphanumeric format or a conditional requirement that agencies report square feet for a building asset and not acres.

In FRPP MS, agencies first stage their XML files and then run a validation routine on each file. This validation routine ensures that the reporting requirements are being followed for each asset in a given XML file. If FRPP MS discovers an error during this validation routine, a detailed listing of the error is provided indicating which data element for a specific asset contains the error. The report also indicates what type of error exists. Examples of common errors are numbers that are out of range (e.g., reporting a negative number for the operating cost data element, which cannot have a value less than zero), improper date format (the acceptable FRPP date format is mm/dd/yyyy), and not providing a value for a required data element (e.g., leaving the real property unique ID data element blank). Agencies must correct all errors found in an XML file before that file may be finally uploaded into the FRPP system.

3. FRPP Data Anomaly Review

GSA's OGP and reporting agencies perform the final stage of FRPP validation, which occurs after the December 15 deadline of each year. Stage two of FRPP validation ensures that each record is valid according to the requirements in the FRPP Data Dictionary. OGP will run various reports that focus on segments of the inventory which indicate anomalies in the data that require further investigation by reporting agencies. These reports check for unusual trends and variances in the data. Examples of anomalies include large increases or decreases from one year to the next in an agency's operating cost, square footage, or acreage; and a large percentage of assets with a condition index value of 100. Individually, the data elements are valid, but, when totals are analyzed at a higher level, these anomalies appear.

Upon further examination, agencies may discover that the data anomalies are the result of incorrect data being provided. Using the prior example of condition index, it would be highly unlikely that 50 percent of an agency's assets have a condition index of 100, which indicates newly constructed assets with no repairs needed. While viewed individually 100 can be an acceptable value for condition index, it would be rare for an agency to turn over that amount of space in the inventory for brand new space. Agencies may discover that an error existed for that data element, which needs to be corrected to get a complete and accurate accounting of their inventory.

The review and resolution of data anomalies will be a mandatory requirement for all CFO Act agencies, as outlined in OMB *Management Procedures Memorandum 2016-01, Improving Federal Real Property Data Quality – Required Data Validation and Verification Procedures* and GSA *Federal Real Property Data Validation and Verification Guidance* (May 13, 2016).

D. TECHNICAL REPORTING GUIDANCE

The Federal Real Property Profile Management System (FRPP MS) is the online system that houses the federal real property inventory data. Agencies must report data annually by either submitting an XML file in a predetermined format or by entering the data manually into the online FRPP system. It is important that the inventory data is updated in a consistent manner across the agency and bureaus – the SRPO is responsible for coordinating the agency/bureau activities and ensuring consistency and accuracy.

1. OPTIONS FOR UPDATING LAST YEAR'S INVENTORY DATA

Agencies can update last year's real property data by:

- Overwriting all existing data; or
- Updating existing data (modify, delete, or add new record).

Regardless of how agencies decide to update their data, the overall FRPP data submission process is the same (see Figure 1: FRPP Data Submission Process). The two updating options, "Overwrite Existing Inventory" and "Update Existing Inventory," are described below.

A) Overwrite Existing Inventory

This method involves issuing a system command that clears out the agency's entire existing inventory. The agency essentially starts from scratch, creating a new inventory from their host system(s), and using the XML template for adding new records. Once the XML file is generated, the agency goes through the process of staging the data into the FRPP MS application, validating it, and then confirming it—which is similar to last year's reporting process.

The XML schema for adding all new records to the inventory (after clearing out existing data) can be found in [Appendix A: XML Schemas](#).

B) Update Existing Inventory

Using this method, the agency's inventory is automatically copied over from the previous year to the new fiscal year.

Any modifications, additions, or deletions to the inventory can be made either manually or by the XML file transfer process (as discussed below).

The XML schema for revising the existing inventory – consisting of modifying, deleting, or adding new assets – for land, buildings, and structures is provided in [Appendix A: XML Schemas](#).

i) Modify Existing Assets

When modifying data, the only required fields are the Reporting Agency code and the Real Property Unique Identifier, in addition to any other data elements that need to be updated. Prior to modifying an existing asset, FRPP MS will perform a search for the Reporting Agency code and the Real Property Unique Identifier to check if the asset record exists. If the record exists, the user will then be prompted to confirm modification. If the record does not exist, the system will allow the user to add it.

ii) Delete Existing Assets

When deleting an asset record, the only required fields are the Reporting Agency code and the Real Property Unique Identifier. FRPP MS will perform a search for the Reporting Agency code and the Real Property Unique Identifier to check if the asset record exists. If the record exists, the user will then be prompted to confirm deletion.

Note for disposed assets: If the asset has transferred to another agency or has exited the federal inventory, the Disposition data elements must be reported in addition to the Reporting Agency code and the Real Property Unique Identifier. An analysis of the Disposition data element should be completed for any assets that are deleted from an agency's inventory.

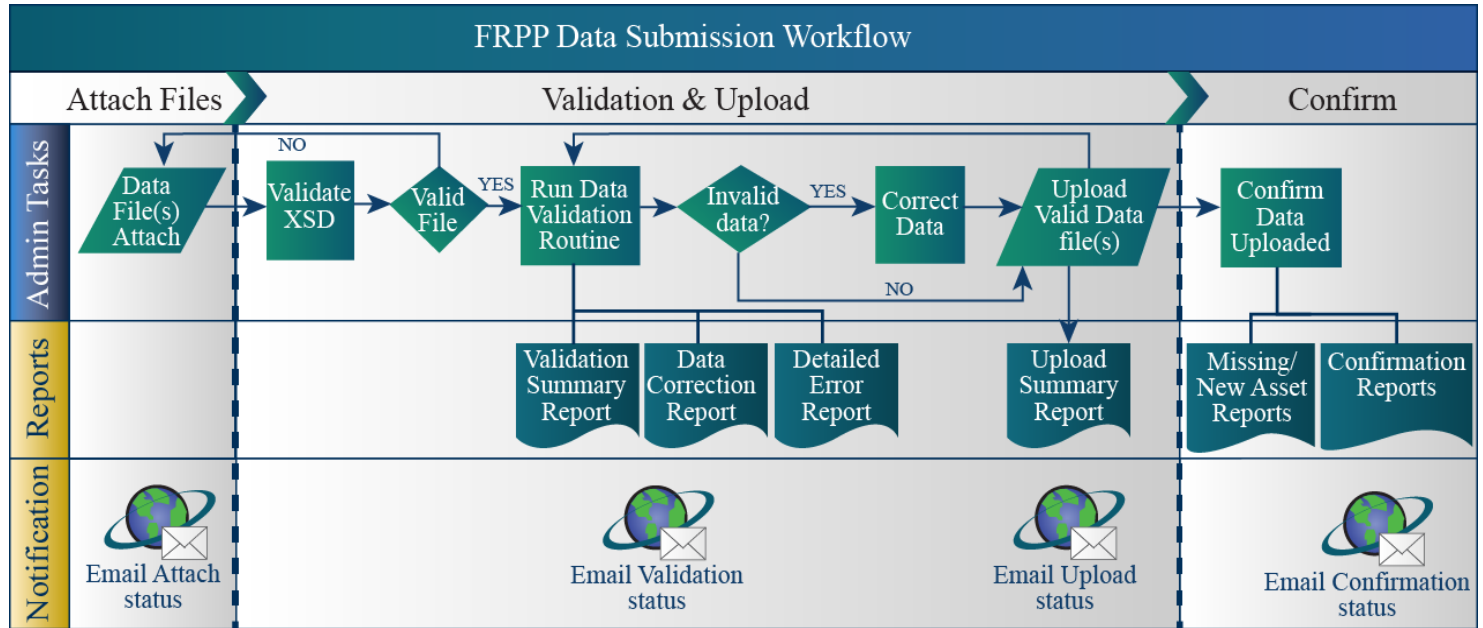

iii) Add New Assets

In order to add a new asset record, the record should not already exist in the current FRPP database. FRPP MS will perform a search for the Reporting Agency code and Real Property Unique Identifier to check for this condition. If the record already exists in the database, the user will be prompted to either modify the asset or cancel the "add" operation.

2. DATA SUBMISSION PROCESS

Figure 1 FRPP Data Submission Workflow below outlines the process for FRPP data submission. An agency must first decide if it will “overwrite” or “update” the existing inventory data. Next, the agency prepares the XML data file(s) accordingly (see [Appendix A: XML Schemas](#)). An agency administrator then runs a data validation routine and error checking report in FRPP. After the agency has corrected invalid data, it is ready to upload final data file to the FRPP MS main storage area and confirm the data. The deadline for confirmation is December 15, 2016. Data can be updated at any time throughout the year.

Figure 1: FRPP Data Submission Workflow

A) Data Confirmation

The FRPP confirmation step provides several reports and graphs at the final stage of data submission that are designed to assist agencies with their data validation process to identify potential errors. Agencies are expected to utilize the information available in the FRPP MS confirmation step and the search capability in FRPP MS, in combination and consultation with internal agency validation and verification processes, to ensure that the agency submissions to FRPP accurately and completely represent the data in the agency’s internal asset management systems.

The confirmation step provides both numerical and graphical representations comparing a key set of data elements from last year’s inventory data to the current year agency data entered in the FRPP MS. The Confirmation/Variance Report (sample shown in **Figure 2 Sample FRPP Confirmation/Variance Report**) provides the variance in both numerical and percentage form between current data and last year’s data. The data compared at the confirmation step includes:

- Total number of assets (broken down by legal interest and asset type)
- Total number of assets (broken down by status and asset type)
- Total acreage (broken down by legal interest)
- Total square footage (broken down by legal interest)
- Total replacement value (broken down by asset type)
- Total repair needs (broken down by asset type)
- Total owned and otherwise managed annual operating and maintenance costs
- Total lease costs
- Total disposed assets (broken down by asset type)
- Predominant use summary (broken down by asset type and usage code)

- Disposition summary (broken down by disposition method)

Agency Administrators may generate these reports at the agency level and at the bureau level.

Agencies are responsible for ensuring that data being submitted for all data elements – not just those data elements examined by the FRPP confirmation step – is accurate and complete. The FRPP MS provides a robust search capability that allows agencies to compare the totals for those data elements not included in the confirmation reports. Agency administrators should compare the results from internal asset management systems with the FRPP MS reports (both confirmation and search reports) and make necessary corrections. Agencies are expected to utilize the information available in this phase in combination and consultation with internal agency validation and verification processes to ensure that the agency submissions are accurate and complete.

