

# Clearing the Cache – Microsoft Edge

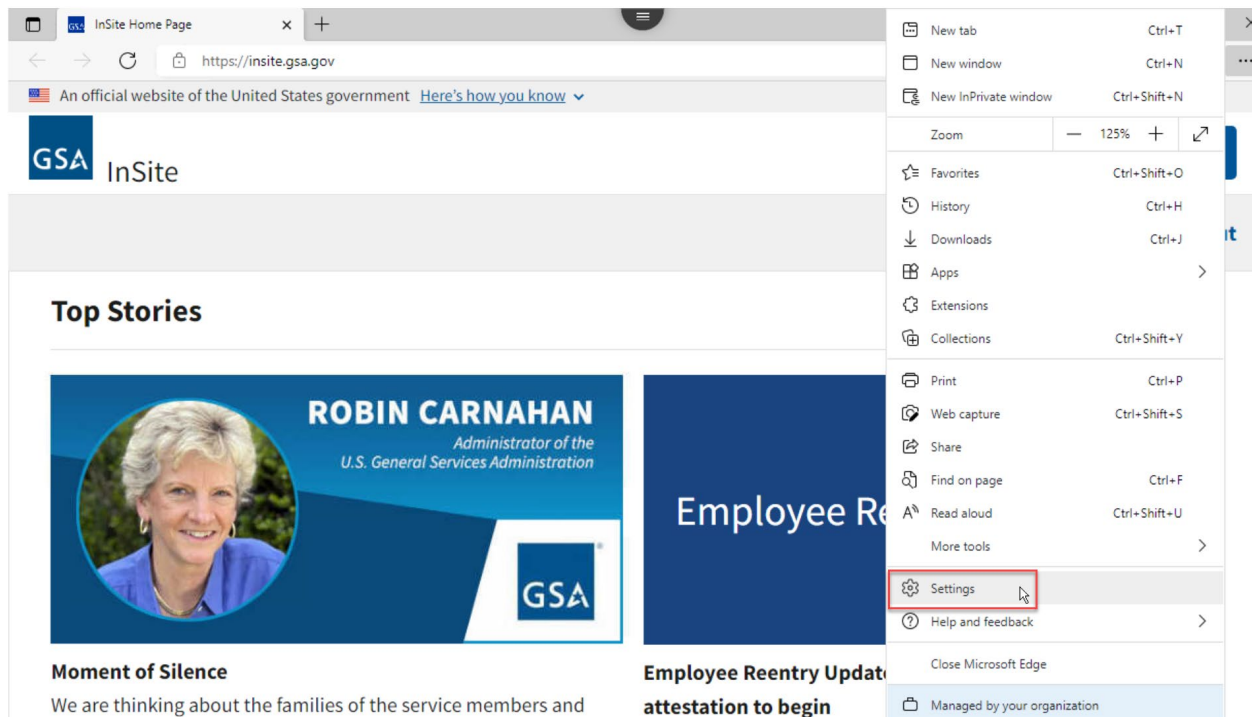

Follow this job aid to learn how to clear the cache for Microsoft Edge. This can resolve appearance and performance issues with HR Links.

## Clear the Cache in Microsoft Edge

1. Sign out of HR Links if you are in it.
2. Select the **Settings and More** icon (3 dots) in the upper right corner of the Edge window.

