2.2. Authorizations may be executed under this Areawide Contract at any time during the Term of this Areawide Contract, up to and including the last date this Areawide Contract is effective. The term of any Authorization executed under this contract may be for a term of up to ten (10) years, which term may extend beyond the Term of this Areawide Contract. ARTICLE 3. EXISTING CONTRACTS

3.1. The parties agree that an Agency currently acquiring Service from the Contractor under a separate written contract may continue to do so until that contract expires or until such time as the Agency and the Contractor mutually agree to terminate that separate written contract and have such Service provided pursuant to this Areawide Contract by executing an appropriate Authorization or Authorizations.

Such changes are considered internal to the party involved. Where changes are required in effective Authorizations because of a change in the Service requirements of an Ordering Agency, an amended Authorization shall be mutually agreed upon and executed.

4.3. An Ordering Agency or the Contractor may discontinue Service provided pursuant to this Areawide Contract to a particular Federal facility or installation by delivering a written Termination Authorization to the other. 4.4. In the event the Areawide Contract is not renewed at the expiration of the contract term, any active Authorizations for services shall be controlled by the Areawide Contract terms and conditions in effect at the time of award.

The charges for such technical assistance shall be calculated at the time the technical assistance is rendered, in accordance with the Contractor's applicable billing schedule in effect at the time the technical assistance is rendered (except as otherwise mutually agreed upon by the Contractor and the Ordering Agency in writing), and the assistance shall comply with Contractor's Tariffs, Contractor's Terms and Conditions, and any other terms and conditions set forth in an Authorization, as

applicable. The Authorization used to obtain and provide the matters, Services, or technical assistance described in this Article 5.6 shall contain information descriptive of the matters, Services, or technical assistance required or requested, including the amount of (or method to determine) any payment to be made by the Ordering Agency to the Contractor for the provision of said matters, Services, or technical assistance.

5.7. The website address of system can be found at <http://www.esrs.gov>.

ARTICLE 18. UTILITY ENERGY SERVICE CONTRACTS

18.1. Performance Assurance: Energy Conservation Measures (ECMs) will not normally be included within a project unless a net overall energy usage or cost reduction can be demonstrated and verified. When ECM construction is complete, the commissioning process provides data for this verification. UESCs that include a savings guarantee will require additional measurement and verification (M&V) activities during the performance period. Verification standards for energy projects are established in the M&V Guidelines: Measurement and Verification for Performance Based Contracts, published by the Department of Energy's Federal Energy Management Program (FEMP). All UESCs, regardless of whether they include a savings guarantee, will include a Performance Assurance Plan with key performance indicators identified.

18.2. Unless otherwise provided by law, UESC performance assurances or guarantees of the savings generated by the ECMs must equal or exceed the total task order value.

18.3. Subcontracting: The Contractor may perform any or all of its requested Services through subcontractors, including its unregulated affiliates. ECM subcontractors shall be competitively selected in accordance with FAR 52.244-5 (Competition in Subcontracting) (DEC 1996) (See Article 14). Subcontractor selection shall be based on cost, experience, past performance and other such factors as the Contractor and the Ordering Agency may mutually deem appropriate and reasonably related to the Government's minimum requirements. Upon request by the Government, the Contractor shall make available to the contracting officer all documents related to the selection of a subcontractor. In no event shall the Service be provided by subcontractors listed as excluded from Federal Procurement Programs maintained by GSA pursuant to 48 C.F.R. 9.404 in accordance with 52.209-6 (Protecting the Government's Interest when Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment (AUG 2013) (See Article 14)).

18.4. For all Authorizations involving Energy Conservation Measures, it is desirable to have a Warranty Clause that addresses the specific needs and requirements of the work being performed and equipment that is to be provided by

the Contractor; however, in the absence of a Warranty Clause in the Authorization, the following language will serve as the default Clause:

If applicable and to the extent feasible, the Company shall pass through to the Agency all warranties on equipment installed or provided by it or its subcontractors on Government property with the following representation:

CONTRACTOR ACKNOWLEDGES THAT THE UNITED STATES OF AMERICA WILL OWN OR LEASE THE EQUIPMENT AND/OR MATERIALS BEING INSTALLED OR SUPPLIED HEREUNDER, AND, ACCORDINGLY, AGREES THAT ALL WARRANTIES SET FORTH HEREIN, OR OTHERWISE PROVIDED BY LAW IN FAVOR OF GOVERNMENT SHALL INURE ALSO TO THE BENEFIT OF THE UNITED STATES AND THAT ALL CLAIMS ARISING FROM ANY BREACH OF SUCH WARRANTIES OR AS A RESULT OF DEFECTS IN OR REPAIRS TO SUCH EQUIPMENT OR SUPPLIES MAY BE ASSERTED AGAINST CONTRACTOR OR MANUFACTURER DIRECTLY BY THE UNITED STATES OF AMERICA.