Figure 2: Sample FRPP Confirmation/Variance Report

Agency Report										
Summary Report			Variance Report							
			Fiscal Year: 2012			Fiscal Year: 2011			Variance	Variance%

B) Data Validation Tools

The Office of Management and Budget (OMB), released *Management Procedures Memorandum 2016-01, Improving Federal Real Property Data Quality – Required Data Validation and Verification Procedures* informing agencies that implementation of new validation and verification (V&V) would begin with the FY 2016 annual FRPP submission. In accordance with this memorandum, GSA issued Federal Real Property Data Validation and Verification Guidance in May 13, 2016, which includes several new requirements:

- Mandates resolution of data anomalies automatically detected by FRPP MS (hereafter referred to as “anomaly resolution”)
- Prescribes actions for anomaly resolution
- Standardizes V&V across government
- Establishes deadlines by which agencies will implement V&V
- Defines V&V compliance and outcomes for individual agencies

For the FY 2016 reporting cycle, GSA has developed in FRPP MS a series of data validation and verification (V&V) tools to detect data anomalies. CFO Act agencies must review the data anomalies that exist based on the criteria shown in Table 3 below. These agencies will use the V&V tool to indicate that the data anomalies have been resolved, either by (1) affirming that the underlying data elements that created the anomaly are correct, or (2) indicating that the data contains an error that will be fixed. The anomalies flagged by FRPP MS will be based solely on an agency’s non-disposed inventory. Please refer to GSA Federal Real Property Data Validation and Verification Guidance for additional detail regarding this mandatory V&V process.

Table 3: FRPP Data Anomaly Thresholds for FY 2016 Reporting Cycle

FRPP Data Element	Data Anomaly	Universe of Data Anomaly	Anomaly Criteria	Lower Threshold	Upper Threshold
Condition Index	Condition Index Above Threshold for Agency	Owned and Otherwise Managed Buildings	If more than 50% of an agency's building assets have a condition index of 100, all of the agency's building assets with a condition index of 100 will be flagged as an anomaly.		>50% of assets with CI = 100
Repair Needs and Replacement Value	Repair Needs Exceeds Replacement Value	Owned and Otherwise Managed Buildings	If an asset's repair needs are greater than its replacement value, then it will be flagged as an anomaly.	N/A	N/A
Legal Interest Indicator	Change in Legal Interest	All Buildings	If an asset's legal interest indicator in the current year is different from the prior year's indicator, then it will be flagged as an anomaly.	N/A	N/A

Status Indicator	Change in Status Indicator	Owned and Otherwise Managed Buildings	An asset whose status was “Report of Excess Submitted” (B), “Report of Excess Accepted” (C), or “Determination to Dispose” (F) in a prior year should have the same status in the current year. If, in the current year, the asset’s status has changed to “Current Mission Need” (A) or “Future Mission Need” (I), then it will be flagged as an anomaly.	N/A	N/A
Historical Status	Change in Historical Status	All Buildings	If an asset had a historical status of (1) National Historic Landmark, NHL or (2) National Register Listed, NRL in the prior year, but its current status is (3) National Register Eligible, NRE, (4) Non-contributing element of NHL/NRL district, (5) Not Evaluated, or (6) Evaluated, Not Historic, then the asset will be flagged as an anomaly.	N/A	N/A
Square Feet	Square Feet Below Threshold ⁸	All Office Buildings	If an asset's square footage is less than the lower threshold, then it will be flagged as an anomaly.	< 385 SF	N/A
Square Feet	Square Feet Below Threshold	All Warehouse Buildings	If an asset's square footage is less than the lower threshold, then it will be flagged as an anomaly.	< 60 SF	N/A
Square Feet	Square Feet Below Threshold	All Service Buildings	If an asset's square footage is less than the lower threshold, then it will be flagged as an anomaly.	< 57 SF	N/A

⁸ This threshold uses the 3rd percentile of FY 2015 FRPP data as its minimum. Values that fall below the threshold will be flagged as an anomaly. This methodology applies to all anomaly categories labeled “Square Feet Below Threshold.”

Square Feet	Square Feet Below Threshold	All Laboratory Buildings	If an asset's square footage is less than the lower threshold, then it will be flagged as an anomaly.	< 100 SF	N/A
Square Feet	Square Feet Below Threshold	All Dormitories and Barracks Buildings	If an asset's square footage is less than the lower threshold, then it will be flagged as an anomaly.	< 257 SF	N/A
Annual Operating and Maintenance Costs	O&M Equal to or Above Threshold ⁹	Owned and Otherwise Managed Office Buildings	If an asset's annual O&M costs per square foot are equal to the lower threshold number, or greater than or equal to the upper threshold number, then the asset will be marked as an anomaly.	= \$0.00 per SF	>= \$18.09 per SF
Annual Operating and Maintenance Cost	O&M Costs Equal to or Above Threshold	Owned and Otherwise Managed Warehouse Buildings	If the asset's annual O&M costs per square foot are equal to the lower threshold number, or greater than or equal to the upper threshold, then the asset will be marked as an anomaly.	= \$0.00 per SF	>= \$19.19 per SF
Total Lease Costs	Total Lease Costs Equal to or Above or Threshold ¹⁰	Leased Office Buildings	If the asset's total lease costs per square foot are equal to the lower threshold number, or greater than or equal to the higher threshold number, then it will be marked as an anomaly	= \$0.00 per SF	>= \$45.70 per SF

⁹ Cost-per-square-foot thresholds are based upon analysis of FY 2015 data reported to FRPP MS for the following asset categories: leased offices; leased warehouses; owned and otherwise managed offices; owned and otherwise managed warehouses. Acceptable cost per square foot ranges between the 3rd (minimum) and the 97th (maximum) percentile of data. Values that fall outside this range will be flagged as an anomaly. This range parallels industry benchmarks, such as office and warehouse operating cost data reported in the 2015 BOMA Experience Exchange Report, as well as leased office and warehouse rental rates reported in Jones Lang LaSalle Research's United States Office and Industrial Statistics Reports. This methodology applies to all data anomaly categories labeled "O&M Costs Above or Below Threshold."

¹⁰ Cost-per-square-foot anomaly thresholds are based upon analysis of FY 2015 data reported to FRPP MS for the following asset categories: leased offices; leased warehouses; owned and otherwise managed offices, and owned and otherwise managed warehouses. Acceptable cost per square foot ranges are between the 3rd (minimum) and the 97th (maximum) percentile of the data. Values that fall outside this range will be flagged as an anomaly. This range parallels industry benchmarks such as office and warehouse operating cost data reported in the 2015 BOMA Experience Exchange Report, as well as leased office and warehouse rental rates reported in Jones Lang LaSalle Research's United States Office and Industrial Statistics Reports. This methodology applies to all data anomaly categories labeled "O&M Costs Above or Equal to Threshold."

Total Lease Costs	Total Lease Costs Equal to or Above or Threshold	Leased Warehouse Buildings	If an asset's total lease costs per square foot are equal to the lower threshold number, or greater than or equal to the higher threshold number, then it will be flagged as an anomaly.	= \$0.00 per SF	>= \$35.00 per SF
Sustainability	Change in Sustainability	All Buildings	If the asset's sustainability code in the prior year was (1) Yes, (2) No, or (4) Not Applicable, but its sustainability code for the current year is (3) Not Yet Evaluated, then it will be marked as an anomaly.	N/A	N/A
RTF	RTF Assets Disappear	RTF Criteria for all Office and Warehouse Assets	If an RTF asset is not reported in a subsequent year, then it will be marked as an anomaly.	N/A	N/A

Rest of Page is Blank

3. XML OVERVIEW

XML is the industry-standard format for transferring data to internet applications. XML is currently the only acceptable format for electronically submitting mass data to the FRPP application.

The FRPP MS's XML format is organized by the Real Property Types of land, buildings, and structures. (The XML tags are indicated as: *Type 20Land*, *Type35BuildingDetail*, and *Type40Structure*). These are referred to as record-type "nodes."

Optional fields with blank values do not need to be included in the file.

Some data elements are composite fields with sub-data elements. Legal Interest, Status, Size, Main Location, Installation/Sub-Installation Identifier, and Disposition are the composite fields which contain sub-data elements. The composite fields are easily identified in the XML template by the sub-data elements tags indented on the lines following the data element name.

As shown in the XML example below, each data element is represented with a "tag." The tag name (or data element name) is displayed between the brackets "< >"; the value for that data element is placed between the opening tag and ending tag.

Notes:

- Tag names are case sensitive.

XML Tag Example:

Common XML Errors in FRPP Data File

Preparing the XML data file requires diligent attention to detail. It typically takes several iterations to produce an error-free file. Notes on the most common XML errors are listed below.

- Tag names are case sensitive.
- XML is case sensitive!
- ZIP "code" should have a lowercase "c."
- Invalid tag-names or misplaced ending tags: Make sure all the tags are named correctly.
- Do not use invalid special characters in the data elements
- Do NOT insert dashes in the ZIP code field.
- If using these special characters in text (e.g., Installation Name)—&, <, >, ", or '—escape characters must be used in XML as shown below:

Special Character	Special Character Name	XML Code to Use
&	Ampersand	&
<	Less than	<
>	Greater than	>
"	Quote	"

'	Single quote	'
---	--------------	-------

<?xml version="1.0" encoding="UTF-8"?>

E. DEFINITIONS AND CODES

1. PREDOMINANT USE

Real property predominant use categories (along with descriptions and associated 2-digit codes) are listed below for each Real Property Record Type (Land-20, Building-35, Structure-40). A real property asset must have only one predominant use code.