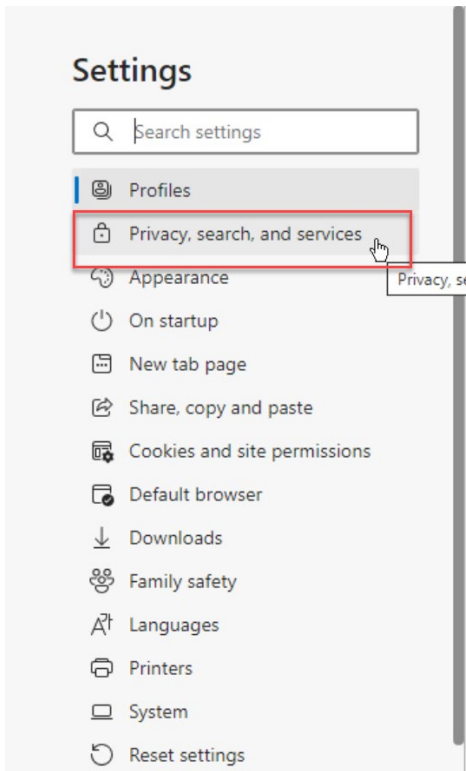

3. Select **Settings**. The Settings window is displayed.

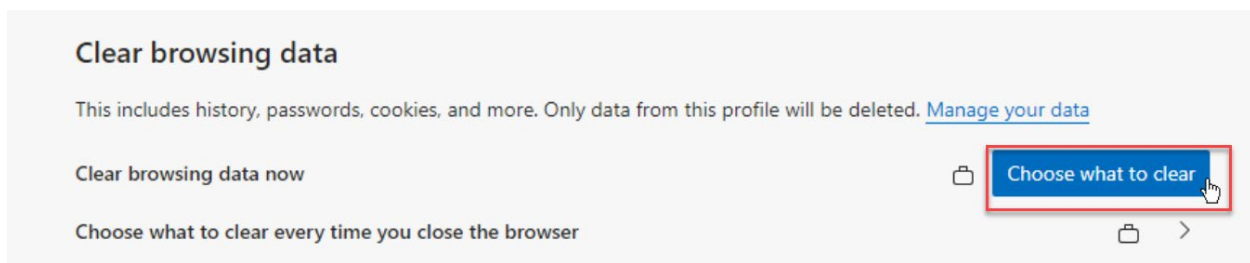

4. Select the **Privacy, search and services** option from the Settings menu. The Privacy screen is displayed.

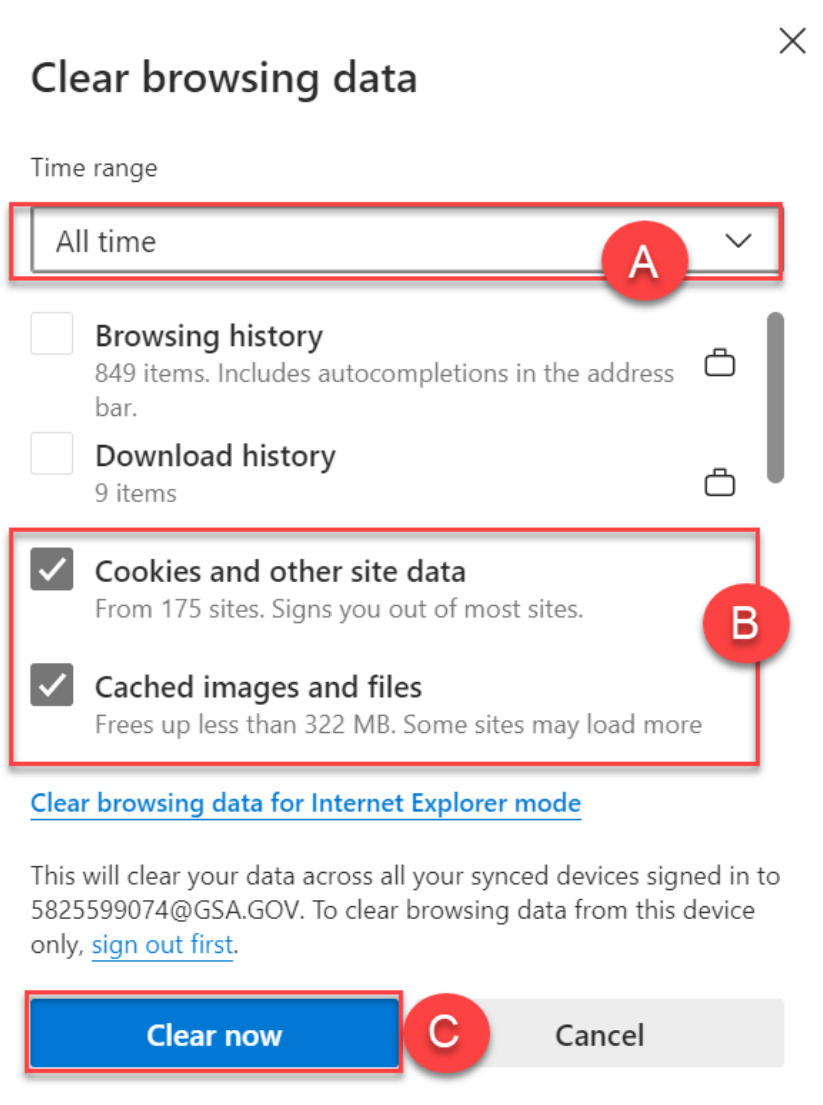

5. Scroll down to the **Clear Browsing Data** area and select the **Choose what to clear** button.

6. The Clear Browsing Data dialog box is displayed.

- a. Choose **All Time** for the Time Range.
  - b. Select the **Cookies and other site data** and **Cached images and files** check boxes.
  - c. Select the **Clear now** button.
7. Close all Microsoft Edge application windows using the **X** button in the upper right corner.
