

# U.S. Land Port of Entry Expansion and Modernization

Alexandria Bay, New York | March 2019

## New progress

- Nearing completion of the commercial building exterior framing.
- Installed overhead parking deck structural steel and precast tees to column line P9.
- Delivered and installed commercial building electrical switchgear and generator switchgear.
- Provide permanent power to the building, following testing of the building's electrical systems.
- Completed the west wall of the non-intrusive inspection building by the utility company.
- Tested and passed the roof drain and overflow system.
- Completed sprinkler piping testing at the warehouse and GSA maintenance area, including fire pump room.
- Utility company begun removing and relocating the existing utility poles on site.
- Completed hazmat building foundations.

## Look ahead

- Perform exterior mock up testing within the next month.
- Following the mock up testing, begin installation of the exterior facade panels around the perimeter of the commercial building.
- Complete Phase One overhead parking structure steel and double-tees by the end of the month.

## Project facts

- **Scope:** Facility-wide modernization and expansion
- **Cost:** \$215 million
- **Congressional appropriations:** Phase One funding appropriated in [fiscal year 2016 budget](#). Phase Two funding appropriated in fiscal year 2018 in the amount of approximately \$133 million.
- **Contract:** Awarded in June 2017 to Northland/Cianbro Joint Venture

## Advisories

Access to Deringer Road is shifted to the south along the I-81 southbound on ramp.

The weather in this area can be dangerous for drivers. Please drive carefully and pay attention to construction signage and maintenance vehicles.