Predominant Use Categories and Codes for Land

Code	Land Predominant Use Classifications
01	<i>Agriculture</i> : Land under cultivation for food or fiber production.
04	<i>Grazing</i> : Conservation lands primarily administered to preserve, protect, manage, or develop grass and other forage resources suitable for livestock. Exclude Wilderness Areas from this classification.
07	<i>Forest and Wildlife</i> : Conservation lands primarily administered to preserve, protect, manage, or develop timber, wildlife, watershed, and recreational resources. Exclude Wilderness Areas from this classification.
08	<i>Parks and Historic Sites</i> : Land administered for cemeteries, memorials, monuments, parks (national, historical, military, memorial, and national capital), sites (battlefield and historic), parkways, and recreation areas. Exclude Wilderness Areas from this classification.
09	<i>Wilderness Areas</i> : Land designated by Congress as a part of the National Wilderness Preservation System.
10	<i>Office Building Locations</i> : Land containing office buildings or future planned office buildings, to include military headquarters buildings.
11	<i>Miscellaneous Military Land</i> : Department of Defense (DOD) and U.S. Coast Guard (USCG) controlled land used for military functions that cannot be classified elsewhere.
12	<i>Airfields</i> : Land used for military air bases or air stations, and military or civilian landing fields.
13	<i>Harbors and Ports</i> : Land used for harbor and port facilities.
14	<i>Post Offices</i> : Land used in conjunction with a Post Office and used predominately as a general service and access area.
15	<i>Power Development and Distribution</i> : Land used for power development and distribution projects.
16	<i>Reclamation and Irrigation</i> : Land used for reclamation and irrigation projects.
17	<i>Outpatient Healthcare</i> : Land used for Outpatient Healthcare Facilities
18	<i>Flood Control and Navigation</i> : Land used for flood control and navigation projects.
19	<i>Vacant</i> : Land not being used.
20	<i>Institutional</i> : Land used for institutional purposes such as hospitals, prisons, schools, libraries, chapels, and museums.
30	<i>Housing</i> : Land used primarily for public housing projects, military personnel quarters, and dwellings for other federal personnel.
40	<i>Storage</i> : Land used primarily for supply depots and other storage.
50	<i>Industrial</i> : Land used for physical plants engaged in producing and manufacturing ammunition, aircraft, ships, vehicles, electronic equipment, chemicals, aluminum, magnesium, etc.
65	<i>Space Exploration</i> : Land used in direct support of space exploration and utilization, including launch and test sites, emergency landing sites (not airfield), and astronaut training.
70	<i>Research and Development</i> : Land used directly in basic or applied research, such as science, medicine, and engineering.

Code	Land Predominant Use Classifications
72	<i>Communications Systems:</i> Land used for telephone and telegraph lines, data transmission lines, satellite communications, and other communications facilities or towers.
73	<i>Navigation and Traffic Aids:</i> Land used for aircraft and ship navigation aids, such as beacon lights, antenna systems, ground control approach systems, and obstruction lighting.
80	<i>All Other:</i> Land that cannot be classified elsewhere.
81	<i>Training Land:</i> Land containing training buildings, or land that is used to conduct outdoor training, such as firefighting, weapons training, or other military training activities.

Rest of Page is Blank

Predominant Use Categories and Codes for Buildings

Code	Building Predominant Use Classifications
10	<i>Office</i> : Buildings primarily used for office space or military headquarters.
14	<i>Post Office</i> : Buildings or portions of buildings used as a Post Office.
17	<i>Outpatient Healthcare Facility</i> : Buildings used primarily for outpatient diagnosis, treatment, and therapy. Includes medical, dental, mental health, and substance abuse treatment facilities
21	<i>Hospital</i> : Buildings used primarily for furnishing in-patient diagnosis and treatment under physician supervision and having 24-hour-a-day registered graduate nursing services. This category also includes medical laboratories used for routine testing. This category excludes buildings used directly in basic or applied medical research.
22	<i>Prisons and Detention Centers</i>
23	<i>School</i> : Buildings used primarily for formally organized instruction, such as schools for dependent children of federal employees, Indian schools, and military training buildings including specialized training facilities.
24	<i>Comfort Station/Restrooms</i> : Asset with toilet and lavatory facilities for public use. May include showering facilities.
25	<i>Data Center</i> : an asset that stores and/or manages server, network, and computer or telecommunications equipment.
28	<i>Museum</i> : Buildings used for the housing and/or display of tangible objects or collections for the purpose of displaying said objects or collections for public view and benefit on a regular basis.
29	<i>Other Institutional Uses</i> : Buildings used for institutional purposes other than schools, hospitals, and prisons, such as libraries, and chapels. This category also includes food preparation and dining facilities, buildings housing entertainment and recreational activities, and visitor's centers.
30	<i>Family Housing</i> : Buildings primarily used as dwellings for families/dependents. Includes apartment houses, single houses, row houses, public housing, military personnel housing, federal employee housing, and housing for institutional personnel.
31	<i>Dormitories/Barracks</i> : Buildings primarily used as dwellings for housing individuals (without families/dependents).
41	<i>Warehouses</i> : Buildings used for storage, such as ammunition storage, covered sheds, and buildings primarily used for storage of vehicles or materials. Also included are underground or earth covered ammunition storage bunkers and magazines. This category excludes water reservoirs and POL storage tanks which are storage structures.
50	<i>Industrial</i> : Buildings specifically designed and primarily used for production or manufacturing, such as the production or manufacture of ammunition, aircraft, ships, vehicles, electronic equipment, fish production, chemicals, aluminum, and magnesium. Included are buildings that house utility plants or utility system components such as pump stations or valves.
60	<i>Service</i> : Buildings used for service activities, such as maintenance and repair shops, dry cleaning plants, post exchange stores, airport hangars, and buildings primarily used for vehicle maintenance and repair.
72	<i>Communications Systems</i> : Buildings used for telephone and telegraph systems, data transmission, satellite communications, and/or associated with radio towers or other communications facilities.
73	<i>Navigation and Traffic Aids</i> : Includes buildings that house aircraft or ship navigation and traffic aids, such as beacon lights, antenna systems, ground control approach systems, and obstruction lighting.
74	<i>Laboratories</i> : Buildings used directly in basic or applied research in the sciences (including medicine) and in engineering, such as medical laboratories; meteorological research laboratories; and buildings used in designing, developing, and testing of prototypes and processes for chemistry and physics. This category excludes medical or industrial laboratories used for routine testing.

Code	Building Predominant Use Classifications
80	<i>All Other:</i> Buildings that cannot be classified elsewhere.
84	<i>Border/ Inspection Station:</i> Stand-alone building used primarily for inspection of persons, baggage, vehicles, or goods entering the United States via land, sea, or air, or goods produced or grown in the U.S. Includes (but is not limited to) medical examinations, inspection and/or testing of equipment, foodstuffs, agricultural products, animals, drugs, and other regulated commodities.
85	<i>Facility Security:</i> Stand-alone building used primarily to house security personnel that inspect persons, baggage, vehicles, or goods entering a campus, facility, or installation. This building is stand-alone, not part of another building, and dedicated to housing security staff only.
86	<i>Land Port of Entry:</i> The terms “port” and “port of entry” refer to any place designated by Executive Order of the President, by order of the Secretary of the Treasury, or by Act of Congress, at which a Customs officer is authorized to accept entries of merchandise to collect duties, and to enforce the various provisions of the Customs and navigation laws. The terms “port” and “port of entry” incorporate the geographical area under the jurisdiction of a port director. Any stand-alone building included within this geographical area that is dedicated to receiving merchandise rather than providing administrative office space.
87	<i>Aviation Security Related (e.g., airport space, airport terminal support):</i> Stand-alone facility located on airport/field locations related to security operations and the continuous security required training including support of specialized functions such as behavior detection and explosive appraisal and other non-administrative functions.
88	<i>Public Facing Facility:</i> Public Facing Facility: primary mission is to service and interact with the public conducting personal business (e.g., applying for benefits, passports, licenses)
89	<i>Child Care Center:</i> Stand-alone facility that provides child care services. The center cannot be part of a larger building.

Predominant Use Categories, Codes, and Units of Measure for Structures

Code	Structure Predominant Use Classifications	Valid Units of Measure
12	<i>Airfield Pavements:</i> Runways, helicopter landing pads, taxiways, and aprons.	Square Yards
13	<i>Harbors and Ports:</i> Docks, piers, wharves, jetties and breakwaters, and other harbor, port, or coastal facilities.	Square Yards
15	<i>Power Development and Distribution:</i> Hydroelectric and other power development projects that produce power for resale (generally consisting of dams and powerhouses). Include transmission lines that are an integral part of federal power development, even if the power is produced by another federal agency.	Each, Linear Feet
16	<i>Reclamation and Irrigation:</i> Canals, laterals, pumping stations, storage, and diversion dams.	Each, Linear Feet
18	<i>Flood Control and Navigation:</i> River improvements, revetments, dikes, dams, and docks.	Each, Linear Feet
28	<i>Museum:</i> Structures used for the housing and/or display of tangible objects or collections for the purpose of displaying said objects or collections for public view and benefit on a regular basis.	Each
40	<i>Storage (other than buildings):</i> Storage tanks, silos, igloos, underground vaults, and open storage improved areas. This category includes water reservoirs and POL storage tanks.	Each, Linear Feet
50	<i>Industrial (other than buildings):</i> Structures and facilities (other than buildings) used for production or manufacturing, such as sliding shipways, retaining basins, and pipelines.	Each, Linear Feet
60	<i>Service (other than buildings):</i> Structures used for maintenance and repair, such as underground fueling systems, vehicle washing and greasing facilities, aircraft bore sight ranges, guided missile maintenance facilities, and ship repair structures.	Each
65	<i>Space Exploration Structures:</i> Structures used in direct support of space exploration and testing, including test structures and specialized associated structures that cannot be classified elsewhere.	Each
66	<i>Parking Structures:</i> Independent structures for non-residential parking of more than two vehicles.	Square Yards
70	<i>Research and Development (other than laboratories):</i> Structures and facilities used directly in basic or applied research in science, medicine, and engineering, such as facilities used in the design, development, and testing of prototypes and processes and space and aeronautics research and development. Excludes facilities used for routine testing.	Each
71	<i>Utility Systems:</i> Heating, sewage, water, and electrical systems that serve several buildings or other structures of an installation. When these systems serve a single building that is reported separately, include the utility systems' cost in the cost of the building. Includes heating plants and related steam and gas lines, sewage disposal plants, storm and sanitary sewer lines, water treatment plants, wells, pump houses, reservoirs, and pipelines. Also includes electrical substations, standby or auxiliary power plants, lighting structures, and conduits.	Each, Linear Feet, Miles
72	<i>Communications Systems:</i> Telephone and telegraph lines, data cables, radio towers, and other communications-related structures.	Each, Miles
73	<i>Navigation and Traffic Aids (other than buildings):</i> Structures for aircraft and ship navigation aids, such as beacon lights, antenna systems, ground control approach systems, and obstruction lighting. Includes demarcation lighting along runways, taxiways, and other airfield pavements.	Each
75	<i>Recreational (other than buildings):</i> Outdoor recreational structures such as athletic fields and courts, stadiums, golf courses, and ski slopes.	Each
76	<i>Roads and Bridges:</i> Federally-owned highways, roads, related culverts, and connecting bridges. Includes surfaced and unsurfaced roads within national parks and forests, military installations, and other federal installations.	Lane Miles, Square Yards