18.5. Contractor's Responsibilities under this Areawide Contract:

- (a) The Contractor shall not provide Energy Management Service to Federal facilities unless the facility is a current customer or prospective customer of the regulated utility within the franchised service territory of the utility company providing such services.
- (b) The work that is to be performed under the Authorization for Energy Management Services shall be limited to work resulting in a direct reduction in energy usage (see Article 1.1(j)) and any modification or repair that is necessary as a direct result of the installation of the ECM.

18.6. Guaranteed Savings and Scoring of UESC's by the Ordering Agency(ies):

UESC's that meet the definition of "Energy Management Service" ("EMS") prescribed in Article 1.1(k) of this Areawide Contract, and which follow the guidance prescribed in OMB Memoranda M-12-21 and M-98-13, may be scored for budgetary purposes by the Ordering Agency(ies) on an annual basis if the UESC requires:

- (a) Energy savings performance assurances or guarantees of the savings to be generated by improvements, which must cover the full cost of the Federal investment for the improvements;
- (b) Measurement and verification (M&V) of savings through commissioning and retro-commissioning; and
- (c) Competition or an alternatives analysis as part of the selection process prior to entering into a UESC.

18.7. Performance Verification Plan: In order to assure the necessary fiscal responsibility consistent with sound program management, alternatively financed UESCs should include a plan for continued action during the contract to assure continued accomplishment of expected performance (this is referred to as a Performance Assurance or Performance Verification Plan). The level of performance assurance (M&V) and its associated costs should be worth the level of certainty of cost savings that the Ordering Agency reasonably deems to be necessary. Each alternatively financed UESC should have a performance assurance plan to accomplish this. Such plans should provide for the separate evaluation of each energy conservation measure and combination of measures in order to identify the appropriate level of needed performance assurance activity based on the technical complexity, potential savings magnitude, and specific situation. (See Overview of the Measurement and Verification for Federal Energy Projects Guidelines Version 2.2 or FEMP Fact Sheet - Performance Assurance for Multi-Year Contracts Under the Utility Incentive Program for further guidance.) Inclusion of and compliance with the performance assurance plan in the specific project Task Order satisfies the requirements of Contractor under Articles 17.1 and 17.7.

18.8. The Ordering Agency shall provide GSA with copies of fully executed Exhibit "B" Authorizations for any EMS resulting from approved energy audits, including any applicable attachments, at the address provided in Article 16.1. The contractor shall provide financial schedules at interim delivery points as required by the ordering agency. Financial schedules are based upon the eProject Builder system and final financial schedules shall be submitted through the eProject Builder system <https://eprojectbuilder.lbl.gov>.

ARTICLE 19. MISCELLANEOUS

19.1. Contract Administration: The Ordering Agency shall assist in the day-to-day administration of the Service being provided to it under an Authorization.

19.2. Anti-Deficiency: Unless otherwise authorized by Public Law or Federal Regulation, nothing contained herein shall be construed as binding the Government to expend, in any one fiscal year, any sum in excess of the appropriation

made by Congress for that fiscal year in furtherance of the matter of any Authorization executed in accordance with this Areawide Contract or to involve the Government in an obligation for the future expenditure of monies before an appropriation is made (Anti-Deficiency Act, 31 U.S.C. 1341.A.1).

19.3. Obligation to Serve: Nothing contained in this Areawide Contract shall obligate the Contractor to take any action which it may consider to be detrimental to its obligations as a public utility.

19.4 Term of Authorizations: It is recognized that during the Term of this Areawide Contract, situations and/or requirements may arise where it may be desirable that the term of service to an Ordering Agency's facility extend beyond the Term of this Areawide Contract. In such event, the particular Authorization involved may specify a term extending beyond the Term of this Areawide Contract, provided that it is within the contracting authority of the Ordering Agency and appropriate termination liability provisions have been negotiated between the Contractor and Ordering Agency to address unamortized balances for connection charge or energy management service projects.

19.5. Indemnification: Any indemnification language contained in standard form agreements executed between the Ordering Agency and the Contractor shall be binding upon the Federal Government only to the extent authorized by law.

19.6. Exhibit Procedure: The execution of an exhibit by Contractor and an Ordering Agency shall not supersede a previously executed exhibit addressing the same service unless specifically stated. Allowable terms of exhibits shall be consistent with the guidance and policy set forth in Article 2.2 of this Areawide Contract.

19.7. Construction Wage Rates Requirements: Since this Areawide Public Utility Contract does not involve the regulated utility company performing on a Federally funded or assisted contract for the construction, alteration, or repair of a public work and/or public facility, the Construction Wage Rates Requirements (previously known as the Davis Bacon Act) does not apply to the work to be performed by the regulated utility company in connection with the provision of regulated utility services. However, if a determination by the Department of Labor (DOL) differs, the regulated utility company will be solely responsible for any financial liability for any contrary determination by DOL.

IN WITNESS WHEREOF, the parties have executed this Areawide Contract as of the day and the year first above written.
