Meredith Whitehead

Deputy Assistant Commissioner, Office of Systems Management
Federal Acquisition Service
U.S. General Services Administration

Meredith "Memi" Whitehead serves as the director of the Integrated Award Environment (IAE) office in the GSA Federal Acquisition Service (FAS) Technology Transformation Services (TTS), where she provides management and oversight of the IAE program. IAE operates, maintains, and is modernizing a portfolio of government-wide systems (including SAM.gov, FAPIIS, FSRS, eSRS, FPDS, and CPARS) which support the federal award process.

Memi has more than a dozen years of program management experience within IAE, having served in roles of increasing responsibility. Her operational knowledge of the IAE systems, data, and business processes, combined with her understanding of the policy context that drives IAE systems, allows her to quickly assess change and identify realistic solutions. Prior to joining GSA, Memi was a highly decorated U.S. Army intelligence officer. Throughout the course of 14 years, she held multiple leadership, command, and staff positions, and deployed in support of peacekeeping, the global war on terrorism, and humanitarian missions.

Memi has a Bachelor of Arts in International Studies and East Asian Studies from Dickinson College in Carlisle, PA, and a Masters of Engineering in Cybersecurity Policy and Compliance from The George Washington University in Washington, DC.