Code	Structure Predominant Use Classifications	Valid Units of Measure
77	<i>Railroads:</i> Tracks, bridges, tunnels, and fuel or water stations servicing railroads.	Miles
78	<i>Monuments and Memorials:</i> Federal monuments, memorials, and statues.	Each
79	<i>Miscellaneous Military Facilities:</i> Structures and facilities of DOD and USCG used for military functions that are not included in any other classification.	Each
80	<i>All Other:</i> Sidewalks, parking areas, fences, and walking trails that cannot be readily classified under the above categories. Includes improvements to public domain lands, such as drainage, grading, and landscaping.	Each, Lane Miles, Linear Feet, Miles, Square Yards
82	<i>Weapons Ranges:</i> Ranges where weapons are fired and areas where explosives are detonated.	Each
83	<i>Renewable Energy System:</i> Stand-alone, agency owned renewable energy systems that serve several buildings and/or other structures of an installation. When renewable energy systems serve a single building, which is reported separately, such as a roof-mounted solar photovoltaic system or geothermal heat pump, include the renewable energy systems' cost in the cost of the building. Renewable energy systems may include: biomass power; geothermal; landfill gas; solar power; solar thermal; wind; wave; tidal; and micro-hydropower. Hydroelectric power plants are included under Predominant Use Code 15 and should not be included under renewable energy systems.	Each

2. PUBLIC CONVEYANCE DISPOSITION METHODS

The following table provides standard definitions for each of the public conveyance disposition methods, as described for Disposition data element #23. For purposes of reporting the Disposition data element to the FRPP MS, only include those assets that have been deeded or permanently transferred to an organization. Do NOT include those assets under the public benefit conveyance that were leased or made available on an interim basis, as these assets remain in the agency's inventory. The FRPP Disposition data element only tracks assets that have permanently left the federal portfolio of assets.

Code	Public Conveyance Disposition Method Categories and Definitions
HA	<p>Homeless Assistance: 42 U.S.C. 11411</p> <p>Title V of the Stewart B. McKinney Homeless Assistance Act, as amended, authorizes the identification and use of underutilized property for use as facilities to assist the homeless and expands the meaning of Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
HE	<p>Public Health Including Research: 40 U.S.C. 550 (d)</p> <p>Educational Use: 40 U.S.C. 550(c)</p> <p>Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
PR	<p>Public Parks and Public Recreational Areas: 40 U.S.C. 550 (e)</p> <p>Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
HM	<p>Historic Monuments: 40 U.S.C. 550 (h)</p> <p>Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
CF	<p>Correctional Facility: 40 U.S.C. 553 (b)(1)</p> <p>Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
PF	<p>Port Facilities: 40 U.S.C. 554</p> <p>Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
PA	<p>Public Airports : 49 U.S.C. 47151-47153</p> <p>Section 13 (g) of the Surplus Property Act of 1944 , which is continued in effect by Title 40, U.S. Code, Chapter 5, Property Management (P.L. 107-217, 116 STAT 1062, enacted August 21, 2002) 40 U.S.C. 113 and amended by Public Law 311, 81st Congress (50 U.S.C. App. 1622(a)-(c)).</p>
WC	<p>Wildlife Conservation: 16 U.S.C. 667 b-d</p> <p>Public Law 537, 80th Congress.</p>
NS	<p>Negotiated Sales to Public Agencies Without Use Restrictions: 40 U.S.C. 545 (b)(8)</p> <p>Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>
SH	<p>Self-Help Housing: 40 U.S.C. 550 (f)(3)</p> <p>Public Law 105-50, October 6, 1997 (enacted HR 680), referred as the "Self-Help Housing Law". This law amended Section 203 of the Federal Property and Administrative Services Act of 1949, as amended, which was repealed by Public Law 107-217, 116 STAT 1062, August 21, 2002, and recodified into positive law in Title 40, U.S.C., Chapter 5, Property Management without substantive changes.</p>

3. LEASE AUTHORITY DEFINITIONS

The following table provides definitions for each lease authority category, as described for Lease Authority Indicator data element #3B. Lease Authority Indicator is required for leased assets only.

Lease Authority Indicator Categories and Definitions	
IS	<i>Independent Statutory Authority</i> : Authority to acquire leased space that originates in a statute enacted into law. This may be an agency wide standing authority to acquire leased space or it may be singular authority granted to acquire leased space for a specific activity of a federal agency.
CS	<i>Categorical Space - Delegation from GSA</i> : A standing delegation of authority from the Administrator of General Services to a federal agency to acquire certain types of space as identified in FMR 102.73-155. All leased real estate assets reported as categorical delegation must comply with GSA FMR Bulletin C-2 reporting requirements in the GSA Lease Delegations data system.
SP	<i>Special Purpose Space - Delegation from GSA</i> : A standing delegation of authority from the Administrator of General Services to specific federal agencies to lease their own special purpose space. Restricted to agencies that have special purpose delegation authority for the types of space authorized under FMR 102-73.170 – 102-73.225. Agencies that have special purpose delegation are Agriculture, Commerce, Department of Defense, Energy, Federal Communications Commission, Health and Human Services, Homeland Security, Interior, Justice, Office of Thrift Supervision, Transportation, Treasury, and Veterans Affairs. All leased real estate assets reported as special purpose delegation must comply with GSA FMR Bulletin C-2 reporting requirements in the GSA Lease Delegation data system.
PC	<i>General Purpose Space</i> : GSA FMR Bulletin C-2, Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014) ¹¹ established new requirements for agencies requesting authorization to use the general purpose lease delegation authorization. The Bulletin reemphasized and modified certain procedures associated with the use of the delegation of general purpose leasing authority provided by GSA FMR Bulletin 2008-B1, Delegations of Lease Acquisition Authority. General purpose delegations of lease authority is limited to no more than 19,999 usable square feet of space for terms of up to 20 years and below prospectus-level requirements, regardless of geographic location. General purpose space is defined as office and related space, as well as laboratory and warehouse space. All leased real estate assets reported as general purpose delegation with lease award dates after November 11, 2007, must be approved by GSA in accordance with GSA FMR Bulletin C-2, Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014). No real estate asset may be reported under general purpose delegation without receiving appropriate delegated authority from GSA.

Rest of Page is Blank

¹¹ GSA FMR Bulletin C-2, Delegations of Lease Acquisition Authority (79 FR 2164, April 16, 2014) can be accessed at: <http://www.gpo.gov/fdsys/pkg/FR-2014-04-16/pdf/2014-08645.pdf>

APPENDIX A: XML SCHEMAS

FRPP MS - XML TEMPLATE

1. Introduction

The Federal Real Property Profile Management System (FRPP MS) holds the federal real estate inventory. Agencies report their real estate inventory annually by submitting a file in a predetermined format or by entering the data through the website.

The XML schema as published in the latest version of the Data Dictionary is the only standard for the mass transfer of data into the FRPP MS application.

2. Changes to the Schema

Changes made since the last published XML structure in 2015 are listed in the section below:

Historic Status

1. Historic Status is required for all owned and museum trust assets with an Asset Status of Disposed (D)
2. System will display an error if reported for assets with legal interest other than Owned and Museum Trust.

XML Template for Adding Assets

Note: If the action attribute for a file is specified as "Add" then the system validates only the data provided in the file.

Even if the record exists with Reporting Agency and Real Property Unique Identifier combination system will not get the missing data from the existing record.

XML Template for Modifying Assets

Note: When modifying data, the only required fields are the Reporting Agency and the Real Property Unique Identifier for each asset, in addition to any other data elements that need to be updated.

If the action attribute for a file is specified as Modify then the system updates the missing data in the file with the data from the existing record for the Reporting Agency and Real Property Unique Identifier specified in the file.

XML Template for Deleting Existing Assets

- When deleting asset records in a file, the only required fields are the **Reporting Agency** and the **Real Property Unique Identifier** for each asset. FRPP MS will perform a search for the **Real Property Unique Identifier** and the **Reporting Agency** to check if the asset record exists. If the record exists, system will mark the record as deleted.
- If action attribute is specified as DELETE, system will delete all the records in the file.
- **Note for disposed assets:** If the asset has transferred to another agency or exited the federal inventory, the Disposition sub-data elements must be reported in addition to the **Real Property Unique Identifier** and the **Reporting Agency** with the “modify” action instead of the “delete” action.

Appendix C: Frequently Asked Questions (FAQs)

Data Element/ Keyword	Question
Real Property Type	
Real Property Type; Land	<p>(1) Our agency is using land on a permit basis from another federal agency that owns the land. Which agency should report the land to the FRPP MS?</p> <p>The agency that owns the land should report the land to GSA.</p>
Real Property Type; Buildings; Structures	<p>(2) Are trailers considered buildings or structures?</p> <p>This would depend on an individual agency's internal regulations. If the trailer is considered personal property within the agency, then it is not reported. If it is considered to be real property, then it should be reported to the FRPP inventory system.</p>
Real Property Use	
Real Property Use	<p>(3) Can more than one land use classification code be reported for one land record?</p> <p>No, only one predominant land use classification code can be used for each land record.</p>
Real Property Use	<p>(4) How should I report a structure, such as the Vietnam Memorial, that is located on government-owned land?</p> <p>The land and the structure are separate records. The agency should report information on the structure itself (Vietnam Memorial) and the land on which the structure is located. For the structure, using the Use Categories, identify the Vietnam Memorial with the use code "78 – Monuments and Memorials." Identify the land the Vietnam Memorial is located on with the predominant use code "08 – Parks and Historic Sites."</p>
Real Property Use	<p>(5) How would I report structures such as antennas and water towers?</p> <p>Antennas are reported as use code "73- Navigation and Traffic Aids (Other than Buildings)," and water towers as use code "71 - Utility Systems (Heating, Sewage, Water, and Electrical Systems)."</p>
Legal Interest	
Legal Interest; Leased Properties	<p>(6) Which data elements are required for leased properties (e.g., Replacement Value, Condition Index, etc.)?</p> <p>For the FY 2012 reporting cycle, leased assets will revert back to being reported at the asset level as it was in years past. Starting in FY 2012, the following data elements are no longer required for leased assets: Status Indicator, Replacement Value, Condition Index, Disposition Value, and Net Proceeds.</p>
Lease Authority Indicator; Lease Maintenance Indicator	<p>(7) Is the data element Lease Authority Indicator required for outgrants?</p> <p>Lease Authority Indicator (sub-data element Legal Interest) is not required for outgrants unless the asset being out granted is a leased asset.</p>
Legal Interest; GSA delegated authority	<p>(8) If an agency has a delegation of authority from GSA to acquire leased space, which agency is responsible for reporting the asset to the FRPP MS?</p> <p>The agency that signs the lease document is responsible for reporting that asset to FRPP MS. If an agency leases space under a delegation of authority from GSA, that agency must report the asset to the FRPP MS and specify the appropriate Lease Authority Indicator.</p>
Legal Interest; Concessions	<p>(9) How does an agency handle reporting data on concession-operated facilities?</p> <p>For concession-operated facilities, the agency should first identify the Legal Interest, i.e., either government-owned or government-leased. If it is an owned property, the agency would then address the concession component in the Using Organization field.</p>

Legal Interest;
Partially
occupied

(10) How is a facility handled if it is only partially occupied by the government?

