GSA ORDER

SUBJECT: Environmental considerations in decisionmaking

1. Purpose. This order establishes policy and assigns responsibility for implementing the National Environmental Policy Act (NEPA), its implementing regulations, and related laws, executive orders, and regulations in the decisionmaking processes of the General Services Administration (GSA).
2. Cancellation. ADM 1095.1E, dated December 8, 1995, is canceled.
3. Background. The National Environmental Policy Act (NEPA) and the Government wide implementing regulations of the Council on Environmental Quality (40 CFR 1500-1508, hereinafter, the CEQ regulations) require that each Federal agency consider the impact of its actions on the human environment, and prescribes procedures to be followed in doing so. Other laws, executive orders, and regulations provide related direction. Each Federal agency is required to implement internal procedures to ensure that the requirements of NEPA are met. Existing orders are out of date and do not provide for current requirements.
4. Nature of revision. This revision reflects a thorough internal review of GSA's systems for implementing NEPA. It replaces an interim order, ADM 1095.1E, which was adopted to govern GSA's compliance with NEPA while this review took place. This revised order is issued in coordination with an explanatory desk guide to NEPA review, which together provide GSA with an efficient, up-to-date NEPA compliance system that is consistent with principles of accountability, flexibility, and environmental responsibility.
5. Policy: In all its decisionmaking, GSA will attend carefully to the National Environmental Policy set forth in Section 101 of NEPA. To the maximum extent practicable, GSA will ensure that its actions protect and where possible improve the quality of the human environment, including the built and sociocultural environments of the nation's urban areas. GSA decisionmakers will use the NEPA review process prescribed in the CEQ regulations as a practical planning tool, and integrate both the NEPA review process and the Section 101 National Environmental Policy into decisionmaking in an efficient, cost-effective manner. The NEPA review process will be initiated at the earliest possible stage in planning any GSA action, and will be carried forward in coordination with other planning activities. Decisionmakers will ensure that they have reviewed and fully understand the environmental impacts of each decision, before making any such decision. All managers responsible for decisionmaking on GSA actions will be accountable for being knowledgeable about, and attendant to, the requirements of NEPA and the National Environmental Policy that these requirements are designed to advance.