For owned assets and otherwise managed (Legal Interest = Museum Trust [M]) assets, report on the entire asset. For leased and otherwise managed (Legal Interest = State Government-Owned [S] or Foreign Government-Owned [F]) assets, report on the portion addressed through the lease or other agreement.

Status

Status;
Outgrant

(11) How is the *Status* field handled in cases where the property is an outgrant or outlease?

An outgrant is reported within the *Status* fields, under the *Outgrant Indicator*. The *Outgrant Indicator* is applicable to owned and leased property only. Within the *Status* field, the agency should first identify if the asset is active, inactive, or excess, then provide a "yes/no" as to whether or not the property is outgranted.

Status;
Outgrant;
Using
Organization

(12) What values for *Status* and *Outgrant Indicator* should be provided for the following situations?

Q: If the owned property is outgranted outside of the Reporting Agency but still within the government?

- a) If the owned property is outgranted outside of the Reporting Agency, but still within the government, "yes" would be provided for *Outgrant Indicator*, with the Agency Bureau Code reported for the predominant *Using Organization*.

Q: If the owned property is outgranted to a non-Federal Government entity?

- a) If the owned property is outgranted to a non-Federal Government entity, "yes" would be provided for *Outgrant Indicator*, with "9999-Non-Federal Government Entity" reported for *Using Organization*.

Status

(13) How should the information be entered if there is more than one *Status*?

Agencies should report the predominant status of the property.

Status;
Outgrant

(14) What percentage of constructed asset should be outgranted for a "Yes" response?

The percentage of a constructed asset outgranted is not a consideration for reporting "Yes" for data element Outgrant Indicator. If any portion of the asset is outgranted (excluding onsite retail and food outlease), the agency should report "Yes" for Outgrant Indicator. For example, an Agency would report a 100,000-square-foot office building asset with only 1,000 square feet outgranted as "Yes" for Outgrant Indicator.

Status;
"Disposed"

(15) If I report "Disposed" as the *Status* of an asset, am I required to provide all FRPP data elements?

The new pick-list item for the *Status* of a disposed asset, "D", will indicate that the asset has left the federal portfolio of assets. If you report "D" for *Status* you must provide the following FRPP data elements:

Real Property Type

Real Property Use

Legal Interest Indicator

Reporting Agency/Bureau

Size

Annual Operating Costs (Annual Net Rent to Lessor and Annual Operating and Maintenance Costs for Leases)

Real Property Unique Identifier

Historic Status*

City

State

County

Country

Disposition sub-data elements:

- **Disposition Method**
- **Disposition Date**
- **Disposition Value**
- **Net Proceeds**
- **Recipient**

Refer to data element 24A. Disposition Method for further details on certain disposal methods.

*Disposed assets report historic status when legal interest is owned or museum trust.

Historical Status

Historical
Status

(16) If the asset is designated as a National Historic Landmark (NHL) either individually or as a contributing resource to a NHL district, how is it reported?

The Historical Status of each individual asset should be indicated as “1 – National Historic Landmark – NHL (1).” Individually listed NHLs and contributing resources to NHLs are indicated in the same manner. Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO) or Tribal Historic Preservation Officer(s) (THPO). If an asset is listed on the National Register of Historic Places (NRHP) and is also an NHL, it should be reported as “1-National Historic Landmark – NHL (1).” Note that some NHLs do not have full documentation.

If the asset is listed in the NRHP either individually or as a contributing resource to a NRHP listed district, but isn’t an NHL nor a contributing resource to a NHL district, how is it reported?

The Historical Status should be indicated as “2 – National Register Listed – NRL (2).” Individually listed and contributing resources are indicated in the same manner. Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO) or Tribal Historic Preservation Officer(s) (THPO).

If the asset is determined to be eligible for listing in the NRHP either individually or as a contributing element to a NRHP eligible district, how is it reported?

The Historical Status of an asset should be indicated as “National Register Eligible – NRE (3)” if your agency’s cultural resources staff determined, either through a formal process or via the consensus process, it meets the National Register eligibility criteria. Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO) or Tribal Historic Preservation Officer(s) (THPO).

If the asset is located within a NHL or NRHP-listed district but is not contributing to that district, how is it reported? Or if the asset is located within a district that is determined eligible for listing in the NRHP but is not a contributing element to that district, how is it reported?

Whether a historical district is a NHL, listed on the NRHP, or determined eligible for the NRHP, an asset that is non-contributing to that district should be coded with the Historical Status “4 – Non-contributing element of NHL/NRL district (4)” if your agency’s cultural resources staff determined, either through a formal process or via the consensus process, that it does not meet the National Register eligibility criteria. Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO) or Tribal Historic Preservation Officer(s) (THPO).

If the asset has not been evaluated by your agency’s cultural resources staff for listing in the NRHP either individually or as a part of a larger district, how is it reported? What if no Historical Status information is available?

For both situations, the Historical Status should be indicated as “5 – Not Evaluated (5).” It is common and acceptable for assets less than 45-50 years old to be unevaluated and therefore coded as “5 – Not Evaluated (5).” Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO) or Tribal Historic Preservation Officer(s) (THPO).

If the asset has been evaluated by your agency’s cultural resources staff and determined not to be historic, i.e., not eligible for listing in the NRHP, how is it reported?

The Historical Status should be indicated as “6 – Evaluated, Not Historic (6).” An asset can be determined as “6 – Evaluated, Not Historic (6)” by either a formal process, or consensus between a Federal agency and the applicable State Historic Preservation Officer (SHPO) or Tribal Historic Preservation Officer (THPO). Consult with your agency’s cultural resources staff if there are questions about the Historical Status of assets to be reported; they should be aware of formal determinations by the Keeper of the National Register of Historic Places (NRHP) and/or consensus determinations between your agency and State Historic Preservation Officer(s) (SHPO) or Tribal Historic Preservation Officer(s) (THPO).

Reporting Agency

Reporting Agency; Restriction	<p>(17) If Federal Government-owned property is occupied via a Memorandum of Understanding (MOU) with another agency, who would report the facility?</p> <p>If the property is owned by the Federal Government and granted to another federal agency via a MOU, the property is reported by the agency holding the title. All 25 data elements, including Restrictions, are reported by the agency holding the title.</p>
----------------------------------	---

Using Organization

Using Organization	<p>(18) How should the information be entered if there is more than one <i>Using Organization</i>?</p> <p>Agencies should report the predominant user of the property.</p>
--------------------	---

Size

Size; Structure Unit of Measure	<p>(19) We anticipate a problem if the same <i>Real Property Use</i> category code is used for structures that have different units of measure, e.g., roads and bridges.</p> <p>The FRPC category codes are broad categories; therefore, internal agency systems should allow for more detailed units of measure.</p>
Size; Structure Unit of Measure	<p>(20) Can an agency provide a negative number or a zero for <i>Size</i>?</p> <p>The numeric value reported for Size must be greater than zero.</p>

Replacement Value

Replacement Value	<p>(21) Can an agency provide a negative number or a zero for <i>Replacement Value</i>?</p> <p>The numeric value reported for Replacement Value must be greater than zero.</p>
-------------------	--

Annual Operating Costs/ Lease Costs

Annual Operating Costs	<p>(22) Are <i>Annual Operating Costs</i> reported for the past or current fiscal year?</p> <p>Annual Operating Costs should be reported for past fiscal year (e.g., data represents FY 2009, but it is submitted in Q1 of FY 2010).</p>
Annual Operating Costs	<p>(23) Can an agency provide a negative number or a zero for <i>Annual Operating Costs</i>?</p> <p>The numeric value reported for Annual Operating Costs must be greater than or equal to zero.</p>
Annual Operating Costs/ Lease Cost	<p>(24) For categories of operating costs, should any additional costs be included beyond those indicated in the definition?</p> <p>For owned and otherwise managed properties, agencies are required to include only those components that are in the data element definition: 1) recurring maintenance and repair costs; 2) utilities; 3) cleaning and/or janitorial costs; and 4) roads and grounds expenses. Agencies are to exclude associated costs for Federal personnel and security.</p> <p>For leased assets, agencies are required to separate lease costs into "13B. Lease Annual Rent to Lessor" and "13C. Lease Annual Operating and Maintenance Costs."</p>
Lease Cost	<p>(25) What if agencies are unable to separate their Lease Annual Rent to Lessor (13B) and Lease Annual Operating and Maintenance Costs (13C)?</p> <p>Agencies with no ability to account for division between the annual rent and maintenance costs may input zero in 13c and out the entire sum amount in 13B.</p>
Annual Operating Costs	<p>(26) How should agencies report <i>Annual Operating Costs</i> when a building is not metered? For instance, one meter exists for a number of connected buildings/structures.</p> <p>Each agency will need to report operation and maintenance costs at the constructed asset level. In the example mentioned, the agency will need to decide how to allocate the costs amongst the buildings.</p>
Annual Operating Costs	<p>(27) How are <i>Annual Operating Costs</i> reported to GSA/PBS for buildings in which agency has Delegated Authority for operation and maintenance?</p> <p>For properties where GSA signs the lease and delegates operating authority to the agency, agencies should provide GSA with operating and maintenance cost data. (GSA will report the leased property.) The agency-reported costs will be added to the full annual lease costs captured by GSA, and GSA will report the total operating costs for the asset.</p>

Main Location

Main Location; Street address; Latitude/ Longitude	(28) For <i>Main Location</i>, do agencies fill out both <i>Street Address</i> and <i>Latitude/Longitude</i> information? Agencies must report <i>Street Address OR Latitude/Longitude</i> information. If they choose to report both fields, the system will accept this.
Main Location	(29) If there is a security concern limited to reporting <i>Main Location</i> information, how is the information reported? For assets that do not have a specific street address and do have a security issue associated with reporting the latitude/longitude, report the street address for the main gate or main entrance if the asset is located on an installation or campus. If there is no street address available, <u>report the ZIP code in the <i>Street Address</i> field</u> (as well as in <i>ZIP code</i> field). For assets in a geographic location that does not have a Zip code, <u>report the name of the nearest city and country in the <i>Street Address</i> field</u> (as well as the GLC code in <i>City</i> and <i>Country</i> fields).
Main Location	(30) How should an agency identify the <i>Main Location</i> for a linear structure, such as a road or fence? Until a more developed federal-wide geospatial capability is available, an asset that does not have a street address or a lat/long should use the street address or lat/long of the <u>main gate</u> . If there is no main gate, the agency should provide the ZIP code. For assets in a geographic location that does not have a ZIP code, <u>report the nearest city and country in the <i>Street Address</i> field</u> (as well as in <i>City</i> and <i>Country</i> fields).

Real Property Unique Identifier

Real Property Unique Identifier; Installation/Sub-Installation Identifier	(31) What is the distinction between the <i>Real Property Unique Identifier</i> versus the <i>Installation/Sub-Installation Identifier</i> (noncontiguous)? <i>Real Property Unique Identifier</i> provides a unique code for each asset (similar to a person's Social Security Number). The <i>Installation/Sub-Installation ID</i> provided for each asset record will allow the grouping of assets by installations/sub-installations for roll-up reporting.
--	---

City, State, Country, County

Location; GLC	(32) Are the <i>Geo Location Codes (GLCs)</i> required for city, state, country, and county? The GLCs for <i>City, State, Country, and County</i> are required for assets in the United States and District of Columbia. The GLCs for <i>City</i> and <i>Country</i> are required for foreign assets and assets in U.S. territories. GLCs may be found at http://www.gsa.gov/glc .
---------------	--

Congressional District

Congressional District	(33) How should <i>Congressional District</i> data be handled for an asset in a foreign country? <i>Congressional District</i> is not applicable for foreign assets and therefore need not be reported.
------------------------	--

ZIP code

ZIP code	(34) What value for ZIP code (or a postal code) do I provide for real property located in a United States territory or a foreign country? The <i>ZIP code</i> data element is not required for assets located in a United States territory or foreign country that does not have a ZIP code.
----------	---

Disposition

Disposition	(35) If an agency disposes of an asset during the reporting period, is it required to report the asset to the FRPP? Yes, the agency must identify the asset as disposed by providing the required information for the disposition data element. See data element 23. Disposition.
-------------	---

Disposition	<p>(36) If an agency disposes of an asset during the reporting period, does the agency have to report all FRPP data elements for the asset?</p> <p>No, if an asset has been disposed, the agency is required to submit the following data elements, which are:</p> <ul style="list-style-type: none"> • <i>Real Property Type</i> • <i>Real Property Use</i> • <i>Legal Interest Indicator</i> • <i>Historic Indicator</i> • <i>Status = "disposed"</i> • <i>Reporting Agency</i> • <i>Size</i> • <i>Annual Operating Costs (Annual Net Rent to Lessor and Annual Operating and Maintenance Costs for Leases)</i> • <i>Real Property Unique Identifier</i> • <i>City</i> • <i>State</i> • <i>County</i> • <i>Country</i> • <i>Disposition</i> <ul style="list-style-type: none"> ○ "Disposition Value" can only be submitted for Sale or subcategories, Negotiated or Public Sale.
Disposition	<p>(37) Should an agency report a lease expiration as a disposed asset under the <i>Disposition Method</i> of Lease Termination (LX)?</p> <p>No, agencies should not report a lease expiration as a disposition under Lease Termination. Assets whose lease expires during the reporting year should report a disposition method of Lease Expiration (LE).</p>
Disposition	<p>(38) Are agencies required to report the sub-category of Public Benefit Conveyance or Sale in the <i>Disposition Method</i> sub-data element?</p> <p>No, agencies are only required to report the two-digit code for one of the six main categories for <i>Disposition Method</i>, i.e., Public Benefit Conveyance (PB), Federal Transfer (FT), Sale (SL), Demolition (DM), Lease Termination (LX), or Other (OT). If an agency knows the specific category of Public Benefit Conveyance or Sale, the agency may report that sub-category (the two-digit code) <u>instead</u> of the main category.</p>
Disposition	<p>(39) Can an agency provide a negative number or a zero for <i>Disposition Value</i>?</p> <p>The numeric value reported for <i>Disposition Value</i> must be greater than or equal to zero.</p>
Disposition	<p>(40) For dispositions; do agencies report the Annual Operating Costs of when the asset was disposed of?</p> <p>Agencies are to report the full year of annual operating costs for the asset/lease, regardless of when the asset/lease was disposed of.</p>
Disposition	<p>(41) If an agency reports <i>Disposition</i>, is it required to report the <i>Real Property Unique Identifier</i> and <i>Reporting Agency</i>?</p> <p>Yes, if an asset has left the inventory, an agency must report the <i>Real Property Unique Identifier</i> and <i>Reporting Agency</i>, as well as <i>Disposition</i> data element #23.</p>
Disposition	<p>(42) Why does an agency receive a list of missing Real Property Unique Identifiers during the confirmation step of the FRPP MS data submission process?</p> <p>Before an agency completes the confirmation step, FRPP MS will generate the Missing Assets report, listing missing Real Property Unique Identifiers in the current reporting period compared to the previous year's reporting. Agencies will need to correct data or be prepared to explain these variances to OMB.</p>

Sustainability

Sustainability	<p>(43) Do I report the <i>Sustainability</i> data element on all assets in my inventory?</p> <p>Reporting is required for all buildings greater than 5,000 gross square feet (GSF).</p>
Sustainability	<p>(44) How do I determine if an asset is sustainable?</p> <p>To be considered sustainable and report "Yes", the asset must meet the 2016 Guiding Principles for High Performance and Sustainable Buildings issued by the Council on Environmental Quality that can be found at https://www.whitehouse.gov/sites/default/files/docs/guiding_principles_for_sustainable_federal_buildings_and_associated_instructions_february_2016.pdf.</p>

Sustainability

(45) Who reports on leased buildings?

Compliance of leases with the 2016 Guiding Principles for High Performance and Sustainable Buildings issued by the Council on Environmental Quality is optional, not required. Square footage associated with sustainable leases will not be included in the calculation of agency compliance with the Guiding Principles toward the 15 percent sustainable Federal buildings. In the event that an agency wishes to report sustainable leases, the reporting agency is the agency that is the signatory to the lease.

Lease Expiration Date**(46) Does this date include any renewal options in the lease?**Lease
Expiration Date

No. The lease expiration date represents the expiration of the current lease term. Once a renewal option is formally exercised, the date will be the new expiration date.

Data Submission**(47) What do you include in a field if you don't have the information for one of the data elements?**Data
Submission

Agencies must make every effort to provide current and accurate data for all data elements that were approved by the FRPC.

(48) How must our agency submit real property information? When does the official FRPP reporting cycle begin?Data
Submission

Each agency must submit real property information annually as follows:

- a) Data for agencies' real property inventory is as of the last day of each fiscal year. The fiscal year ends on September 30.
- b) Agencies can begin uploading data to the FRPP MS for testing and validation at any time. The cut-off date for data submission is December 15.

(49) If agencies upload data using the XML format, will they still need to go through the validation and certification process in FRPP MS?Data
Submission

Yes, the authorized users will be required to validate and certify the data online.

(50) Can agencies have multiple data submissions to the FRPP MS and then upload it once?Data
Submission

Yes, agencies may stage and upload multiple files in agency inventory of the FRPP MS. However, the agency administrator for FRPP MS must confirm the inventory at the entire agency level after all the files have been uploaded to the main area of the database.

APPENDIX G: CFO ACT AGENCIES

The following agencies are required to submit data to the FRPP MS under EO 13327 and sections 901(b)(1) and (b)(2) of title 31, United States Code.

- Department of Agriculture
- Department of Commerce
- Department of Defense (includes Air Force, Army, Corps of Engineers, and Navy)
- Department of Education*
- Department of Energy
- Department of Health and Human Services
- Department of Homeland Security
- Department of Housing and Urban Development*
- Department of the Interior
- Department of Justice
- Department of Labor
- Department of State
- Department of Transportation
- Department of the Treasury
- Department of Veterans Affairs
- Environmental Protection Agency
- General Services Administration
- National Aeronautics and Space Administration
- National Science Foundation
- Nuclear Regulatory Commission*
- Office of Personnel Management
- Small Business Administration*
- Social Security Administration*
- United States Agency for International Development

*The following agencies obtain and use real estate through GSA: Department of Education, Department of Housing and Urban Development, Nuclear Regulatory Commission, Small Business Administration, and Social Security Administration. Consequently, these agencies do not report any real property assets to the FRPP system; these assets are reported by GSA.

APPENDIX H: FY 2016 GSA GUIDANCE: GATHERING PERSONNEL DATA

Introduction

The Administration has developed metrics to measure and benchmark the performance of the Federal Government's work in key administrative areas to include real property. To implement the real property element of the President's Management Agenda (PMA), four real property performance metrics have been developed and issued.

- Current Portfolio Square Feet as a Percent of Freeze the Footprint Baseline
- Rent per Square Foot
- Operation and Maintenance Cost per Square Foot
- Square Feet per Person

The metric "Square Feet per Person" requires that all Chief Financial Officer (CFO) Act agencies count federal and contractor personnel down to the asset level for all assets categorized as predominant use "Office" in the Federal Real Property Profile (FRPP). The purpose of this guidance document is to provide strategies and methodologies that agencies can use to count and report federal and contractor personnel at the asset level. Information on personnel location must be collected at the asset level to provide accurate data to assess how efficiently agencies are using their office space.

Requirement for Agencies

All CFO Act agencies are required to submit fiscal year (FY) 2016 personnel data for all assets that are predominantly used as office space. The data is to be reported on or before February 5, 2017. Personnel data includes both the number of federal employees and resident contractors and shall be reported at the individual asset level. Agencies will use the reporting tool established in the OMB MAX collaboration, information sharing and data collection web based application to submit their personnel data. Personnel counts for federal employees and resident contractors are the only data elements agencies must report. All other fields in the MAX templates will be pre-populated with data from the FY 2016 FRPP MS data submission files and the General Services Administration's (GSA) occupancy agreement (OA) databases.

General Services Administration Data Analysis

GSA will pair each agency's submitted personnel data with the applicable data reported in the FY 2016 FRPP MS to develop a square foot per person metric. Data will be calculated at the asset level and each agency's data will be summarized at the agency portfolio level. The results of the analysis will be provided to each agency upon completion. The timeline for completion is February 15, 2017. The results of this analysis will demonstrate the effectiveness of the metrics and the systems and/or methods agencies use to collect data to determine whether they require revision or enhancement. Combining metric values with standard real property data elements will facilitate identification of assets within agency portfolios that need additional review with regard to cost or space utilization and provide opportunities for cost and efficiency improvements.

Definition of Personnel Metric

The "Square Feet per Person" metric will be calculated by dividing the numerator "Current office space SF by asset" by the denominator "Personnel as whole number counts of federal employees and contractors in office space," using the definition below.

In consultation with the Chief Human Capital Officer (CHCO) Council, each agency should contact their CHCO to ensure the agency makes the count in a consistent manner. The reporting tool described in this guidance shall be used to report the data for this metric.

Personnel Definition:

- The total number of full and part time employees who are permanently assigned to a facility;
- Seasonal hires, interns, and other temporary staff if they predominantly work in the office and are employed for three months or longer; and
- Individuals who telework less than five days a week but are permanently assigned to the location are counted.
- The total number of resident contractors. Resident contractors are those whose primary work location is the facility in question. The term "Resident contractor" excludes janitorial staff, construction workers, movers, security guards, and all other contractors who do not work from a desk and are not typically considered "office workers."

Agency reported personnel data will be used for pre-decisional data analysis and will not be distributed outside of the federal community.

Methodologies for Personnel Data Gathering

The Square Feet per Person metric will provide agencies with the ability to compare their space utilization across all the office buildings within their portfolio and against other benchmark data. Calculating this metric requires knowing the square footage occupied by your agency in each office building and the number of people working in them.

The square feet needed for this metric will be provided from existing data sources including the FRPP MS and GSA occupancy agreement databases. Agencies will be required to submit personnel numbers for each building asset into the pre-loaded spreadsheets in MAX. There will be two separate columns in each row to populate personnel numbers. The first column will be populated with the total number of federal employees and the second column will be populated with the total number of resident contractors occupying each building asset.

Due to the large number of variations in systems and agency collection methods, it is not possible to provide a single methodology to collect personnel data that would apply across all CFO Act Agencies. Each organization submitting data for this metric will be required to develop an internal methodology for collecting the information according to their unique environment. The directions below are provided as a guide to assist in thinking through the types of resources and processes that could aid in developing your agency's data collection methodology:

- A. Determine where in the organization work location information is available. The key is to identify the work location for employees and contractors resident in federally owned or leased office buildings.
- B. Create business rules describing the systems, processes, definitions and constraints that apply to personnel data collected.
- C. Identify who owns the data systems. Coordinate with the business owners of the systems or data to discuss data collection requirements. At a minimum, meet with the CHCO or Human Resource (HR) representative and the Chief Information Officer (CIO). Others may include the Chief Acquisition Officer (CAO), Administrative Services and the Security Office.
- D. Catalog where the data can be found and identify what systems currently house the data.

A list of potential data sources for collecting federal employee counts could include:

- Human Resources Management System - The HR system will contain employee personnel data. A work location field may already be included in the database. An indicator to identify area for locality pay may also help in matching personnel records with the building data.
- Agency Specific Data Systems - Agencies may have developed their own method for capturing who is assigned to each building location. These systems should be updated on a regular basis to provide accurate data and account for employee and contractor churn.
- HR Connect - Customers of Treasury's HR Connect can access a report "Current Headcount by Org Building Location." This predefined standard report is available in the Workforce Analytics tool.
- Active Directory - This product provides authentication and authorization into computer systems and is tied to data that has been collected to determine who is actively using agency systems. Some agencies may have developed a method for determining the location of users and to identify users who are no longer accessing their computer systems.
- Identity Credentialing and Access Management System/Personal Identity Verification (PIV) Card - An agency's identity credentialing and access management system is the central system the agency uses to provide security clearances and could provide access verification credentials for both physical access to the buildings and logical access to computer systems.
- Information Technology (IT) Help Desk System - Help desk protocols often require employees or contractors to update contact information to include building location each time a request is made for IT support.
- Finance System - The agency finance system may provide payroll information that would include a physical building work address as part of the data that is merged with the HR system data.
- Data Calls to appropriate agency staff - A more manual intensive approach to data collection is to put out a data call to the lead people in the organization responsible for facility management or administration and require a template be completed by building to count personnel in each asset.

A list of potential data sources for collecting resident contractor counts could include:

- Identity Credentialing and Access Management System/PIV Card

- Active Directory
 - IT Help Desk
 - Data Call to appropriate agency staff
 - Poll of agency contracting officers - Contracting officers who have conducted acquisitions for professional services, may be a good source of contract terms and conditions to identify contracts that include federal office space or “onsite rates” in the price proposal.
- E. If the above systems or sources do not produce a data set that has employees and contractors by work location, it will be necessary to examine the data sources and determine how they can be merged. This can be done with any common field that exists between the data sources and complies with the business rules. Merging data based on address or an asset’s real property unique identifier that already exists in FRPP MS will be essential to providing the requested data.
- F. Verify and validate the accuracy of the data. Check against the business rules to ensure consistency.
- G. Begin planning and implementation of a long term solution to accurately report personnel on an annual basis at the asset level. Design a process to create a repeatable data collection methodology to ensure that each agency can report personnel data by asset with a high level of confidence in the accuracy of the data.

The goal is for each agency to have a permanent system for aligning personnel with real property assets. This data increases an agency’s responsibility to determine adequate and efficient space requirements, allow data analysis for policy formulation and impact studies, and develop accurate data for emergency management efforts.

Agency Examples of Current Processes to Collect Personnel Data

Some agencies have human resources systems that track employees to the asset level. Others have developed systems based upon Microsoft Active Directory or email systems that track employees to individual buildings for emergency management purposes. Examples of current agency practices are provided in the Appendices to provide insight into methods that can be used to collect personnel data.

Appendix A: Department of Treasury, Shared Services

Appendix B: Department of Interior, Microsoft Active Directory

Data Reporting

To assist agencies in this collection effort, OMB has developed the PMA Federal Office Building Personnel Homepage in MAX under the Financial Management Community. This is the landing page for the collection of Federal asset-based personnel data to support the Administration’s goals on benchmarking real estate data.

To access the PMA Federal Office Building Personnel Homepage, click on the following link to log in: <https://max.omb.gov/community/x/9luBKq>

If you do not have a MAX ID go to: <https://max.omb.gov/maxportal/>

At the top of the page click on “Don’t Have a MAX ID Yet?” and then click on the “Register Now” tab to obtain an ID. Once you have obtained a MAX ID click the first link provided above to reach the real property data collection home page.

Upon reaching the home page you will have the option of selecting from the following under the Application Link:

- **[2016 PMA--Owned and Direct Leased Properties Collection Tool](#)**
- **[2016 PMA--Personnel Data for GSA Occupancy Agreement \(OA\) Collection Tool](#)**

The two links are provided to allow for reporting agency personnel data by asset - one for agency owned properties and direct leases identified in the FRPP MS and the other for assets leased in GSA buildings through OAs.

Upon clicking on either link you will be presented with a new screen. On the left hand side you will find a list of agencies and bureau components. Clicking on your organization will present a spreadsheet listing the applicable assets.

Both collection templates will be partially pre-populated. The only two fields that need to be populated with a numeric value are # Federal Personnel and # Contractor Personnel. These values can be added directly into the MAX spreadsheet by clicking the edit button or the spreadsheet can be downloaded into Excel, populated and then uploaded to the MAX tool for submission. If you choose to update the spreadsheets online, be sure to save your work often!

It is important to note that while agency owned assets and direct leases may house more than one agency bureau, the asset will only appear in the spreadsheets under the predominate using organization, as reported in the FRPP. In order to produce accurate metrics, agencies must ensure that the spreadsheet is populated with the total number of personnel and contractors for the entire asset, not just the primary bureau occupant (*Agencies should ONLY report zero (0) in the spreadsheets if the asset truly has no personnel associated with it. If the agency knows that the building does house people but does not know how many, then the field should be left BLANK. Buildings with missing/blank personnel data will not be included in the space utilization metric calculation.*)

Assets that are occupied under GSA OAs, on the other hand, may be listed in the spreadsheets multiple times and under multiple organizations. In these cases, agencies should make every effort to report personnel data for each of the OAs. If the agency does not track personnel data at the OA level, every attempt should be made to distribute the total number of federal personnel and contractors in a manner consistent with the square feet reported (Agencies should ONLY report zero (0) in the spreadsheets if the OA truly has no personnel associated with it). If the agency knows that the OA does house people but does not know how many, then the field should be left BLANK. OAs with missing/blank personnel data will not be included in the space utilization metric calculation.

Once you have completed adding the number of federal personnel and contractor personnel assigned to each asset or OA, you must save the data and submit. Agencies are to complete the data entry process no later than February 5, 2017.

For questions on the GSA guidance, please contact Stephanie Klodzen at (202) 501-1376 or stephanie.klodzen@gsa.gov. Questions regarding PMA Policy, metrics and the MAX data collection tool may be directed to Aaron Eisenbarth at (571) 241-1072.

Appendices to FY 2016 GSA Guidance for Gathering Personnel Data

Appendix A: Department of the Treasury, Shared Services

Appendix B: Department of the Interior, Microsoft Active Directory

APPENDIX A: DEPARTMENT OF TREASURY, SHARED SERVICES

Treasury Shared Services customers have a variety of tools available for consumption. One such tool is Workforce Analytics. Workforce Analytics contains several predefined standard reports as well as the ability to create custom reports. The datasets contained within Workforce Analytics include NFC Paypers, NFC Perhis and HR Connect.

The Enterprise Data Management team has created a report to identify buildings utilized by Treasury Shared Services customers. The report will display a headcount and FTE count of employees by agency, building state, building address and office name. This FTE count is calculated by the following: Full-time = 1, Part-time = 0.5

It is important to note that the information is updated by personnel. The information will only be accurate if the agency personnel update the HR Connect information in a timely and accurate manner.

Please follow these steps to access the report.

Step 1: Authenticate to Workforce Analytics

The Workforce Analytics tool is available here: [Workforce Analytics](#)

The username and password will be the user's HR Connect username and password. Contractors not managed through HR Connect will need to contact the HR Connect helpdesk for assistance.

The first time accessing the system the user will be prompted to enter credentials twice. This is expected. The second processing of credentials may take several minutes. Please be patient. After successful login the user will see the home screen.

Contact EDM Report Builder Data Refresh Status

Current

Predefined workforce reports as of the most recent pay period focused on workforce demographics and statistics. Many reports have filter capability to allow customization of the report data output. Modify the filter fields at the top of the report and click on 'View Report' to update the report results.

Demographics

- [Current Headcount Avg Age Avg YOS By Organization...Read More](#)

Locate the report *Current Headcount By Org Building Location* listed under 'Demographics'

Click the link to launch the report.

The user's department and agency will automatically populate as available values in the parameter fields. Select the desired values and click 'View Report' to run the report.

Home > Current WA > Demographics > Current_Headcount_By_Org_Building_Location Home | My Subscriptions | Site Settings | Help

Department: Department of the Treasury Bureau: ALCHL & TOB TAX & TRADE BUR

After the report output displays the user will have the option to drill down the organization to the state, address and office.

APPENDIX B: DEPARTMENT OF THE INTERIOR MICROSOFT ACTIVE DIRECTORY

The Department of the Interior (DOI) developed an information technology application that enables all 70,000 DOI employees to update their location information in MyAccount, an application contained within Active Directory, an application within DOI's IT system. Active Directory is a Microsoft tool used by the CIO for employee rights, permissions and authentication. MyAccount prompts employees to enter their physical location (Postal address and Latitude/Longitude) through direct data entry of these values or with the help of a map feature.

Employees are prompted to enter this data once a year through issuance of a Department-wide memo to all employees. The data entered into MyAccount then updates each employee's Active Directory information in the IT system. A future effort will align these employee locations/buildings with the Real Property Unique Identification (RPUID) number contained in the Federal Real Property Profile database.

The design of the MyAccount application allows an employee to enter their data within two minutes. To implement the PMA personnel data collection process, DOI plans to provide two months for all 70,000 employees to enter their information. The OCIO and the bureaus will then compile the information and associate each address / location with the correct RPUID to identify employees to the appropriate building. Future enhancements to MyAccount will allow DOI to pre-populate the RPUID in MyAccount to enable employees to more readily identify (in the system) the specific buildings in which they work.

The next five Appendix pages display the information screen and instruction for using MyAccount.

The My Account application was originally created in response to Federal Real Property Profile guidance to count and report personnel in each facility in 2011 and the need of DOI Emergency Management program to account for DOI employees in facilities impacted by fires, earthquakes, hurricanes, and tornadoes. Two other benefits My Account provides are it enables DOI security staff to document each facility's security level and it allows the DOI real property program to characterize space utilization to identify collocation and consolidation opportunities.

Other Features

• Group lookup:

If you want to know who's in a specific email distribution list or find out which lists you are in, then MyAccount can help. Here's how:

1. Go to MyAccount.
2. Click on "Distribution Groups" icon.
3. See the list of email distribution groups in which you are a member.
4. Click on the group name to see the members.
5. To search for a group, use the search box to find a group and then hit 'Enter' to submit.

Dear employee,

We are pleased to announce a new BisonConnect tool called **MyAccount**.

This new tool is designed to help you locate your colleagues and make it easier for others to find you by ensuring your directory information is correct! Now you can update your directory profile, including your work location, and identify group distribution list members.

How to update your directory profile

It's now easy to update your contact information in the [BisonConnect Directory](#), so please update your info today! Here's how:

1. Open MyAccount through the new BisonConnect [App Launcher](#) (the "Google Grid"), or Visit <https://myaccount.doi.gov/> and enter your user name (note: your username is what you use to login to your network computer, plus your @bureau.gov at the end, e.g. jsmith@ios.doi.gov or Jean_smith@ios.doi.gov - use the same password you use to login to your network computer).
2. Click on the "My Profile" icon.
3. Click any field to enter or edit information (fields are automatically saved after pressing Enter or clicking out of a field).
4. Your updated directory profile will be available the following business day.

What you need to do

- Update your directory profile by March 31, 2014.
- When updating your address information, make sure to use the lookup tool (a magnifying glass) to add the longitude and latitude for your work location.

If you have any questions or comments, please contact your [help desk](#).

U.S. Department of the Interior

How to use MyAccount

MyAccount is designed to help you locate others and make it easier for others to find you. All DOI employees can now easily **update your directory profile** and **lookup group distribution list members**.

Getting Started

- Open MyAccount through the new BisonConnect [App Launcher](#) (the “Google Grid”), or Visit <https://myaccount.doi.gov/> and enter your user name (note: your username is what you use to login to your network computer, plus your @bureau.gov at the end, e.g. jsmith@ios.doi.gov or John_Smith@ios.doi.gov - use the same password you use to login to your network computer).
- Log in to myaccount.fws.gov using the same username and password you use to login to your computer credentials
- You should see the following screen:

Update My Profile

Here's how to update your directory profile

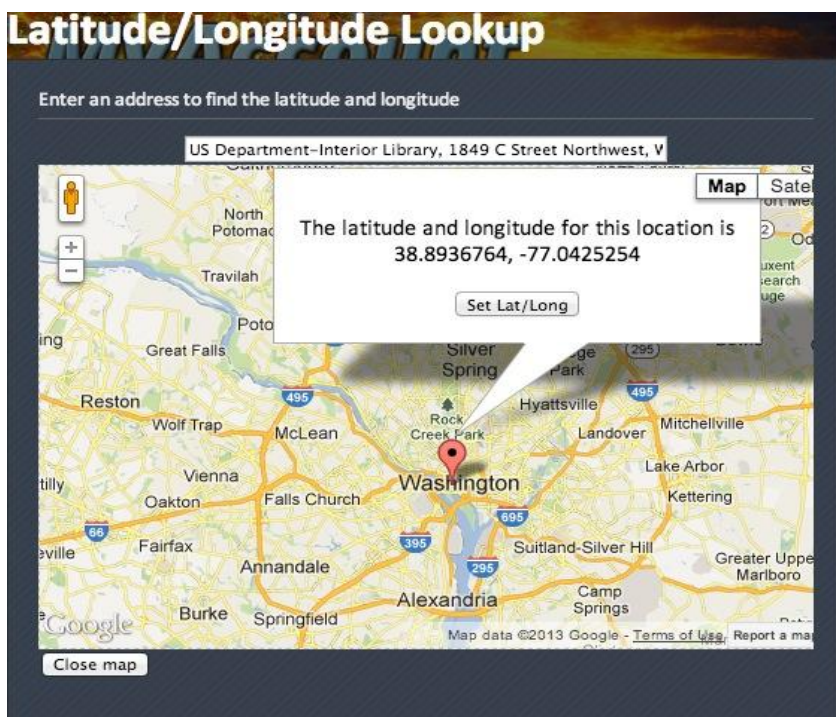

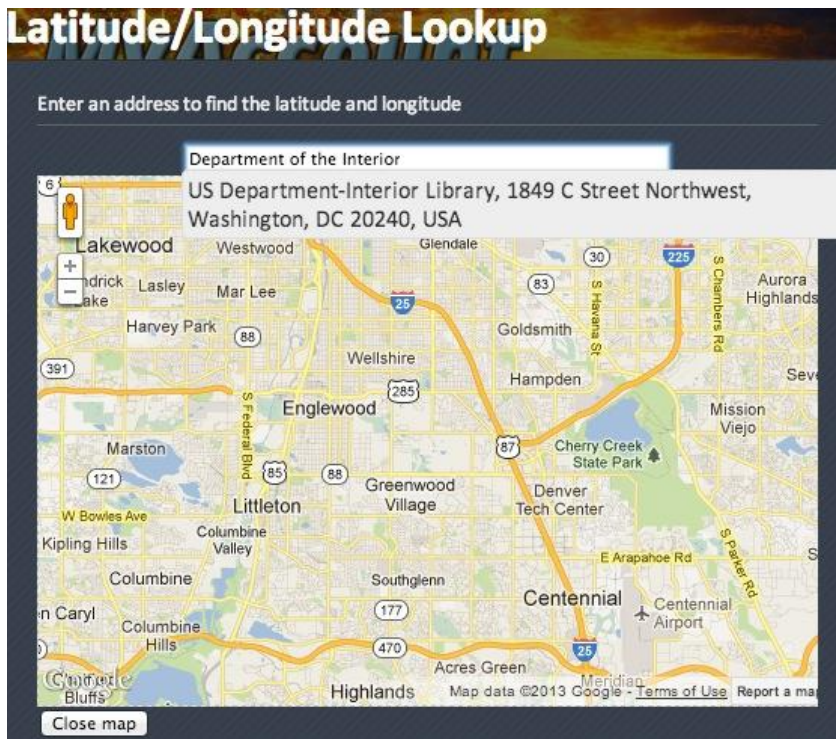

- Click on the “My Profile” icon to edit your directory information
- Enter information for all of the appropriate fields including title, supervisor and organization code (org code)
- Your updated directory profile will be available the following business day

Add address, latitude and longitude

Here's what you need to know

- If you have an address populated in the directory, MyAccount will automatically populate the latitude and longitude based on that address however
- If you don't have an address populated in the directory, you have the option to add one
- Click on the magnifying glass icon to the right to enter an address
- Once you choose an address from the suggestion, (pressing enter or clicking the address), a dialog to populate latitude and longitude will appear

Group Lookup

If you want to know who's in a specific email distribution list across all Bureaus, and which lists you are in, then use our new Group lookup. Here's how:

- Log into <https://myaccount.doi.gov/> using the same username and password you use to login to your computer
- Click on "Distribution Groups" icon
- See the list of email distribution groups in which you are a member
- Click on the group name to see the members
- To search for a group, use the search box to find a group and then hit 'Enter' to submit

If you are a manager of a group, you will be allowed to make changes to that group's membership.
